SECTION 1: RISK FACTORS

Investing in the NCS involves significant risk. Investors of the NCS should consider carefully all of the information in the Offer Documents, including in particular, the risk factors discussed below. Unless the context requires otherwise, the risk factors described in the Offer Documents apply alone to the Issuer. If any of the following risks actually occur, our business, results of operations, cash flow, financial condition and prospects could be materially and adversely affected. In addition, other risks and uncertainties not currently known to us or that we currently deem immaterial may also materially and adversely affect our business, financial condition, cash flows and results of operations. This could, in turn, affect adversely our ability to make payments on the NCS offered pursuant to the Offer Documents.

Unless specified or quantified in the relevant risk factors, the Issuer is not in a position to quantify the financial or other implications of any risk mentioned herein below.

In this section, a reference to “we”, “us”, or “our” means the Issuer, unless the context otherwise requires.

The risks in relation to investing in NCS are mentioned in the relevant Key Information Document.

1. RISKS RELATING TO THE ISSUER

The Bank’s business is vulnerable to interest rate risk, and volatility in interest rates could adversely affect the Bank’s net interest margin, the value of its fixed income portfolio, its income from treasury operations, the quality of its loan portfolio and its financial performance.

The Bank’s results of operations depend to a great extent on its net interest income. Net interest income (comprised of interest earned minus interest expended) constituted 68.52% 72.68% and 68.98% of the Bank’s operating revenue (comprised of net interest income plus non-interest income) for fiscals 2022, 2023 and 2024 respectively. Interest rates are sensitive to many factors beyond the Bank’s control, including the RBI’s monetary policy, deregulation of the financial sector in India, domestic and international economic and political conditions, and other factors. An increase in interest rates applicable to the Bank’s liabilities, without a corresponding increase in interest rates applicable to its assets, will result in a decline in net interest income. Furthermore, in the event of rising interest rates, the Bank’s borrowers may not be willing to pay correspondingly higher interest rates on their borrowings and may choose to repay their loans with the Bank, particularly if they are able to switch to more competitively priced loans offered by other banks. Any inability of the Bank to retain customers as a result of rising interest rates may adversely impact the Bank’s earnings in future periods. Similarly, in the event of falling interest rates, the Bank may face more challenges in retaining its customers if it is unable to offer competitive rates as compared with other banks in the market.

In addition, as a result of the RBI-mandated reserve requirements, the Bank is also more structurally exposed to interest rate risks than banks in many other countries. Under the RBI regulations, the Bank’s liabilities are subject to the statutory liquidity ratio (SLR) requirement such that a minimum specified percentage, currently 18%, of a bank’s net demand and time liabilities must be invested in Government securities and other approved securities. These securities generally carry fixed coupons and, in an environment of rising interest rates, the value of Government securities and other fixed income securities decline. The volatility in interest rates is reflected in the movement of the semi-annual yield on the ten-year Government bond, which was 6.86% as at March 31, 2022, 7.31% as at March 31, 2023 and 7.056% as at March 31, 2024. A decline in the valuation of the Bank’s trading book as a result of rising interest rates may adversely impact the Bank’s future financial performance and the trading price of the Bonds.

The Bank had a gross debenture and bond portfolio of ₹46,287 crores as at March 31, 2022, ₹56,265 crores as at March 31, 2023 and ₹75,004 crores as at March 31, 2024 of which substantially all of the bonds in the portfolio are fixed rate bonds. In the event of a rise in interest rates, the portfolio will be exposed to an adverse impact on the valuation of such bonds. Any rise in interest rates or fall in the market value of the securities in the Bank’s proprietary portfolio may adversely affect the Bank’s future performance and the trading price of the Bonds.

Global Treasury yields have seen a sharp fall in the recent months driven by a build up of rate cut expectations. US Treasury has been driving the down move as recent labour data suggests a growing weakness in the economy. US rates now predict a total of ~108 bps rate cut in CY2025 and ~40 bps cut in September FOMC. US 10y Treasury is currently trading at 3.85% level.

Domestic markets have been driven by a mix of macro data, strong FPI buying and a generally favourable inflation outlook. During the month of July, FPIs remained net buyers in government debt for an amount of ~Rs 19,356 Crores. This follows a net buy of ~16,024 Crores in the June, the first month of bond inclusion. In the bi-monthly Monetary Policy Committee (MPC) conducted in August 2024, the decision was taken to hold the policy rates, and to keep the stance unchanged. The CPI and real GDP projections were kept unchanged at 4.50% and 7.20%, respectively. India July 2024 CPI inflation print came in at 3.54% against expectation of 3.65%, lower than the CPI print of 5.08% registered for the month of June 2024. The draft guidelines on LCR have also proven to be supportive of G-sec with the proposed guidelines indicating an increased demand for HQLA securities. Overall, the domestic debt market remains adequately supported and the India 10-year benchmark continues to trade in a range of 6.84-6.94% with a downward bias.

As a result of these rate hikes, Bank's asset yields have increased, primarily due to increase in yields of External Benchmark based loans & MCLR linked loans, while the repricing of retail term deposits has happened gradually over a period of time.

In December 2015, the Reserve Bank of India released guidelines on the computation of lending rates based on the marginal cost of funds methodology, which is applicable on incremental lending from April 1st 2016. Further, on 5 December 2018, the RBI published a report recommending referencing floating rate advances to certain external benchmarks which came into effect on October 01st 2019. To give effect to the aforesaid, the RBI, by way of its notification dated September 04th 2019, amended the Master Direction on Interest Rate on Advances, dated March 03rd 2016, pursuant to which, it linked all new floating rate personal or retail loans (housing, auto, etc.) and floating rate loans to micro and small enterprises extended by banks with effect from October 01st, 2019 to external benchmarks (**September 2019 Circular**). Further, on February 26th, 2020, the RBI stipulated that all new floating rate loans to the medium enterprises extended by banks from April 1st 2020, shall be linked to the external benchmarks as indicated in the September Circular. This change in the methodology for calculating the cost of funds may lead to lower lending rates and more frequent revisions in lending rates due to the prescribed monthly review of cost of funds. This may impact the yield on our interest-earning assets, our net interest income and our net interest margin.

For fiscal years 2022, 2023 and 2024 the Bank recorded income from Treasury operations ((profit/ loss) on sale of investments (net) and profit on exchange/derivative transactions (net)) of ₹3,290 crores ₹1,527 crores and ₹3,731 respectively. The Bank's income from treasury operations is subject to substantial volatility due to, among other things, changes in interest rates and foreign currency exchange rates as well as other market fluctuations. For example, an increase in interest rates may have a substantial impact on the value of certain of the Bank's investments. Any significant or sustained decline in income generated from treasury operations resulting from market volatility may adversely impact the Bank's financial performance and the trading price of the Bonds.

The Bank's level of non-performing assets is elevated, and if the level of its non-performing assets increases further and the overall quality of its loan portfolio deteriorates, the Bank's business will suffer.

As a result of widespread economic challenges faced by the Indian economy in general and the corporate sector in particular, as well as changes to Reserve Bank of India policies and guidelines related to non-performing and restructured loans and other changes to the law affecting non-performing and restructured loans, the non-performing loans and provisions of a number of Indian banks, including the Bank, increased significantly in fiscal year 2016, fiscal year 2017 and fiscal year 2018. The Bank's gross NPAs represented 2.82%, 2.02% and 1.43% of gross customer assets (including gross advances and credit substitutes, which include debentures and bonds, shares and other investments such as certificate of deposits, commercial papers and pass-through certificates, among others) as at March 31, 2022, March 31, 2023 and March 31, 2024 respectively. The Bank's net NPAs, represented 0.73%, 0.39% and 0.31% of net customer assets as at March 31, 2022, March 31, 2023 and March 31, 2024 respectively.

Adverse economic, regulatory and legal developments—including increased competition, inconsistent industrial and business growth in recent years, high levels of debt involved in financing of projects, the large number of frauds, regulatory and legal changes affecting the Bank's loan portfolio, loss or disruptions caused by epidemics or pandemics, such as the COVID-19 pandemic and challenging economic conditions affecting the Bank's project finance loan portfolio or other key sectors—could cause further increases in the level of the Bank's non-performing assets and have a material adverse impact on the quality of the Bank's loan portfolio. Additionally, if the systems and process established by the Bank to identify NPAs fail or are not able to identify the NPAs correctly and in a timely manner, the Bank's financial position could be adversely affected. The Bank has in the past experienced certain deficiencies in its NPA identification and monitoring systems and processes. Although the Bank believes that it has now taken appropriate measures to address those issues, it cannot assure you that such systems and processes will always function appropriately or correctly identify NPAs in a timely manner or at all, or that similar deficiencies will not arise in the future.

Provisions are created by a charge to expense and represent the Bank's estimate for loan losses and risks inherent in the credit portfolio, pursuant to applicable RBI guidelines. As at March 31, 2022, March 31, 2023 and March 31, 2024 the provisioning coverage ratio (including prudential write offs) of the Bank was 90.51%, 93.71%, and 94.07% respectively. The determination of an appropriate level of loan losses and provisions required inherently involves a degree of subjectivity and requires that the Bank make estimates of current credit risks and future trends, all of which may undergo material changes. Therefore, the Bank's provisions may not be adequate to cover any further increase in the amount of non-performing loans or any further deterioration in its non-performing loan portfolio.

If the level of the Bank's non-performing assets increases, the overall quality of its loan portfolio deteriorates or it experiences further ageing of the assets after being classified as non-performing, an increase in provisions could be required. There can be no assurance that the percentage of NPAs that the Bank will be able to recover will be similar to the Bank's past experience of recoveries of NPAs. As a result, the Bank's provisioning costs could increase, its net interest income and net interest margin could be negatively impacted due to non-accrual of income on non-performing loans, the Bank's credit ratings and liquidity may be adversely impacted, the Bank may become subject to enhanced regulatory oversight and scrutiny, and the Bank's reputation, its business, its future financial performance and the trading price of the Bonds could be adversely impacted.

If regulatory and legal changes continue to impose increasingly stringent requirements (including by way of clarifications or interpretations to extant regulatory guidelines) regarding non-performing loans and provisioning for such loans, the Bank's business will suffer.

Banks in India are required to make provisions for all their loans in accordance with guidelines issued by the RBI, which prescribes the accounting for loss provisioning, unlike in the United States and European Union where a separate body sets accounting standards, including for provisioning. Under the RBI guidelines, Indian banks are required to make provisions on standard, sub-standard and doubtful assets at rates prescribed by the RBI.

The RBI assesses compliance by banks with extant prudential norms on income recognition, asset classification and provisioning as part of its supervisory processes. As a part of such review, the RBI may identify divergences in the Bank's asset classification and provisioning as reported in its financial statements. The RBI further requires such divergences to be reported in the financial statements if the divergences exceed a specified threshold as per the RBI norms. The Bank is required to address the divergences and carry out the adjustments in the asset classification and provisioning, if any, arising out of the divergences, in the financial statements of the subsequent financial year. For example, as part of the RBI's supervisory process for fiscal years 2016 and 2017, the RBI pointed out certain instances of divergences in respect of the Bank's asset classification for gross NPAs amounting to ₹9,478 crores and ₹5,633 crores, respectively. Any such divergences identified by the RBI in its future review process may lead to an increase in the level of NPAs and an increase in provisions of the Bank in the subsequent financial year, which may adversely impact the Bank's financial performance and the trading price of the Bonds.

The RBI has substantially expanded its guidance relating to the identification and classification of non-performing assets over the last five years, which has resulted in an increase in the Bank's loans classified as non-performing and an increase in provisions. For example, on June 07th 2019, the RBI established a new regulatory framework for resolution of stressed assets which introduced more stringent provisioning requirements by providing for early recognition and reporting of default in respect of large borrowers by banks, financial institutions and NBFCs and a stringent review and monitoring of stressed assets. If regulators, including the RBI, continue to impose increasingly stringent requirements (including by way of clarifications or interpretations to extant regulatory guidelines) regarding non-performing loans and provisioning for such loans, the level of non-performing loans could increase, and the overall quality of the Bank's loan portfolio could deteriorate. In addition, the RBI's annual supervisory process may assess higher provisions than the Bank has made. Any deterioration or increase in the Bank's NPA portfolio could increase the Bank's provisioning costs, which would adversely affect the Bank's financial performance and the trading price of the Bonds.

The Bank has a high concentration of loans to certain borrowers, borrower groups and industry sectors and if a substantial portion of these loans become non-performing, the overall quality of the Bank's loan portfolio, the Bank's business and the trading price of the Bonds could be adversely affected.

The Bank calculates the level of its exposure to any industry or customer in accordance with the guidelines established by the RBI. The Bank's loan portfolio and non-performing asset portfolio have a high concentration in certain industries, the most significant of which are Banking and Finance, Trade, Infrastructure (excl Power), Engineering and NBFCs industry representing 6.63%, 3.96%, 3.86%, 3.31%, and 2.87% respectively, of the Bank's gross fund-based loans outstanding and credit substitutes as at March 31, 2024.

The Bank therefore risks overexposure to industry sectors. There are uncertainties in respect of certain sectors of the Indian economy due to global and domestic economic conditions and high corporate leverage, and any significant deterioration in the performance of a particular sector, driven by events not within the Bank's control, such as worsened economic conditions, regulatory action or policy announcements by Government or State Government authorities, could adversely impact the ability of borrowers in that industry to service their debt obligations to the Bank. As a result, the Bank could experience increased delinquency risk which may adversely impact the Bank's financial performance and the trading price of the Bonds.

The Bank is also exposed to large loan concentrations with a few borrowers. As at March 31, 2024, aggregate credit exposure (including derivative exposure) to the Bank's 20 largest borrowers (fund and non-fund based) amounted to ₹1,26,510 crores, representing 73.18% of the Bank's total capital (comprising Tier I capital and Tier II capital). The Bank's single largest borrower (fund and non-fund based) as at March 31, 2024 had a loan balance of ₹18,675 crores, representing 10.80% of the Bank's total capital (comprising Tier I capital and Tier II capital). Any default by these borrowers or deterioration in the credit quality of these assets could have a significant adverse effect on the Bank's future financial performance and the trading price of the Bonds.

Finally, the Bank is exposed to certain risks from significant geographical concentrations in its loan portfolio. For example, a substantial percentage of the Bank's real estate portfolio was concentrated in one particular metropolitan area, which exposes the Bank to risk associated with an economic downturn in that particular region.

As part of the Bank's strategic shift toward greater portfolio diversification and decreased concentration in specific borrowers, geographies and industries, the Bank has been focused on, among other things, growing its CASA deposit base in addition to retail term deposits, mid-corporate and commercial banking portfolio, cross selling its products and

services under the “One Axis” vision and leveraging its digital platform to achieve higher customer engagement. However, there can be no assurance that the Bank will be able to successfully implement its strategy and control or reduce these levels of concentration.

The Bank may not be successful in implementing its growth strategies or penetrating new markets.

One of the Bank’s principal business strategies under its GPS Strategy is focused on achieving “Growth” by broadening the Bank’s low-cost deposit base; increasing the Bank’s retail asset portfolio; accelerating growth in the wholesale/corporate banking segment; establishing leadership in digital payments; and significantly scaling up the Bank’s subsidiaries. We continue to be guided by the pillars of the aforesaid strategy. These strategies may ultimately fail to contribute to the Bank’s growth or profitability and may ultimately be unsuccessful. Even if such strategies are partially successful, the Bank cannot assure you that it will be able to manage its growth effectively or fully deliver on its growth objectives.

Challenges that may result from the Bank’s growth strategies include the Bank’s ability to, among other things:

- manage efficiently the operations and employees of its expanding businesses;
- maintain or grow its existing customer base;
- assess the value, strengths and weaknesses of future investments;
- finance strategic investments;
- align the current information technology systems adequately with those of a larger group;
- apply risk management policy effectively to a larger group;
- hire and train additional skilled personnel; and
- manage a growing number of branch offices without over-committing management or losing key personnel,

Each of which would have a potential adverse impact on the Bank’s profitability.

The Bank may not be able to effectively manage this growth or achieve the desired profitability in the expected timeframe or at all or the expected improvement in indicators of financial performance from the expansion. For example, the Bank intends to continue adding new branches over the next few years, which will increase the size of the Bank’s business and the scope and complexity of its operations and will involve significant start-up costs. In addition, there can be no assurance that the Bank will be able to achieve the desired growth in its deposit base, and the Bank’s new branches may not perform as well as its existing branches. The Bank may also fail to develop or retain the technical expertise required to develop and grow its digital payments capabilities. To the extent that the Bank fails to meet required targets, develop and launch new products or services successfully, it may lose any or all of the investments that it has made in promoting them, and the Bank’s reputation with its customers could be harmed. Moreover, if the Bank’s competitors are better able to anticipate the needs of individuals in its target market, the Bank could lose market share and its business could be adversely affected.

Finally, the Bank’s growth strategy in the future may evolve or change to include strategic acquisitions and restructurings, partnerships, joint ventures and strategic business arrangements with other parties. For example, in March 2023, the Bank completed the acquisition of Citibank India’s consumer businesses (covering loans, credit cards, wealth management and retail banking operations) in India. Such arrangements may not necessarily contribute to business growth or profitability and may ultimately be unsuccessful. The Bank could also experience difficulties in assimilating personnel and integrating operations and cultures and may not realise the anticipated synergies or efficiencies from such transactions. Further, the Bank cannot assure you that it will be able to undertake such strategic investments, acquisitions (including by way of a merger, or share or asset acquisition) or joint ventures in the future, either on terms acceptable to us or at all. These difficulties could disrupt the Bank’s ongoing business, distract its management and employees, and increase its expenses.

The Bank’s inability to effectively manage any of these issues may adversely affect its business growth and, as a result, impact the Bank’s businesses, prospects, financial condition and results of operations, as well as the trading price of the Bonds.

The Bank may not be able to effectively manage the growth of its retail asset portfolio and maintain the quality of its retail loan portfolio.

The Bank’s net retail asset portfolio has experienced significant growth in recent years. Total net retail advances increased from ₹4,00,142 crores as at March 31, 2022 and ₹4,87,571 crores as at March 31, 2023 and ₹5,83,265 crores as at March 31, 2024. In addition, the Bank’s current growth strategy contemplates further growth in its retail asset

portfolio. The Bank's failure to effectively manage the recent or future growth of its retail portfolio and maintain the quality of its retail loan portfolio could adversely affect the Bank's financial condition and results of operation.

Competition in the retail segment is intense and the Bank's ability to effectively compete in this segment will depend, in part, on its ability to offer a diverse product mix and expand its distribution capabilities. Although India has a credit bureau industry and the Bank reviews credit history reports whenever they are available from credit bureaus, adequate information regarding loan servicing histories, particularly in respect of individuals and small businesses, is limited. As a result, the Bank's credit risk exposure is higher compared with banks operating in more developed markets. Additionally, the economy in India is largely cash based, making it difficult for the Bank to monitor the credit of its retail customers, who frequently do not maintain formal financial records. Furthermore, retail loans may carry a higher risk for delinquency if there is an increase in unemployment, prolonged recessionary conditions or a sharp rise in interest rates. As a result, the Bank is exposed to higher credit risk in the retail segments as compared to banks in more developed markets. If the Bank's screening process proves to be inadequate, it may experience an increase in impaired loans and it may be required to increase its provision for defaulted loans. If the Bank is unable to maintain the quality of its retail loan portfolio as the Bank grows its retail business, its NPAs may increase, which could materially and adversely affect the Bank's financial performance and the trading price of the Bonds.

The Bank's failure to manage growth effectively may adversely impact the Bank's business.

In the past, the Bank has witnessed rapid growth in both its infrastructure and its business. The number of Bank branches and extension counters (excluding foreign branches) grew from 4903 as at March 31, 2023 to 5,377 as at March 31, 2024. The Bank's total assets have grown from ₹11,75,429 crores as at March 31, 2022 to ₹13,17,326 crores as at March 31, 2023. The Bank's total assets have grown to ₹14,77,209 crores as on March 31, 2024.

Such growth puts pressure on the Bank's ability to effectively manage and control existing and newly emerging risks. The Bank's ability to sustain its growth depends primarily upon its ability to manage key issues such as selecting and retaining skilled manpower, maintaining an effective technology platform that can be continually upgraded, developing a knowledge base to implement the Bank's strategies, and ensuring a high standard of customer service. The inability of the Bank to effectively manage any of these issues may adversely affect the Bank's business growth and as a result, impact future financial performance and the trading price of the Bonds.

In addition, given the increasing share of retail products and services and transaction banking services in the Bank's overall business, the importance of systems technology to the Bank's business has increased significantly. Any failure in the Bank's systems, particularly for retail products and services and transaction banking, could significantly affect the Bank's operations and the quality of its customer service and could result in business and financial losses and adversely affect the trading price of the Bonds.

The Bank's securities and derivative financial instruments are subject to market price and liquidity variations due to changes in economic conditions and may produce material losses.

Derivative financial instruments and securities represent a significant amount of the Bank's total assets. Any realized or unrealized future gains or losses from these investments or hedging strategies could have a significant impact on the Bank's income. These gains and losses, which the Bank accounts for when it sells or marks to market its investments in financial instruments, can vary considerably from one period to another. The Bank cannot forecast the amount of gains or losses in any future period, and the variations experienced from one period to another do not necessarily provide a meaningful forward-looking reference point, particularly in India given the current climate of market volatility. Gains or losses in the Bank's investment portfolio may create volatility in profitability, and the Bank may not earn a return on its consolidated investment portfolio in the future. Any losses on the Bank's securities and derivative financial instruments could adversely affect the Bank. Any decrease in the value of these securities and derivatives portfolios may result in a decrease in the Bank's capital ratios, which could impair its ability to engage in certain activities, such as lending or other financings, at the levels the Bank currently anticipates, and may also adversely affect the Bank's ability to pursue its growth strategies.

This General Information Document includes audited financial information, which has been subjected to limited review, in relation to the Bank. Reliance on such information should, accordingly, be limited.

This General Information Document includes Audited Financial Results for the year ended on March 31, 2024, in respect of which the Auditors have issued their unmodified opinion. Any financial results published in the future may not be consistent with past performance. The Bank's unsecured loan portfolio is not supported by any collateral that could help ensure repayment of the loan, and in the event of non-payment by a borrower of one of these loans, the Bank may be unable to collect the unpaid balance.

The Bank offers unsecured personal loans and credit cards as part of its Retail Banking segment, and unsecured loans to its SME and corporate clients. As at March 31, 2022, 2023 and 2024, 25.87%, 28.63% and 30.51% respectively, of the Bank's loans were unsecured (including advances covered by bank or Government guarantees).

Unsecured loans are a greater credit risk for the Bank than its secured loan portfolio because they may not be supported by realizable collateral that could help ensure an adequate source of repayment for the loan. Although the Bank may obtain direct debit instructions or postdated checks from its customers for its unsecured loan products, the Bank may be unable to collect the unpaid loan balance in part or at all in the event of non-payment by a borrower. Further, any expansion in the Bank's unsecured loan portfolio could require the Bank to increase the Bank's provision for credit losses, which would decrease the Bank's profitability.

The Bank's inability to foreclose on collateral in an event of a default or a decrease in the value of the collateral may result in failure to recover the expected value of the collateral.

As at March 31, 2022, 2023 and 2024, 74.13%, 71.37% and 69.49% of the Bank's loans were partially or fully secured by tangible assets. The Bank's loans to corporate customers for working capital credit facilities are typically secured by charges on inventories, receivables and other current assets. In certain cases, the Bank obtains security by way of a first or second charge on fixed assets, a pledge of marketable securities, bank guarantees, Government guarantees, corporate guarantees and personal guarantees. In addition, project loans or long-term loans to corporate customers are secured by a charge on fixed assets and other collateral. Loans to retail customers are either unsecured or secured by the assets financed, which largely comprise property and vehicles.

The Bank may not be able to realize the full value of the collateral due to, among other things, volatility in commodity prices, stock market volatility, changes in economic policies of the Government, obstacles and delays in legal proceedings, borrowers and guarantors not being traceable, the Bank's records of borrowers' and guarantors' addresses being ambiguous or outdated and defects in the perfection of collateral and fraudulent transfers by borrowers. For example, the global economic slowdown and other domestic factors led to a downturn in real estate prices in India. Therefore, upon foreclosure, the value of the collateral that is actually realized may be less than that expected by the Bank. If the Bank is unable to foreclose on its collateral or realize adequate value from the collateral, its losses will increase, and its net profits will decline.

In India, foreclosure on collateral may be subject to delays that can last for several years and might lead to deterioration in the physical condition or market value of the collateral. Although special tribunals have been set up for expeditious recovery of debts due to banks, any proceedings brought may be subject to delays and administrative requirements that may result in, or be accompanied by, a decrease in the value of the collateral. Should a corporate borrower make a reference to the specialized judicial authority, the National Company Law Tribunal, foreclosure, and enforceability of collateral may be stayed. When dealing with financially distressed debtors, the recovery of collateral may also be subject to insolvency proceedings in India. The Insolvency and Bankruptcy Code was introduced on December 01st 2016, providing for a time-bound mechanism to resolve stressed asset. Given the limited experience of this framework, there can be no assurance that the Bank will be able to successfully or efficiently utilize this new framework to recover the amounts due to it in full or in a timely manner or at all.

In terms of the Banking Regulation Act, a banking company is not permitted to hold any immovable property (except as is required for its own use), for any period exceeding seven years, or as may be extended by the RBI for a period not exceeding five years, on a case-to-case basis. Such restriction may force the Bank to dispose of the collateral upon foreclosure without realizing the full value of such collateral.

Once the Bank has obtained a court judgment, execution of the judgment in order to obtain the collateral for sale may involve additional obstacles. In the event that a specialized regulatory agency gains jurisdiction over the borrower, creditor actions can be further delayed. In addition, certain types of collateral, such as automobiles, may be expensive to repossess and difficult and cumbersome to store and manage. In addition, there may be significant deterioration in the value of collateral from the time of identification of NPA and sale of such collateral. Finally, the Bank may not have accurately estimated the value of the collateral. The inability to foreclose on such loan dues or otherwise liquidate the Bank's collateral may therefore result in a failure to recover the expected value of such collateral. The Bank may have also over-estimated the expected value of the collateral. These factors may, in turn, give rise to increased losses and a decline in profitability.

Liquidity and funding risks are inherent in the Bank's business and could have a material adverse effect on the Bank.

Liquidity risk is the risk that the Bank either does not have available sufficient financial resources to meet its obligations as they fall due or can secure them only at excessive cost. This risk is inherent in any retail and commercial banking business and can be heightened by a number of enterprise-specific factors, including over-reliance on a particular source of funding, changes in credit ratings or market-wide phenomena such as market dislocation. While the Bank implements liquidity management processes to seek to mitigate and control these risks, unforeseen systemic market factors make it difficult to completely eliminate these risks.

The Bank relies, and will continue to rely, primarily on short-term deposits as its main source of funding. As at March 31 2022, 2023 and 2024 36.84%, 36.23% and 41.99% respectively, of the Bank's total deposits had maturities of one year or less, or were payable on demand. Also, as at March 31 2022, 2023 and 2024 24.28%, 19.83% and 21.84% respectively, of the Bank's advances had maturities of one year or less (based on the RBI's asset-liability management guidelines), resulting in maturity mismatches between the Bank's assets and liabilities. Moreover, the Bank could experience certain liquidity shortfalls and constraints under a stress testing scenario and has at times exhibited a relatively high credit-to-deposits ratio which could indicate dependence on borrowings for the Bank's lending activities. Therefore, if depositors do not renew their deposits or the Bank is unable to raise new deposits, the Bank may face a liquidity problem and may be required to pay higher rates of interest to attract deposits, which could adversely affect the Bank's business and operations. The Bank has increased its focus on growing its CASA deposit base in addition to retail term deposits, with the objective of mitigating certain of these risks, but no assurances can be provided that this strategy will be successful or that it will be effective in mitigating such risks.

The ongoing availability of deposits is sensitive to a variety of factors beyond the Bank's control, such as general economic conditions and the confidence of commercial depositors in the economy and in the financial services industry, retail customers' changing perceptions toward savings, competition between banks, and the availability and extent of deposit guarantees. For example, the Bank experienced a slowdown in its deposit growth in the years following the financial crisis in 2008 due to a combination of factors, including a slowdown of capital flows and high inflation which adversely impacted domestic savings. In addition, the availability of deposits may also be affected by the availability of investment alternatives. For example, in a favourable economic environment, retail customers may reduce their deposits and increase their investment in securities for a higher return, while micro, small- and medium-enterprise and mid-corporate customers may reduce their deposits in order to invest in business ventures. Any of these factors could significantly increase the amount of commercial deposit withdrawals in a short period of time, thereby reducing the Bank's ability to access commercial deposit funding on economically appropriate and reasonable terms, or at all, in the future.

In such event, the Bank may need to seek more expensive sources of funding, and it is uncertain whether the Bank will be able to obtain additional funding on commercially reasonable terms as and when required, or at all. The Bank's ability to raise additional funds may be impaired by factors over which it has little or no control, such as deteriorating market conditions or severe disruptions in the financial markets. The Bank cannot assure you that in the event of a sudden or unexpected shortage of funds in the banking system, it will be able to maintain levels of funding without incurring high funding costs, a reduction in the term of funding instruments or the liquidation of certain assets. Therefore, if the Bank fails to maintain its desired level of deposits, the Bank's liquidity position, financial condition and results of operations could be materially and adversely affected.

Regulations in India requiring the Bank to extend a minimum level of loans to certain sectors, including the agricultural sector, may subject the Bank to higher delinquency rates and impact the Bank's profitability.

Under the directed lending norms of the RBI, banks in India are required to lend 40.0% of their adjusted net bank credit to certain eligible sectors, categorized as priority sectors. Of this, banks have sub-targets for lending to key segments or sectors, such as Agriculture 18% of ANBC including Lending to Small & Marginal Farmers 10%, Micro Enterprise units 7.5% of ANBC. The balance of the priority sector lending requirement can be met by lending to a range of sectors, including Small & Medium enterprises, Renewable Energy, Social Infrastructure and Education loan, Export Credit, Residential mortgages satisfying certain criteria. The RBI has directed banks to maintain direct lending to non-corporate farmers at the banking system's average level for the last three years and has notified a target of 13.78% of adjusted net bank credit for this purpose for fiscal 2024. Loans to identified "weaker sections" of society must comprise 12% of adjusted net bank credit. As at March 31, 2022, 2023 and 2024, the Bank's lending to priority sectors (on a quarterly average basis for that year/period) accounted for 44.38%, 42.53% and 46.37% respectively, of adjusted net bank credit, with 18.76%, 18.92% and 19.76% respectively, of net credit going to the agricultural sector. In addition, according to the RBI guidelines, failure to achieve priority sector lending target and sub-targets will be taken into account by the RBI when granting regulatory clearances/approvals for various purposes.

As a result of these directed lending requirements, the Bank may experience a higher level of non-performing assets in its directed lending portfolio, particularly due to loans to the agricultural sector and small enterprises, where the Bank is less able to control the portfolio quality and where economic difficulties are likely to affect the Bank's borrowers more severely. There is inadequate historical data of delinquent loans to farmers, which increases the risk of such exposures. Additionally, economic difficulties, such as poor harvests in the agricultural sector due to drought, are likely to affect borrowers in priority sectors more severely. In fiscal year 2018 and fiscal year 2019, some states in India announced schemes for the waiver of loans taken by farmers. While the cost of such schemes is borne by the state governments, such schemes or borrower expectations of such schemes have resulted in higher delinquencies in the kisan credit card portfolio for banks, including the Bank.

As the Bank increases its direct lending to certain sectors, the Bank increases its exposure to the risks inherent in such sectors, which could materially and adversely impact the Bank's business, financial performance, and the trading price of the Bonds. The Bank's gross non-performing advances in the priority sector loan portfolio were 2.12%, 1.53% and 1.38% as at March 31 2022, 2023 and 2024. Any future changes by the RBI to the directed lending norms may require

the Bank to increase its lending to relatively riskier segments, increasing its exposure to the risks inherent in such sectors, which may result in an increase in NPAs in the directed lending portfolio.

Any shortfall in meeting the priority sector lending requirements may be required to be invested at any time, at the RBI request, in Government schemes that yield low returns, determined depending on the prevailing bank rate and on the level of shortfall, thereby impacting the Bank's profitability. The aggregate amount of funding required by such schemes is drawn from banks that have shortfalls in achievement of their priority sector lending targets, with the amounts drawn from each bank determined by the RBI. The Bank has, on previous occasions, failed to meet its priority sector lending targets and sub-targets, and there can be no assurance that the Bank will be able to meet such priority sector lending targets in the future. Any failure by the Bank to meet its priority sector lending targets may require it to invest in Government schemes that yield low returns, thereby impacting the Bank's profitability.

The Bank is exposed to fluctuations in foreign exchange rates

As a financial intermediary, the Bank is exposed to exchange rate risk. In fiscal year 2022, the Rupee depreciated 3.7% to ₹75.79 per U.S.\$1.00 as at March 31, 2022 and in fiscal year 2023, the Rupee depreciated 8.42% to ₹82.17 per U.S.\$1.00 as at March 31, 2023. The Rupee further depreciated 1.50% to ₹83.41 per U.S.\$1.00 as at March 28, 2024.

The Bank complies with regulatory limits on its unhedged foreign currency exposure. As at March 31 2022, 2023 and 2024 contingent liabilities (calculated pursuant to the Banking Regulation Act 1949 and Accounting Standard 29) on account of outstanding forward exchange contracts were ₹5,17,803 crores, ₹6,04,835 crores and ₹8,40,387 crores respectively. However, the Bank is exposed to fluctuations in foreign currency rates for its unhedged exposure.

Adverse movements in foreign exchange rates may also impact the Bank's borrowers negatively, which may in turn impact the quality of the Bank's exposure to these borrowers. Volatility in foreign exchange rates could adversely affect the Bank's future financial performance and the trading price of the Bonds.

The Bank operates in a very competitive environment and the Bank's ability to grow depends on its ability to compete effectively.

The Indian banking industry is very competitive. The Bank competes directly with public sector banks, private sector banks and foreign banks with branches in India. As at March 2024, there were 136 scheduled commercial banks in India, including 12 nationalized banks, following the amalgamation of certain public sector banks in March 2020, 21 private sector banks (including the Bank) and 45 foreign banks with branches in India.

The public sector banks, which generally have much larger customer and deposit bases, larger branch networks and Government support for capital augmentation pose strong competition to the Bank, and consolidation trends by the public sector banks may further increase these competitive pressures. For example, in one of the largest consolidations in the Indian banking industry, the State Bank of India merged with its five associate banks and the Bharatiya Mahila Bank, which became effective from April 1st 2017. Moreover, the Government announced the merger of three other public sector banks in fiscal year 2019, Bank of Baroda, Vijaya Bank and Dena Bank, which merger became effective from April 1st 2019. In fiscal 2019, a public sector bank, IDBI Bank, was acquired by LIC, following which that bank was reclassified as a private sector bank by the RBI. In fiscal year 2020, the Government announced several additional mergers of public banks: Canara Bank's merger with Syndicate Bank; United Bank of India's merger with Oriental Bank of Commerce and Punjab National Bank; Andhra Bank's merger with Corporation Bank and Union Bank of India; and Allahabad Bank's merger with Indian Bank.

The Bank also faces competition from private sector banks in India, some of which have larger customer bases and greater financial resources than the Bank.

In addition, new entrants into the financial services industry, including companies in the financial technology sector, may further intensify competition in the business environments in which the Bank operates, especially in the digital business environment. As a result, the Bank may be forced to adapt its business to compete more effectively. For example, non-bank financial companies, particularly international technology companies including large e-commerce players, have recently been increasing their presence in the financial sector in India and offering payment platforms and select services to customers, which increase competitive pressures on the Bank.

The RBI has released guidelines with respect to a continuous licensing policy for universal banks as compared to its earlier practice of intermittently issuing licenses. The RBI has also demonstrated an intention to allow small finance banks to apply for a universal banking license under this framework. These developments may increase the number of players in India's banking space. The Bank also faces competition from foreign banks that have established branches in India and have aggressively pursued a share of business in the market. Competition from foreign banks may increase as the RBI has indicated that it plans to give greater access to foreign banks in the Indian market. Such deregulation may result in the Bank facing increasing competition in the raising of funds from market sources and individual depositors. For example, recent deregulation of interest rates on savings deposits has resulted in certain banks increasing such interest rates. Deregulation has also lowered entry barriers for new categories of players in India's

private banking industry, such as small finance banks and payments banks, which has increased competitive pressures on the Bank.

Increased competitive pressure may have an adverse impact on the Bank's earnings, its future financial performance and the trading price of the Bonds. Due to competitive pressures, the Bank may be unable to successfully execute its growth strategy and offer products and services at reasonable returns and this may adversely affect its business and operations.

The Bank's risk management policies and procedures may leave the Bank exposed to unidentified or unanticipated risks, which could negatively affect its business or result in losses.

The Bank is exposed to a variety of risks, including liquidity risk, interest rate risk, credit risk, operational risk (including fraud) and legal risk (including actions taken by the Bank's own employees). The effectiveness of its risk management is limited by the quality and timeliness of available data and other factors outside of its control. For example, hedging strategies and other risk management techniques may not be fully effective in mitigating risks in all market environments or against all types of risk, including risks that are unidentified or unanticipated. Some methods of managing risks are based upon observed historical market behaviour. As a result, these methods may not predict future risk exposures, which could be greater than the historical measures indicated. Other risk management methods depend upon an evaluation of information regarding markets, customers or other matters.

This information may not in all cases be accurate, complete, up-to-date or properly evaluated. As part of Bank's ordinary decision-making process, it rely on various models for risk and data analysis. These models are based on historical data and supplemented with managerial input and comments.

There are no assurances that these models and the data they analyse are accurate or adequate to guide the Bank's strategic and operational decisions and protect it from risks. Any deficiencies or inaccuracies in the models or the data might have a material adverse effect on the Bank's business, financial condition or results of operation. Additionally, management of operational, legal or regulatory risk requires, among other things, policies and procedures to ensure certain prohibited actions are not taken and to properly record and verify a number of transactions and events.

The Bank has in the past experienced certain deficiencies in the Bank's internal compliance and risk management functions. These have included deficiencies in the Bank's credit review and analysis processes and procedures, deficiencies in the Bank's credit monitoring early warning systems and red flagging of potentially delinquent accounts, deficiencies in the Bank's monitoring of and adherence to its own internal risk parameters, and deficiencies in the Bank's internal audit function. Such feedback also identified deficiencies in the Bank's oversight and supervision over its subsidiaries and overseas operations, and highlighted risks associated with the Bank's compensation and incentive structure which did not sufficiently emphasize adherence to internal controls and compliance. Although the Bank believes that it has now taken appropriate measures designed to mitigate such deficiencies and strengthened its internal compliance and risk management policies and procedures, those measures may not be fully effective, and the Bank cannot assure you that its current policies and procedures will function adequately in all circumstances. Any lingering or future shortcomings in the Bank's internal compliance and risk management policies and procedures or a failure to follow them may have a materially adverse effect on the Bank's business, financial position or results of operations.

The Bank may fail to maintain an effective system of internal controls, which could prevent it from timely and accurate reporting of its financial results.

The Bank's internal controls over financial reporting may not prevent or detect misstatements on a timely manner due to inherent limitations, including human error, circumvention or overriding of controls, or fraud.

The Bank has since implemented measures designed to address those internal control deficiencies and expects to continue to implement measures designed to improve its internal control over financial reporting. While the Bank believes that these measures have been effective in correcting these internal control deficiencies in the past, it cannot be certain that, at some point in the future, another material weakness will not be identified or the Bank's internal controls will not fail to detect a matter they are designed to prevent, and failure to remedy such material weaknesses could result in a material misstatement in its financial statements and have a material adverse impact on the Bank's business, financial condition and results of operations.

Even effective internal controls can provide only reasonable assurance with respect to the preparation and fair presentation of financial statements. If the Bank fails to maintain the adequacy of its internal controls, its financial reporting may be disclosed on an untimely basis or with inaccuracies, the Bank could fail to meet its financial reporting obligations and it could be adversely affected.

The Bank may not be able to detect money laundering and other illegal or improper activities fully or on a timely basis, which could expose it to additional liability and harm its business or reputation.

The Bank is required to comply with applicable anti-money laundering and anti-terrorism laws and other regulations in India and in other jurisdictions where it has operations. These laws and regulations require the Bank, among other

things, to adopt and enforce “know-your-customer/ anti-money laundering/ combating financing of terrorism” (KYC/AML/CFT) policies and procedures and to report suspicious and large transactions to the applicable regulatory authorities in different jurisdictions. Remittances and trade finance transactions are increasingly required to be covered under the Bank’s scrutiny and monitoring.

Although the Bank has adopted policies and procedures aimed at detecting and preventing the use of its banking networks for money laundering activities and by terrorists and terrorist-related organizations and individuals, such policies and procedures may not completely eliminate instances where the Bank may be used by other parties to engage in money laundering and other illegal or improper activities. The Bank’s business and reputation could suffer if any such parties succeed in using the Bank for money laundering or other illegal or improper purposes.

The Bank has in place internal controls, systems and procedures in conformity with the RBI directives and believes that its anti-money laundering and KYC compliance policies and procedures are generally adequate and in accordance with regulatory guidelines. However, to the extent the Bank fails to fully comply with applicable KYC/AML/CFT laws and regulations, the relevant Government agencies and regulatory authorities may impose fines and other penalties against the Bank, which could adversely affect the Bank’s business and reputation. The Bank has in the past experienced certain instances of lapses relating to its regulatory compliance, including compliance with KYC/AML/CFT rules and regulations. Although the Bank has implemented measures designed to prevent recurrence of these lapses, no assurances can be provided that such measures will be fully effective or that similar issues will not arise in the future, as the possibility of unintentional breaches remains. Such regulatory violations may result in the future, in regulatory actions, including financial penalties as described below, or in restrictions on or suspension of the related business operations, each of which could adversely affect the Bank’s business and reputation.

The RBI as well as other regulators are empowered to impose penalties on banks and take other administrative measures to enforce applicable regulatory requirements, and such failures could expose the Bank to significant monetary liabilities, regulatory challenges and reputational damage. Any future recurrence of regulatory lapses by the Bank or failure to comply with applicable regulations in various jurisdictions, including unauthorized actions by employees, representatives, agents and third parties, suspected or perceived failures and media reports, and ensuing inquiries or investigations by regulatory and enforcement authorities, may result in regulatory enforcement actions, including financial penalties and restrictions on or suspension of the related business operations.

The Bank cannot predict the initiation or outcome of any investigations by other authorities or different investigations by the RBI. The penalties imposed by regulators may generate adverse publicity for the Bank and its business. Such adverse publicity, or any future scrutiny, investigation, inspection, or audit which could result in fines, public reprimands, damage to the Bank’s reputation, significant time and attention from the Bank’s management, costs for investigations and remediation of affected customers, may materially adversely affect the Bank’s business and financial results.

The Bank’s business depends on the continuity of its management team, skilled personnel and the Bank’s ability to retain and attract talented personnel.

The Bank is highly dependent on the services of its management team and other key personnel. The Bank’s ability to meet future business challenges depends, among other things, on their continued employment and the Bank’s ability to attract and recruit talented and skilled personnel. For example, Shri Amitabh Chaudhry joined the Bank as its chief executive officer in January 2019 and since then there have been many changes in the Bank’s core management, including its directors, chief financial officer and other senior managerial personnel. Since his arrival, the Bank has embarked on a review of its policies and strategies that resulted in the implementation of a new business strategy of growth, profitability and sustainability. The success of this new strategy depends in part on the continuity of the Bank’s new management team and other key personnel.

There can be no assurance that the Bank will be able to retain its key personnel. Competition for skilled and professional personnel in the banking industry is intense. Although the Bank believes that all of its directors and executive officers have the requisite credentials and professional expertise necessary to discharge their duties and are compliant with applicable regulatory requirements, there can be no assurance that stakeholders, including regulatory authorities, will not raise objections, or that such objections will not result in the loss of certain members of the Bank’s key management team. The loss of key personnel or an inability to manage attrition levels across the Bank may have a material adverse impact on the Bank’s business, its ability to grow and its control over various business functions.

Deterioration of the Bank’s relationship with, poor performance by, or bankruptcy of, the Bank’s third-party service providers may adversely affect the Bank.

The Bank is reliant upon certain external service providers to provide it with certain services necessary to maintain its day-to-day operations. Accordingly, the Bank’s operations are exposed to the risk that these service providers will not perform their duties in accordance with the contracted arrangements under the relevant service agreements. Third-party vendors and certain affiliated companies provide key components of the Bank’s business infrastructure such as loan and deposit servicing systems, back office and business process support, information technology production and

support, internet connections and network access. Relying on these third parties and affiliated companies can be a source of operational and regulatory risk to the Bank, including with respect to security breaches affecting such parties.

The Bank is also subject to risk with respect to security breaches affecting the vendors and other parties that interact with these service providers. As the Bank's interconnectivity with these third parties and affiliated companies increases, the Bank faces the risk of operational failure with respect to their systems. The Bank may be required to take steps to protect the integrity of its operational systems, thereby increasing its operational costs. In addition, certain problems caused by these third parties or affiliated companies could affect the Bank's ability to deliver products and services to customers. Replacing these third-party vendors could also entail delays and expense. Further, the operational and regulatory risk the Bank faces as a result of these arrangements may be increased to the extent that the Bank restructures such arrangements. Restructurings could involve significant expense to the Bank and entail significant delivery and execution risk, which could have a material adverse effect on the Bank's business, operations and financial condition.

The Bank relies on correspondent banks in India and in other countries to conduct its business. The Bank's failure to maintain its relationships or enter into new relationships with correspondent banks may impact the Bank's ability to grow its business.

The Bank is subject to certain restrictive covenants in its financing instruments that restrict, among other things, its ability to declare dividends and pledge assets as collateral.

The financing documents relating to the Bank's outstanding indebtedness contains certain restrictive covenants, such as limitations on dividends and other distributions as well as negative pledge covenants that restrict, in certain circumstances, the Bank's ability to declare dividends and pledge assets as collateral. In addition, certain of these financing documents contain financial covenants requiring the Bank to comply with certain minimum ratios, such as the minimum capital adequacy ratios prescribed by the RBI, certain minimum industry borrower group exposure ratios; and certain minimum net NPA ratios, among others. Further, some of the Bank's borrowing agreements also require the Bank to obtain prior written consent for certain acts such as amendments to constitutional documents or to create any security. These restrictions may limit the Bank's ability to react to changes in the Indian economy or the banking industry, take advantage of profitable opportunities and fulfil the Bank's obligations under its other financing documents, which could adversely affect the bank.

In addition, in the event of a breach of any such restrictive covenant or a material covenant under the outstanding debt instrument of the bank, an event of default may be triggered, which could result in the imposition of contractual penalties and the acceleration of principal and interest. In the past, the Bank has been non-compliant with certain financial covenants contained in its financing documents for which the Bank obtained waivers from the relevant lender institutions. No assurances can be provided that the Bank will continue to be in compliance in the future, or that it will be able to obtain waivers for any future instances of non-compliance.

An event of default could also potentially result in a cross default under the Bank's other debt obligations. In the event of an acceleration of the Bank's outstanding indebtedness, the Bank may be unable to settle the outstanding amounts of its debts, which would adversely affect its business.

The business of the Bank is highly dependent on information technology; therefore, if the Bank is unable to adapt to rapid technological changes, its business could suffer.

The Bank's future success will depend in part on its ability to respond to technological advances and to emerging banking industry standards and practices on a cost-effective and timely basis. The development and implementation of such technology entail significant technical and business risks. There can be no assurance that the Bank will always be successful in implementing new technologies effectively or adapting its transaction processing systems to meet customer requirements or emerging industry standards. If the Bank is unable, for technical, legal, financial or other reasons, to adapt in a timely manner to changing market conditions, customer requirements or technological changes, its financial performance and the trading price of the Bonds may be adversely affected.

Furthermore, any technical failures associated with the Bank's information technology systems or network infrastructure, including those caused by power failures and breaches in security caused by computer viruses and other unauthorized tampering, may cause interruptions or delays in the Bank's ability to provide services to its customers on a timely basis or at all, and may also result in costs for information retrieval and verification.

Banking is a heavily regulated industry and material changes in the regulations that govern the Bank could cause its business to suffer.

Banks in India are subject to detailed regulation and supervision by the RBI. The RBI also sets guidelines on the cash reserve ratios, statutory liquidity ratios, priority sector lending, export credit, agricultural loans, loans to sectors deemed to be weak by the RBI, market risk, capital adequacy ratio and branch licensing, among others. In addition, banks are generally subject to changes in Indian law as well as to changes in regulations, Government policies and accounting principles. Changes in regulations in India and international markets may expose the Bank to increased

compliance costs and limitations on the Bank's ability to pursue certain business opportunities and provide certain products and services.

The Bank is also subject to regular financial inspection by the RBI. In the event that the Bank is unable to meet or adhere to the guidance or requirements of the RBI, the RBI may impose strict enforcement of its observations on the Bank, which may have an adverse effect on its business, financial condition, cash flows or results of operations. For instance, the Bank has, in the past, received several requests for information, clarification and certain observations from the RBI in relation to compliance with applicable guidelines and regulations, emanating from on-site inspections conducted by the RBI, including, among others (i) compliance with applicable corporate governance guidelines, (ii) compliance with applicable regulatory financial thresholds, (iii) gaps in acknowledging customer complaints and launching new products, and (iv) maintaining effective internal controls. While we have provided our responses to these notices and observations, the RBI may issue further notices or impose penalties in relation to current or future notices, if we are adjudged to be non-compliant, and we cannot estimate the quantum of any such penalties or its effect on the Bank's financial condition and results of operations.

The regulation governing Indian financial institutions is continuously evolving. The Bank has no control over the issuance of new regulations that may affect its operations, including in respect of:

- minimum capital requirements;
- reserve and compulsory deposit requirements;
- limits on investments in fixed assets;
- lending limits and other credit restrictions, including compulsory allocations;
- limits and other restrictions on fees;
- corporate governance;
- limits on the amount of interest banks can charge or the period for capitalizing interest; and
- accounting and statistical requirements.

In addition, any change by the RBI to its directed lending norms may result in the Bank being unable to meet the priority sector lending requirements, as well as requiring the Bank to increase its lending to relatively riskier segments which could result in an increase in NPAs in the Bank's directed lending portfolio. Consequently, the Bank's levels of yield-generating assets may be reduced or the Bank may be forced to recognize accounting losses, which could materially adversely affect its recognized profits, financial condition and results of operations. For example, the RBI has mandated banks in India to have a financial inclusion plan for expanding banking services to rural and unbanked centers and to customers who currently do not have access to banking services. Expansion into these markets involves significant investments and recurring costs, and the Bank cannot assure you that these activities will be sufficiently profitable. The services provided by the Bank also fall under the purview of the Consumer Protection Act, 2019, as amended, which was enacted for the protection of the interests of consumers availing goods and services, including banking or financial services.

Further, on June 11, 2020, the RBI published a discussion paper on Governance in Commercial Banks in India with the objective to align current regulatory framework with global best practices while being mindful of the context of domestic financial system. The paper is applicable to, among others, private sector banks. The paper discusses the overall responsibilities, structure and practices of the board of directors and committees of the boards and also explores matters including the qualification and selection criteria for board members and senior management and procedures for internal audit and vigilance. Pursuant to the discussion paper and feedback received, the RBI on April 26, 2021 has issued guidelines regarding the Chair and meetings of the board, composition of certain committees of the board, age, tenure and remuneration of directors, and appointment of the whole-time directors. Banks are instructed to comply with these instructions latest by October 01, 2021. While RBI will issue a Master Direction on Governance in due course, the Bank cannot predict the timing or the form in which such Master Direction and the nature and impact it will have on the Bank's operation.

The RBI may also direct banks to increase the total provisioning coverage ratio on their credit portfolio, which may adversely affect the Bank's financial condition and results of operations. The RBI is constantly updating prudential standards in accordance with the recommendations of the Basel Committee, in particular with respect to capital and liquidity, which could impose additional significant regulatory burdens on the Bank. For example, future liquidity standards could require the Bank to maintain a greater proportion of its assets in highly liquid but lower-yielding financial instruments, which would negatively affect its net interest margin. Increases in reserve and compulsory deposit or allocation requirements reduce the Bank's liquidity to fund its loan portfolio and other investments. There can be no assurance that future changes in regulations or in their interpretation or application will not have a material adverse effect on the Bank.

The laws and regulations governing the banking sector, including those governing the products and services that the Bank provides or proposes to provide, such as its life insurance or asset management business, or derivatives and hedging products and services, could change in the future. Any such changes may adversely affect the Bank's business and future financial performance by, for example, requiring a restructuring of the Bank's activities or increasing its operating costs. For example, in fiscal year 2018, some states in India announced schemes for waiver of loans taken by farmers. While the cost of such schemes was borne by the state governments, such schemes or borrower expectations of such schemes may result in higher delinquencies in the Bank's agricultural lending portfolio. A new Section 115BAA was introduced in the Income Tax Act, 1961, as amended (IT Act) by way of the Taxation Laws (Amendment) Act, 2019 which provides for an option to domestic companies to opt for a reduced income-tax rate of 22% (plus 10% Surcharge and 4% Health & Education Cess) subject to the condition that they will not avail specified tax exemptions/ deductions or incentives under the Act.

No assurance can be given generally that laws or regulations will be adopted, enforced or interpreted in a manner that will not have a material adverse effect on the Bank's business and results of operations. Furthermore, regulatory authorities in India have substantial discretion in how to regulate banks, and this discretion, and the regulatory mechanisms available to the regulators, have been increasing in recent years. Regulation may be imposed on an ad hoc basis by governments and regulators in response to a crisis, and these may especially affect financial institutions such as the Bank that may be deemed to be systemically important. In addition, the volume, granularity, frequency and scale of regulatory and other reporting requirements require a clear data strategy to enable consistent data aggregation, reporting and management. Inadequate management information systems or processes, including those relating to risk data aggregation and risk reporting, could lead to a failure to meet regulatory reporting requirements or other internal or external information demands, and the Bank may face supervisory measures as a result.

We operate in a highly regulated environment. Any changes to the existing legal or regulatory framework will require us to allocate additional resources, which may increase our regulatory compliance costs and direct management attention and consequently affect our business.

We operate in a highly regulated environment in which we are regulated by SEBI, RBI, PFRDA, and other domestic and international regulators. The Bank is also regulated by the IRDAI. Accordingly, legal and regulatory risks are inherent and substantial in our businesses. As we operate under licenses or registrations obtained from appropriate regulators, we are subject to actions that may be taken by such regulators in the event of any non-compliance with any applicable policies, guidelines, circular, notifications and regulations issued by the relevant regulators.

Our business could be directly affected by any changes in applicable policies and regulations for such entities. Being regulated we are subject to regular scrutiny and supervision by the respective regulators, such as regular inspections that may be conducted by the RBI, SEBI and IRDAI. The requirements imposed by regulators are designed to ensure the integrity of the financial markets and to protect investors and depositors. Among other things, in the event of being found non-compliant, we could be fined or prohibited from engaging in certain business activities. For example, our investment bank could face the risk of investigation and surveillance activity and judicial or administrative proceedings that may result in substantial penalties, if we are found to be in violation of applicable law. Such action may have reputational impact on us and affect the price of the Bonds.

In addition, we are also exposed to the risk of us or any of our employees being non-compliant with insider trading rules or engaging in front running in securities markets. As a listed entity and a fiduciary assisting listed companies, in terms of the Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015, as amended, designated persons of the Bank are required to observe restrictions and disclosures in relation to trading in securities of the Bank and others. In the event of any such violations, regulators could take regulatory actions, including financial penalties against us and the concerned employees. This could have a materially adverse financial and reputational impact us.

Any change to the existing legal or regulatory framework will require us to allocate additional resources, which may increase our regulatory compliance costs and direct management attention and consequently affect our business.

A significant majority of the Bank's properties, including its branches and ATMs, are located at leased or licensed premises, and the Bank's operations may be materially and adversely affected if it is unable to renew existing leases or otherwise continue to utilize its branches or ATMs.

The Bank's business and operations are significantly dependent on the Bank's branches and ATMs some of which are located on leased or licensed premises. The Bank has entered into various lease and license arrangements for such properties. As of March 31, 2024, some of the Bank leases including its branches and ATMs, had expired and were in the process of being renewed. The Bank may face the risk of being evicted in the event that the Bank's landlords allege a breach on the Bank's part of any terms under these lease agreements and there is no assurance that the Bank will be able to identify suitable locations to re-locate the Bank's operations. Some of the lease agreements entered into by the Bank may be inadequately stamped. As a result, these agreements may be inadmissible as evidence before a court of law. Further, some of the immovable properties used by the Bank and taken on lease may have one or more irregularities of title such as non-registration of lease deeds. If the Bank is unable to continue to use its branches and ATMs which are located on leased or licensed premises during the period of the relevant lease or license or extend

such lease or license arrangements on their expiry on commercially acceptable terms, or at all, it may suffer a disruption in its operations which could materially and adversely affect the Bank's business, financial condition, results of operations and prospects. In addition, some of these leases or licenses may not have been registered, which may affect the evidentiary value of such lease or license agreements in a court of law.

Negative publicity could damage the Bank's reputation and adversely impact the Bank's business and financial results.

Reputational risk, or the risk to the Bank's business, earnings and capital from negative publicity, is inherent in the Bank's business. The reputation of the financial services industry in general has been closely monitored as a result of the 2008 financial crisis and other matters affecting the financial services industry. Negative public opinion about the financial services industry generally or the Bank specifically could adversely affect the Bank's ability to attract and retain customers and may expose it to litigation and regulatory action.

Negative publicity can result from the Bank's actual or alleged conduct in any number of activities, including lending practices, mortgage servicing and foreclosure practices, corporate governance, regulatory compliance, mergers and acquisitions and related disclosure, sharing or inadequate protection of customer information, and actions taken by Government regulators and community organizations in response to that conduct. Although the Bank takes steps to minimize reputational risk in dealing with customers and other constituencies, the Bank, as a large financial services organization with a high industry profile, is inherently exposed to this risk. Such negative media coverage may have a material adverse effect on the Bank's reputation, business, financial condition or results of operation.

The Bank may not be able to prevent its officers, employees or third parties acting on its behalf from engaging in situations that qualify as corruption, fraud or other misconduct which could expose the Bank to administrative and judicial sanctions, as well as reputational damage.

The Bank's governance and compliance procedures may not prevent breaches of law, accounting and/or governance standards, and there can be no assurance that the Bank's employees, agents, and the companies to which the Bank outsources certain of its business operations, will not take actions in violation of the Bank's policies, for which the Bank may be ultimately held responsible. For example, in fiscal 2018, the Bank's former Chief Information Officer was found to have compromised the Bank's interests following a whistleblower complaint alleging irregularities and improprieties in his supervisory and monitoring role over transactions relating to vendor selection and payments terms. In addition to taking appropriate action against the concerned executive, the Bank has put in place corrective measures and controls intended to prevent such incidents in the future. Moreover, in fiscal 2018, certain unpublished price sensitive information relating to the Bank's financial results for the quarter ended June 30, 2017 became public ahead of the official publication of such result in relation to which, SEBI passed an order against the Bank directing the Bank to strengthen its internal systems and control, conduct an internal inquiry and take appropriate steps. Although the Bank responded by taking several measures intended to prevent recurrence of these episodes, no assurances can be provided that such measures will be effective or that similar issues will not arise in the future.

The Bank's policies and procedures are aimed at detecting and preventing corruption, fraud or other misconduct by the Bank's employees and agents, they may not completely eliminate instances where the Bank's employees may engage in such illegal or improper activities. Any future misconduct by individuals working for the Bank could occur, which could adversely affect the Bank.

Actions of the Government, as the Bank's controlling shareholder through and other Government-related entities, could conflict with the interests of other shareholders.

The Government, through LIC hold 7.93% of the Bank's issued and paid-up equity shares.

Under the Bank's memorandum and articles of association LIC has the right to nominate one director. The Chairman of the board is duly appointed by the board of directors of the Bank.

While the Bank is overseen by an independent board of directors, LIC has one seat out of the Directors in the Bank's Board of Directors. The Bank believes that the LIC nominated director is not in a position to unduly exercise influence overboard decisions, decisions of the shareholders and influence the policies of the Bank in a manner that could directly or indirectly favour the interests of the Government or cause the Bank to forego business opportunities or may otherwise conflict with the interests of other shareholders.

Major fraud lapses of control, system failures or calamities could adversely impact the Bank's business.

The Bank is vulnerable to risk arising from the failure of employees to adhere to approved procedures, system controls, fraud, system failures, information system disruptions, communication systems failure and data interception during transmission through external communication channels and networks. There can be no assurance that the Bank's use of encrypted password-based protections and firewalls are adequate to prevent fraud or the invasion or breach of the network by an intruder. Failure to protect against fraud or breaches in security may adversely affect the Bank's

operations and future financial performance. The Bank's reputation could be adversely affected by significant fraud committed by its employees, agents, customers or third parties.

For example, in fiscal 2019, the Bank was one of several other Indian banks involved in a well-publicized fraud involving letters of undertaking issued by those banks, which resulted in a U.S.\$20 million loss for the Bank and negatively affected the Bank's reputation. In addition, the Bank has experienced an increase in the number of internal frauds in fiscal 2019 as compared to fiscal 2018, and in fiscal 2020 as compared to fiscal 2019. Although the Bank believes it has taken appropriate measures intended to address those issues, any future lapses in the Bank's fraud identification and reporting processes could expose the Bank to the recurrence of frauds which could adversely affect the Bank's business and its reputation. In December 2017, certain unpublished price sensitive information relating to its financial results for the quarter ended June 30, 2017 allegedly became public ahead of the official publication of such result. Following public disclosure of this information, the Bank was directed by SEBI on December 27, 2017 to, among other things: (i) strengthen the Bank's current systems and controls to ensure that such instances of leakage of unpublished price sensitive information do not recur in the future; and (ii) conduct an internal inquiry into the alleged leakage of unpublished price sensitive information relating to the Bank's financial results and submit a report in relation thereto. Accordingly, the Bank had appointed an independent third-party consultant to review the effectiveness of the Bank's internal controls and submit a report on its findings. Upon conclusion of the investigation, the Bank has, by its letter dated April 13, 2018 submitted the independent third-party consultant's report with SEBI. As on the date of this General Information Document, the Bank has not received any order from SEBI in this regard.

Given the increasing share of retail products and services and transaction banking services in the Bank's overall business, the importance of systems technology to the Bank's business has increased significantly. The Bank's principal delivery channels include ATMs, internet banking, mobile banking and call centers (telephone banking). Any failure in the Bank's systems, particularly for retail products and services and transaction banking, could significantly affect the Bank's operations and the quality of its customer service and could result in business and financial losses and adversely affect the trading price of the Bonds. For example, the Bank's customer service operations have been affected to some extent in the past during the migration of the Bank's core banking software to an updated version, as the application took time to stabilize.

The Bank maintains a disaster recovery center in Bengaluru in the event that the Bank's main computer center in Mumbai shuts down for any reason. The system in Bengaluru is configured to come into operation if the Mumbai system is no longer operational. However, if for any reason the switch over to the backup system does not take place or if a calamity occurs in both Mumbai and Bengaluru such that the Bank's business is compromised in both centers, the Bank's operations would be adversely affected.

The Bank may breach third party intellectual property rights.

The Bank may be subject to claims by third parties, both inside and outside India, if it breaches their intellectual property rights by using slogans, names, designs, software or other such rights, which are of a similar nature to the intellectual property these third parties may have registered. The Bank has received oppositions from Axis Holdings Private Limited and AXA for its trademark application dated April 16, 2007 and from Axis Holdings Private Limited for its trademark application dated June 25, 2007 to register the name "AXIS BANK" and the logo associated with the name, citing prior use of their respective trademarks.

The Bank may not be able to prevent infringement of its trademark and may be unable to seek remedies for infringement of those trademarks by third parties other than relief against passing off by other entities, which may not provide sufficient protection. The Bank's inability to use of these trademarks and any unauthorized usage could adversely affect its business and results of operations.

Any legal proceedings which result in a finding that the Bank has breached third parties' intellectual property rights, or any settlements concerning such claims, may require the Bank to provide financial compensation to such third parties or make changes to its marketing strategies or to the brand names of its products, which may have a materially adverse effect on the Bank's business prospects, reputation, results of operations and financial condition.

A failure, inadequacy or security breach in the Bank's information technology and telecommunication systems may adversely affect its business, results of operation or financial condition.

The Bank's ability to operate and remain competitive depends in part on its ability to maintain and upgrade its information technology systems and infrastructure on a timely and cost-effective basis, including its ability to process a large number of transactions on a daily basis. The Bank's operations also rely on the secure processing, storage and transmission of confidential and other information in its computer systems and networks.

The Bank's financial, accounting, or other data processing systems and management information systems or its corporate website may fail to operate adequately or become disabled as a result of events that may be beyond the Bank's control or may be vulnerable to unauthorized access, computer viruses or other attacks. Deficiencies in the Bank's internal management of information systems and data security practices expose the Bank to heightened risks, which could cause damage to the Bank's reputation and adversely impact the Bank's business and financial results.

Significant security breaches could adversely impact the Bank's business.

The Bank faces cyber threats, such as hacking, phishing and trojans, attempting to exploit the Bank's network to disrupt services to customers and/or theft or leaking of sensitive internal Bank data or customer information. In the past, the Bank has been exposed to cyber security incidents such as ransomware, web defacing attacks, un-patched vulnerable software exploitation, breaches of debit card use and fraudulent withdrawals. For example, in October 2016, there was an intrusion attempt observed on 15 of the Bank's servers through a third-party vendor, whose system was based in a foreign location. The investigation revealed that the vendor system had been maliciously controlled through other compromised systems, within the vendors network. In addition, in fiscal 2019, the Bank's subsidiary in the United Kingdom was the victim of a phishing attack that resulted in a U.S.\$ 1.9 million loss. The occurrence or recurrence of any of these incidents in the future may cause damage to the Bank's reputation and adversely impact the Bank's business and financial results.

Further, the information available to and received by the Bank's management through its existing systems may not be timely and sufficient to manage risks or to plan for and respond to changes in market conditions and other developments in the Bank's operations. If any of these systems are disabled or if there are other shortcomings or failures in the Bank's internal processes or systems, it may disrupt the Bank's business or impact the Bank's operational efficiencies and render it liable to regulatory intervention or damage to its reputation. The occurrence of any such events may adversely affect the Bank's business, results of operation and financial condition.

The Bank seeks to protect its branch network infrastructure and computer systems from security breaches and other disruptive problems caused by the Bank's increased use of the Internet. Computer break-ins and power disruptions could affect the security of information stored in and transmitted through these computer systems and network infrastructure. Since technology is fast changing, there may be new areas in the system that may be exposed to security breaches and other attacks. The Bank employs security systems, including firewalls and password encryption, designed to minimize the risk of security breaches. Although the Bank intends to continue to implement security technology and establish operational procedures to prevent break-ins, damage and failures, there can be no assurance that these security measures will always be adequate or successful.

As the sophistication of cyber incidents continues to evolve, the Bank will likely be required to expend additional resources to continue to modify or enhance its protective measures or to investigate and remediate any vulnerability to cyber incidents. There is also the risk of the Bank's customers incorrectly blaming the Bank and terminating their accounts with the Bank for a cyber-incident which might have occurred on their own system or that of an unrelated third party. Any cyber security breach could also subject the Bank to additional regulatory scrutiny and expose the Bank to civil litigation and related financial liability. Failed security measures could have a material adverse effect on the Bank's business, its future financial performance and the trading price of the Bonds.

The Bank, its subsidiaries, directors and promoters are involved in legal and regulatory proceedings that, if determined against it, could have a material adverse impact on its future financial performance and the price of the Bonds.

The Bank is often involved in certain litigation matters and subject to various regulatory investigations, audits or other inspections in the ordinary course which could result in judgments, fines, reprimands and damage to the Bank's reputation. These matters may also result in the diversion of significant time and attention from the Bank's management, significant costs for the Bank to defend itself as well as costs for investigations and remediation of affected customers, each of which could adversely affect the Bank's business and financial results.

These matters may arise for various reasons, including because the Bank seeks to recover monies from its borrowers or because the Bank's customers seek claims against the Bank or for other reasons. Although it is the Bank's policy to make provisions for probable loss for litigation matters, the Bank does not make provisions or disclosures in its financial statements where its assessment is that the risk is not probable. Moreover, to the extent that the Bank is unable to accurately identify and track legacy litigation cases, such failures could expose the Bank to heightened legal and reputational risks.

The Bank has also issued notices and initiated various recovery and insolvency proceedings against defaulting borrowers under the Recovery of Debts and Bankruptcy Act, 1993 and the Insolvency and Bankruptcy Code, 2016 and failure by such borrowers to repay the outstanding borrowings pursuant to such notices and proceedings may adversely affect the business.

The Bank cannot assure you that the judgments in any of the litigation or regulatory proceedings in which the Bank is involved would be favourable to it and if its assessment of the risk changes, its view on provisions will also change. Increased provisioning for such potential losses could have a material adverse effect on the Bank's results of operations and financial condition. If the Bank's provisioning is inadequate relative to actual losses on final judgment, such additional losses could have a material adverse impact on the Bank's business and trading price of the Bonds. Such proceedings also divert management time and attention and consume significant financial resources in their defense or prosecution, which could materially affect the Bank's financial condition. Any adverse outcome of litigation or regulatory proceedings could have a material adverse effect on the Bank's business, its future financial performance

and trading price of the Bonds. The Bank may also incur legal cost for a matter even if the Bank has not made any legal provisions for the same. In addition, the cost of resolving a legal claim may be substantially higher than any amount reserved for that matter.

The Bank may not be able to renew or maintain its statutory and regulatory permits and approvals required to operate its business.

The Bank is required to obtain and maintain various statutory and regulatory permits and approvals to operate its business, which requires the Bank to comply with certain terms and conditions to continue its banking operations. Although the Bank has no reason to believe that such statutory and regulatory permits and approvals will not be granted and/or renewed as and when requested, certain of the Bank's business licenses have been denied or temporarily revoked in the past and the Bank cannot guarantee that it will be able to maintain, renew or obtain any required statutory and regulatory permits and approvals in the future, in a timely manner, or that no additional requirement will be imposed in connection with such request. Statutory and regulatory permits and approvals required for the development of the Bank's activities may require that it meet certain performance thresholds or financial metrics. In case the Bank is unable to meet these thresholds or metrics, the Bank may lose or not be able to obtain or renew such authorizations, concessions, licenses or permits. The Bank also cannot guarantee that it will timely comply with all of its obligations with governmental agencies, including obtaining the necessary operating permits in a timely manner.

In the event that the Bank is unable to renew or maintain such statutory permits and approvals or comply with any or all of the applicable terms and conditions or seek waivers or extensions of time for complying with such terms and conditions, all or some of the Bank's operations may be interrupted, penalties may be imposed and the Bank's business, financial results and reputation could be materially and adversely affected.

The Bank's insurance policies may not be sufficient to cover all of its losses.

The Bank maintains several types of insurance policies in line with the risk management policies of its business, which generally attempt to follow industry market practices for similar activities.

The Bank maintains several types of insurance policies and has coverage that it deems appropriate and customary for a bank of its size and nature. The Bank's insurance policies include a banker's indemnity insurance policy, which is a comprehensive insurance policy that offers coverage for various forms of risks. Some of the items covered under this insurance policy include (i) money (cash and precious metals) on premises and in vaults of agencies; (ii) money (cash and precious metals) in transit; (iii) cash in onsite ATMs/dispensers owned by the Bank; (iv) losses from external/internal fraud; and (v) losses from transactions through mobile banking; (vi) electronic banking transactions; and (vii) electronic crime.

The coverage obtained in these insurance policies may not be sufficient to cover all the risks to which the Bank is exposed, which could adversely affect the Bank. Additionally, the Bank may not be able to successfully contract or renew its insurance policies on satisfactory terms. If the Bank is unable to procure adequate levels of insurance at rates that its management deems satisfactory, the Bank could be adversely affected.

Any closure of branches or loss of the Bank's key branch personnel may adversely affect the Bank's ability to build and maintain relationships with the Bank's customers, which could adversely affect the Bank's business.

The Bank's business is dependent on the Bank's key branch personnel's ability to establish, build, and maintain customer relationships. The Bank encourages dedicated branch personnel to service clients in certain business segments since the Bank believes that this leads to long-term client relationships, a trust-based business environment, and over time, better cross-selling opportunities. While no individual branch manager and no single operating group of managers contribute a meaningful percentage of the Bank's business, it may suffer materially if a substantial number of branch managers leave the organization or if some of the branches are closed for any reason beyond the Bank's control.

The RBI may remove any employee, managerial personnel or may supersede the Bank's Board of Directors in certain circumstances, which may materially affect the Bank's business, results of operations, and financial conditions.

The Banking Regulation Act confers powers on the RBI to remove from office any directors, chairman, chief executive officer, or other officers or employees of a bank in certain circumstances. The RBI also has the powers to supersede the board of directors of a bank and appoint an administrator to manage the bank for a period of up to six months, which may be up to 12 months in certain circumstances. The RBI may exercise powers of supersession where it is satisfied, in consultation with the Government that it is in the public interest to do so, to prevent the affairs of any bank from being conducted in a manner that is detrimental to the interest of the depositors, or for securing the proper management of any bank. Should any of the steps as explained herein are taken by the RBI against the Bank, its business, results of operations, and financial conditions would be materially and adversely affected.

While the Bank has in place procedures and safeguards to prevent dealings with parties and countries that are the target of United States, Indian, and other sanctions, these measures by the Bank may not be fully effective, and any non-compliance by the Bank with such sanctions could harm our reputation or result in regulatory action which could materially and adversely affect our business.

The Bank engages in business with customers and counterparties from diverse backgrounds. In light of U.S., Indian, EU and other sanctions, the Bank cannot be certain that its procedures and safeguards relating to sanctions will always be effective, or that some of the Bank's customers or counterparties may become the subject of sanctions. Such sanctions may result in the Bank's inability to gain or retain such customers or counterparties or receive payments from them. Non-compliance with such sanctions could have a material adverse effect on the Bank's business, financial results and the prices of our securities.

These laws, regulations and sanctions or similar legislative or regulatory developments may further limit the Bank's business operations. If the Bank were determined to have engaged in activities targeted by certain U.S., Indian, EU or other statutes, regulations or executive orders, it could lose its ability to open or maintain correspondent or payable-through accounts with U.S. financial institutions, among other potential sanctions. In addition, depending on sociopolitical developments, even though we take measures designed to ensure compliance with applicable laws and regulations, our reputation may suffer due to our association with certain restricted targets. The above circumstances could have a material adverse effect on our business, financial results and the prices of our securities.

A global or regional financial crisis or financial instability in the countries where the Bank does business could adversely affect its operations, cash flows, asset quality and growth.

Our business has been, and in the future will continue to be, materially affected by geo-political, economic and market conditions, including factors such as the liquidity of the global financial markets, the level and volatility of debt and equity prices, interest rates, currency and commodity prices, investor sentiment, inflation and the availability and cost of capital and credit.

There are a number of uncertainties ahead in the global markets (for example, future bilateral trade relations between the US and China). As of the date of this General Information Document, India is also in an adjustment period, having been impacted by three consecutive shocks over the past three years, namely demonetization, GST implementation, and financial sector stress.

In addition, an outbreak of the COVID-19 pandemic, which first emerged in Wuhan City, Hubei province, PRC, in late December 2019, had spread to other parts of the world, followed by new waves of infections and mutant strains of the virus. Although the global economic recovery has gained momentum since the outbreak, driven by mass vaccination programmes and government stimulus packages, a pandemic driven by a different variant or a new virus could become more severe and result in a more widespread health crisis, which may in turn result in protracted volatility in international markets and/or result in a global recession as a consequence of disruptions to travel and retail segments, tourism, and manufacturing supply chains. Any of these factors may have a material adverse effect on our financial condition and results of operation.

In many major advanced economies, consumer price index inflation has been increasing, attributable to pent-up demand, elevated input prices and unfavourable base effects. This has been aggravated by the Russia Ukraine conflict which has affected the supply of key commodities including crude. Further, the concerted efforts of the central banks across the globe in taming inflation has led to increase in interest rates and moderation of economic growth.

Inflationary pressures in emerging markets and Asia are likely to ease on the back of slower global growth and reduced economic activity. Whilst this gives more leeway for an accommodative stance on monetary policy, central bankers would still have to weigh a decision to cut rates against the need to stabilize their currencies against depreciation pressures.

The implications for the world and the Bank are significant. First, a rise in global trade protectionism will negatively impact the trade-dependent economies in Asia. Second, the interplay between U.S. fiscal policies vis-à-vis monetary policies pursued by other central banks, particularly those in the emerging markets, may lead to more volatile global capital flows. Third, while our direct exposures outside the Indian financial markets are relatively modest, financial market volatility and increased uncertainty may have a broader global economic impact that may in turn have a material adverse effect on our business, cash flows, financial condition and results of operations. Investors should be aware that there is a recent history of financial crises and boom-bust cycles in multiple markets in both emerging and developed economies which leads to risks for all financial institutions, including the Bank. We remain subject to the indirect economic effect of any potential tightening in global credit conditions, some of which cannot be anticipated and the vast majority of which are not under our control. We also remain subject to counterparty risk arising from financial institutions that can fail or are otherwise unable to meet their obligations under their contractual commitment to us.

A loss of investor confidence in the financial systems of other emerging markets may cause increased volatility in the Indian financial markets and indirectly in the Indian economy in general. Any worldwide financial instability in the global markets could have a negative influence on the Indian economy and on other economies in which we operate,

including the United Arab Emirates and Singapore. While legislators and financial regulators across the globe including in the United Arab Emirates, Singapore and other jurisdictions, including India, have implemented several measures designed to add stability to the financial markets, these may not have the intended stabilizing effects. Furthermore, in several parts of the world, there are signs of increasing retreat from globalization of goods, services and people, as pressure for the introduction of a protectionist regime is building and such developments could adversely affect the Indian economy. In the event that the current adverse conditions in the global credit markets continue or if there are any significant financial disruption, this could have an adverse effect on our business, cash flows, financial condition, results of operations and the trading price of the Bonds.

Any failure of a bank in India or one of our key overseas correspondent banks would materially and adversely affect our business.

Our business relies heavily on our overseas correspondent banks to facilitate our international transactions. In India, the banking industry is also inter-dependent to facilitate domestic transactions. There is no assurance that our overseas correspondent banks or our domestic banking partners will not fail or face financial problems. If any bank in India, especially a private bank, or any of our key overseas correspondent banks were to fail, this would materially and adversely affect our business, cash flows, financial condition, and results of operations.

Statistical and industry data in the General Information Document may be incomplete or unreliable.

The Bank has not independently verified third party statistical and industry data obtained from industry publications and other industry sources referred to in the General Information Document and therefore, while the Bank believes such data to be true, it cannot assure you that such data is complete or reliable. Such data may also be produced on different bases from those used in the industry publications that the Bank has referred to. Accordingly, discussion on matters relating to India, its economy and the industries in which the Bank currently operates is subject to the caveat that the statistical and other data upon which such discussions are based may be incomplete or unreliable.

A downgrade in ratings of India, the Indian banking sector or of the Bank may affect the trading price of the Bonds.

The Bank's borrowing costs and the Bank's access to the debt capital markets depend significantly on the Bank's credit ratings and that of India. These ratings are assigned by rating agencies, which may reduce or withdraw their ratings or place the Bank on "credit watch" with negative implications at any time. Credit ratings are also important to the Bank when competing in certain markets and when seeking to engage in longer-term transactions, including over-the-counter derivatives. A reduction in the Bank's credit ratings could increase the Bank's borrowing costs and limit the Bank's access to the capital markets. This, in turn, could reduce the Bank's earnings and adversely affect the Bank's liquidity.

Recently, S&P maintained the Bank's credit rating to "BBB minus" while the outlook was upgraded to "positive" from "stable outlook". Further, Fitch Ratings Ltd. also maintained the Bank's rating to "BB plus" with "stable outlook" and Moody's maintained the Bank's ratings to "Baa3" with "stable outlook".

A downgrade in the Bank's credit rating could restrict the Bank's ability to borrow, assign loans or issue securities on acceptable terms, thereby raising the Bank's funding costs. In addition, the Bank may also be unable to raise funds on acceptable terms, or be able to raise sufficient funds, at a time when additional funding would be most needed.

Moreover, any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact the Bank's ability to raise additional financing and the interest rates and other commercial terms at which such financing is available. A downgrading of India's credit ratings may occur, for example, upon a change of government tax or fiscal policy, which are outside the Bank's control.

Risks Relating to India

The Bank's business is substantially affected by prevailing economic, political and others prevailing conditions in India, and a slowdown in economic growth in India could cause the Bank's business to suffer.

The vast majority of the Bank's business activities are conducted in India. Accordingly, the Bank's financial position and results of operations have been and will continue to be significantly affected by overall economic growth patterns in India.

The Indian economy's growth momentum moderated to a healthy 7% in FY23, slowing as the low pandemic base moderated, with sequential growth numbers ahead indicating some further moderation in line with global economic trends. The numbers still show good increases in fixed asset investment, seen as driving longer term growth trends. Improvement continued, with FY24, the growth at a robust 8.2% as per latest estimates being well above initial forecasts. The RBI estimates growth in FY25 at 7.2%. However, growth risks continue to emanate from global factors (including geopolitical tensions), the spatial and temporal distribution of the monsoon, and withdrawal of fiscal accommodation. Easing monetary conditions are likely to provide support to global growth. However, policy shifts in

terms of macroprudential norms, as well as shifts in the level of excess reserves in the system, can modulate these shifts.

Economic growth in India is influenced by, inter alia, inflation, interest rates, foreign trade and capital flows. The level of inflation or depreciation of the Indian rupee may limit monetary easing or cause monetary tightening by the RBI. Any increase in inflation, due to increases or volatility in domestic food prices or global prices of commodities, including crude oil, the impact of currency depreciation on the prices of imported commodities and additional pass-through of higher fuel prices to consumers, or otherwise, may result in a tightening of monetary policy. India has, in the past, experienced sustained periods of high inflation. A return to high rates of inflation with a resulting rise in interest rates, and any corresponding tightening of monetary policy may have an adverse effect on economic growth in India.

While the Bank's results may not necessarily track India's economic growth figures, the Indian economy's performance affects the environment in which the Bank operates. Any slowdown in economic growth in India could adversely affect the Bank's borrowers and contractual counterparties, decreasing the credit quality of the Bank's borrowers. A slowdown in economic growth in India could also result in lower demand for credit and other financial products and services and higher defaults among corporate, retail and rural borrowers. With the importance of retail loans to the Bank's business, any slowdown in the growth or negative growth of sectors such as housing and automobiles could adversely impact the Bank's performance.

Furthermore, in light of the increasing linkages of the Indian economy to other developed and emerging economies, the Indian economy is increasingly influenced by economic and market conditions in other countries and, as a result, a slowdown/recession in the economic growth of the United States and other countries in the developed and emerging global economy could have an adverse impact on economic growth in India. The current uncertain economic situation, in India and globally, could result in a further slowdown in economic growth, investment and consumption. Any such slowdown could adversely affect the Bank's business, including its ability to grow, the quality of its assets, its financial performance and the trading price of the Bonds. In addition, any impact of the continuing instability and volatility in the global financial markets could have a material adverse impact on the Bank's business.

Financial instability in other countries may cause increased volatility in Indian financial markets.

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, particularly emerging market countries in Asia. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss of investor confidence in the financial systems of other emerging markets and countries where the Bank has established operations or any worldwide financial instability may cause volatility in Indian financial markets and adversely affect the Indian economy, directly or indirectly, such as through movements of exchange rates and interest rates in India. The occurrence of any financial disruptions may have an adverse effect on the Bank's cost of funding, loan portfolio, business, future financial performance and the trading price of the Bonds.

Developments in the Eurozone, including concerns regarding the rigorous re-imposition of fiscal rules, negotiations between the United Kingdom and European policymakers following the withdrawal of the United Kingdom from the European Union, the exit of any other country from the European Union, weakening economic conditions as well as concerns related to an early tightening of monetary policy across major economies, rising commodity prices and escalation of geopolitical disputes may lead to increased risk aversion and volatility in global capital markets.

Geopolitical conditions relating to the U.S. with allies and other powers, most notably China, continue to evolve. This may impact emerging markets, primarily in Asia, and could change value chain and trading relationships, as well as lead to higher risk premium.

These and other related events such as concerns over recession, inflation or deflation, energy costs, geopolitical issues, slowdown in economic growth in China and Renminbi management, commodity prices and the availability and cost of credit may have had a significant impact on the global credit and financial markets as a whole, including reduced liquidity, greater volatility, widening of credit spreads and a lack of price transparency in the United States and global credit and financial markets. A lack of clarity over the ongoing process for managing the exit from extraordinary stimulus and uncertainties surrounding its economic impact could lead to a further slowdown and instability in financial markets. This and any prolonged financial crisis may have an adverse impact on the Indian economy, and in turn on our business, financial condition and results of operations.

In response to these and other developments, legislators and financial regulators in the United States and other jurisdictions, including India, implemented a number of policy measures designed to add stability to the financial markets. However, the overall long-term impact of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have had the intended stabilizing effects. Any significant financial disruption in the future could have an adverse effect on the Bank's cost of funding, loan portfolio, business, future financial performance and the trading price of the Bonds. Adverse economic developments overseas in countries where the Bank has operations could have a material adverse impact on the Bank and the trading price of the Bonds.

Increased volatility or inflation of commodity prices in India could adversely affect the Bank's business.

The price of Brent crude oil has traded in the range of USD 70-90/bbl over the last one year, despite geopolitical risks as Chinese demand has remained weak. Volatility in the price of crude oil could adversely affect the Indian economy and the Indian banking and financial system in particular, including through volatility in the rate of inflation and a higher trade deficit which could, in turn, adversely affect the Bank's business.

In recent months, consumer price inflation has risen again tracking elevated vegetable prices following poor spatial and temporal monsoon distribution, while core inflation has seen continued consolidation. The Consumer Price Index rose from 3.4% (average) in fiscal 2019 to 5.4% in fiscal 2024. The inflation in Q1FY25 has been at 4.9% although it is expected to come down with RBI's estimate at 4.5% for the full year. Wholesale inflation has picked up on low base of FY24. In the past there have been several periods of sharp increases in global crude oil prices since 2004 due to increased demand and speculation and pressure on production and refinery capacity, and political and military tensions in key oil-producing regions, among other factors. There has also been elevated food inflation, and elevated core inflation episodes. Any increased volatility in the rate of inflation domestically or in global commodity prices, in particular oil and steel prices, could adversely affect the Bank's borrowers and contractual counterparties. The Bank cannot predict the duration of these negative events and their ongoing impact on Indian economy.

As the Bank's business consists of sizable contributions from the retail and agricultural segments, any slowdown in the growth of the housing, automobile or agricultural sectors could increase the cost of servicing its non-Rupee-denominated debt, including the Bonds, and adversely impact the Bank's business, financial conditions and results of operations.

Trade deficits could have a negative effect on the Bank's business and the trading price of the Bonds.

India's trade relationships with other countries can influence Indian economic conditions. The merchandise trade deficit has reached U.S.\$242.1 billion in fiscal year 2024 (as per provisional RBI data) translating to a current account deficit of 0.6% of GDP, compared with U.S.\$265.3 billion in fiscal year 2023 (a current account deficit of USD 67 bn reaching around 2% of GDP). If India's current account deficits increase or become unmanageable, the Indian economy, and therefore the Bank's business, future financial performance and the trading price of the Bonds could be adversely affected.

A decline in India's foreign exchange reserves may affect liquidity and interest rates in the Indian economy, which could have an adverse impact on the Bank. A rapid decrease in reserves would also create a risk of higher interest rates and a consequent slowdown in growth.

While India has been maintaining healthy reserves, a decline in India's foreign exchange reserves could result in reduced liquidity and higher interest rates in the Indian economy as well as an adverse effect on the valuation of the Rupee. Flows to foreign exchange reserves in India have been volatile in the past and may continue to be volatile in the future. Foreign exchange reserves at U.S.\$ 667.4 billion at the time of writing (Jul 2024) have increased from lows of U.S.\$ 525 billion in October 2022. Increase in reserves has been brought about by interest income on reserves, valuation gains intervention in FX markets.

Declines in foreign exchange reserves could adversely affect the valuation of the Rupee and could result in reduced liquidity and higher interest rates that could adversely affect the future financial performance of the Bank and the trading price of the Bonds.

The Bank is subject to risks relating to the stability of the Indian financial system.

The Bank is exposed to the risks of the Indian financial system, which in turn may be affected by financial difficulties and other problems faced by certain Indian financial institutions. As an emerging market economy, the Indian financial system faces risks not typically faced in developed countries, including the risk of deposit runs, notwithstanding the existence of a national deposit insurance scheme. Certain Indian financial institutions have experienced difficulties during past years. Some cooperative banks have also faced serious financial and liquidity crises. The problems faced by individual Indian financial institutions and any instability in or difficulties faced by the Indian financial system generally could create adverse market perception about Indian financial institutions and banks. This in turn could adversely affect the Bank's business, future financial performance and the price of the Bonds.

The Bank has little or no control over any of these factors or trends and may be unable to anticipate changes in economic conditions. Adverse effects on the Indian banking system could impact the Bank's funding, profitability, asset quality or NPAs and adversely affect the Bank's business growth and as a result, impact future financial performance and the market price of the Bonds. In addition, any impact on the banking system as a result of the ongoing volatility in the financial markets, including the recent slowdown in the Chinese economy, could have a material adverse impact on the Bank's business.

Indian accounting principles differ from those which prospective investors may be familiar with in other countries. In addition, the effects of the planned convergence with, and adoption of, IFRS are uncertain.

The Bank's financial statements as of and for the years ended March 31 2022, 2023, and 2024 are prepared in accordance with Indian GAAP, and no attempt has been made to reconcile any of the information given in this General Information Document to any other principles or to base it on any other standards. Indian GAAP differs from accounting principles with which prospective investors may be familiar in other countries, including the United States and the United Kingdom. In addition, there may be less publicly available information about Indian public companies, such as the Bank, than is regularly made available by public companies in such other countries. Public companies in India, including the Bank, have been required to prepare financial statements under Ind AS according to the implementation roadmap drawn up by the Indian Ministry of Corporate Affairs. The Bank may be adversely affected by this transition.

The Ministry of Corporate Affairs, in its press release dated January 18, 2016, issued a roadmap for implementation of Ind AS converged with IFRS for scheduled commercial banks, insurers, insurance companies and non-banking financial companies. This roadmap requires all financial institutions (including the Bank) to prepare Ind AS-based financial statements for the accounting periods beginning from April 1st 2018 onwards with comparatives for the periods ending March 31 2018 and thereafter. The RBI, by its circular dated February 11th, 2016, required all scheduled commercial banks to comply with Ind AS for financial statements for the periods stated above. However, the RBI on 5 April 2018 deferred the applicability of Ind AS by one year for commercial banks. Further, the RBI on March 22, 2019 deferred the implementation of Ind AS, until further notice.

The RBI does not permit banks to adopt Ind AS earlier than the official implementation timelines. However, the Bank's IT systems and other processes are already in the advanced stages of Ind AS implementation.

Ind AS 109 – Financial Instruments (a standard equivalent to International Financial Reporting Standard 9) would have a significant impact on the way financial assets and liabilities are classified and measured, resulting in volatility in profit or loss and equity. Ind AS will change, among other things, the Bank's methodology for estimating allowances for probable loan losses and for classifying and valuing its investment portfolio and its revenue recognition policy. There can be no assurance that the Bank's financial condition, results of operations, cash flows or changes in shareholders' equity will not appear materially worse under Ind AS than under current Indian GAAP.

In the Bank's transition to Ind-AS reporting, the Bank may encounter difficulties in the ongoing process of implementing and enhancing its management information systems. Furthermore, there is no significant body of established practice on which to draw in forming judgements regarding the new system's implementation and application. There is also increasing competition for the small number of experienced accounting personnel familiar with Ind-AS accounting standards as more Indian companies begin to prepare Ind-AS financial statements. There can be no assurance that the Bank's adoption of Ind-AS will not adversely affect its reported results of operations or financial condition, and any failure to successfully adopt Ind-AS could adversely affect the Bank's business, financial condition and results of operations.

The Bank's business may be adversely affected by changes in competition laws in India.

The Competition Act, 2002, as amended from time to time (the **Competition Act**), was enacted for the purpose of preventing practices having an adverse effect on competition in India, and has mandated the Competition Commission of India to regulate such practices. Under the Competition Act, such practices include any arrangement, understanding or action, whether formal or informal, which causes or is likely to cause an appreciable adverse effect on competition in India is void and may result in substantial penalties. Any agreement among competitors that directly or indirectly determines purchase or sale prices; directly or indirectly results in bid rigging or collusive bidding; limits or controls production, supply, markets, technical development, investment or the provision of services; or shares the market or source of production or provision of services by way of allocation of geographical area or types of goods or services or number of customers in the relevant market or any other similar way, is presumed to have an appreciable adverse effect on competition in the relevant market in India and is void. Furthermore, the Competition Act prohibits the abuse of dominant position by any enterprise. If it is proved that the contravention committed by a company took place with the consent or connivance or is attributable to any neglect on the part of, any director, manager, secretary or other officer of such company, that person shall be guilty of the contravention and may be punished. If the Bank or any of its employees is penalized under the Competition Act, the Bank's business may be adversely affected.

If the Bank is affected, directly or indirectly, by the application or interpretation of any provision of the Competition Act or any enforcement proceedings initiated by the Competition Commission of India or any other relevant authority under the Competition Act or any claim by any party under the Competition Act or any adverse publicity that may be generated due to scrutiny or prosecution by the Competition Commission of India, the Bank's business and financial performance may be materially and adversely affected.

The implementation of the General Anti-Avoidance Rules could adversely affect the Bank's business, future financial performance, and the trading price of the Bonds.

The General Anti-Avoidance Rules (GAAR) provisions became effective on April 1st 2017. GAAR codifies the principle of substance over form. Under the GAAR provisions, an arrangement the main purpose of which is to obtain a tax benefit and which lacks commercial substance will be considered as an “impermissible avoidance arrangement”. In addition, the Bank has to establish that its transactions are not undertaken with the main objective of tax avoidance but are backed by commercial and economic substance.

As the provisions of GAAR are subjective in nature, its effect on the banking system cannot be determined as at the date of this General Information Document and therefore, there can be no assurance that the implementation of GAAR would not adversely affect the Bank's business, future financial performance and the trading price of the Bonds.

Natural calamities, terrorist attacks, civil disturbances, outbreaks of contagious diseases, power outages and other disruptions could have a negative impact on the Indian economy and could cause the Bank's business to suffer and the trading price of the Bonds to decrease.

India has experienced natural calamities such as earthquakes, floods and drought in the recent past, with the most recent example being the global outbreak of COVID-19 described above. The extent and severity of these natural disasters determine their impact on the Indian economy. For example, in fiscals 2015 and 2016, many parts of India received significantly less than normal rainfall, which significantly impacted the performance of the agricultural sector. An erratic monsoon season could also adversely affect sowing operations for certain crops and result in a decline in the growth rate of the agricultural sector. Prolonged spells of below-normal rainfall in the country or other natural calamities could have a negative impact on the Indian economy, adversely affecting the Bank's business and potentially causing the trading price of the Bonds to decrease. For example, recent landslide in the Indian state of Kerala led to the dislocation of the local population, which had have affected normal functioning of the branches located in that particular region.

In addition, influenza A H5N1 has had a profound effect on the poultry industry and Nipah virus encephalitis, is an emerging infectious disease of public health importance in Asia. India's southern state of Kerala was put under a lot of stress in May 2018 due to an outbreak of the Nipah virus. Asia is home to dynamic systems in which biological, social, ecological, and technological processes interconnect in ways that enable microbes to exploit new ecological niches. These processes include population growth and movement, urbanization, changes in food production, agriculture and land use, water and sanitation, and the effect of health systems through generations of drug resistance. There can be no assurance that the ongoing situation caused by the COVID-19 pandemic or a future outbreak of an infectious disease among humans or animals (if any) or any other serious public health concern will not have a material adverse effect on our business, financial condition and results of operations.

India has from time-to-time experienced instances of social, religious and civil unrest and hostilities between neighbouring countries. In June 2020, the clash between China and Indian soldiers in the Galwan River Valley resulted in numerous fatalities, which led to increased tension between the two countries. Present relations between India and Pakistan continue to be fragile on the issues of terrorism, armaments and Kashmir. In April 2019, skirmishes along India's border with Pakistan and the downing of an Indian military jet fighter plane significantly escalated tensions between the two countries. India has also experienced terrorist attacks in some parts of the country. In November 2008, several coordinated shooting and bombing attacks occurred across Mumbai, India's financial capital. These attacks resulted in loss of life, property and business. Military activity or terrorist attacks in the future could influence the Indian economy by disrupting communications and making travel more difficult and such political tensions could create a greater perception that investments in Indian companies involve higher degrees of risk. Events of this nature in the future, as well as social and civil unrest within other countries in Asia, could influence the Indian economy and could have a material adverse effect on the market for securities of Indian companies, including the trading price of the Bonds.

A number of countries in Asia, including India, as well as countries in other parts of the world, are susceptible to contagious diseases and, for example, have had confirmed cases of the highly pathogenic H7N9, H5N1 and H1N1 strains of influenza in birds and swine. Certain countries in Southeast Asia have reported cases of bird-to-human transmission of avian and swine influenza, resulting in numerous human deaths. The World Health Organisation and other agencies have issued warnings on a potential avian or swine influenza pandemic if there is sustained human-to-human transmission. Future outbreaks of avian or swine influenza or a similar contagious disease could adversely affect the Indian economy and economic activity in the region. As a result, any present or future outbreak of avian or swine influenza or other contagious disease could have a material adverse effect on the Bank's business and the trading price of the Bonds.

Exchange rate risks and exchange controls

We will pay principal and interest on the Bonds in the currency specified in the relevant Pricing Supplement (the **Specified Currency**). This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the **Investor's Currency**) other than the Specified

Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (i) the Investor's Currency equivalent yield on the Bonds, (ii) the Investor's Currency equivalent value of the principal payable on the Bonds and (iii) the Investor's Currency equivalent market value of the Bonds. Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal at all.

Interest rate risks

Investment in the Bonds involves the risk that subsequent changes in market interest rates may adversely affect the value of them.

The credit ratings assigned to the Bonds may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to an issue of Bonds. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above and other factors that may affect the value of the Bonds. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

2. OTHER RISK FACTORS

As set out in the relevant Key Information Document.

3. LISTING OF NCDs

There is no guarantee that the Debentures issued pursuant to this Issue will be listed on the Stock Exchange in a timely manner, or at all. The Issuer intends to list the Debentures on the WDM segment of the Stock Exchange. In accordance with Indian law and practice, permissions for listing and trading of the Debentures issued pursuant to this Issue will not be granted until after the Debentures have been issued and allotted. Approval for listing and trading will require all relevant documents authorising the issuing of Debentures to be submitted. There could be a failure or delay in listing the Debentures on the Stock Exchange. Any failure or delay in obtaining the approval would restrict an investor's ability to trade in the Debentures.

4. REFUSAL IN LISTING OF ANY SECURITY OF THE ISSUER DURING LAST THREE YEARS BY ANY OF THE STOCK EXCHANGES IN INDIA OR ABROAD:

As of date, the Issuer has not been refused in listing of any security during the last 3 years by any of the stock exchanges in India or abroad and therefore, this would not be applicable.

5. LIMITED OR SPORADIC TRADING OF NON-CONVERTIBLE SECURITIES OF THE ISSUER ON STOCK EXCHANGES:

The Issuer cannot provide any guarantee that the Debentures will be frequently traded on the Stock Exchange and that there would be any market for the Debentures. It is not possible to predict if and to what extent a secondary market may develop in the Debentures or at what price the Debentures will trade in the secondary market or whether such market will be liquid or illiquid. Once the Debentures are listed or quoted or admitted to trading, no assurance is given that any such listing or quotation or admission to trading will be maintained. The fact that the Debentures may be so listed or quoted or admitted to trading does not necessarily lead to greater liquidity than if they were not so listed or quoted or admitted to trading.

The Issuer may, but is not obliged to, at any time purchase the Debentures at any price in the open market or by tender or private agreement where permitted by law. Any Debentures so purchased may be resold or surrendered for cancellation. The more limited the secondary market is, the more difficult it may be for holders of the Debentures to realise value for the Debentures prior to redemption of the Debentures.

6. IN CASE OF OUTSTANDING DEBT INSTRUMENTS OR DEPOSITS OR BORROWINGS, ANY DEFAULT IN COMPLIANCE WITH THE MATERIAL COVENANTS SUCH AS CREATION OF SECURITY AS PER TERMS AGREED, DEFAULT IN PAYMENT OF INTEREST, DEFAULT IN REDEMPTION OR REPAYMENT, NON-CREATION OF DEBENTURE REDEMPTION RESERVE, DEFAULT IN PAYMENT OF PENAL INTEREST WHEREVER APPLICABLE

As of date, the Issuer has not defaulted in compliance with any material covenants agreed to by the Issuer and therefore, this would not be applicable.

ii. Overview and a brief summary of the business / activities of the Issuer.

(a) Overview and brief summary of the business / activities of the Issuer:

OVERVIEW:

The Bank is the third largest private sector bank in terms of total assets in India, offering a wide range of products and services to corporate and retail customers through a variety of delivery channels. The Bank commenced operations in April 1994 and over the last 30 years, has grown both in terms of the size of its asset base and its physical network of branches, extension counters and ATMs.

As of March 31, 2024, the Bank was the third largest private sector bank in India in terms of total assets, based on public filings of private sector banks. The Bank’s total assets as of March 31, 2024 and March 31, 2023 were ₹14,77,209 crores and ₹13,17,326 crores respectively, and the Bank’s net advances and deposits as at March 31, 2024 and March 31, 2023 amounted to ₹9,65,068 crores and ₹8,45,303 crores respectively, and as at March 31, 2024 and March 31, 2023 amounted to ₹10,68,641 crores and ₹9,46,945 crores respectively.

The Bank’s primary business consists of commercial banking operations for Indian corporate and retail customers. The Bank provides a range of commercial banking products and services, including loan products, fee and commission-based products and services, deposit products and foreign exchange and derivatives products to India’s leading corporations, middle market companies and small and medium enterprises. The Bank’s retail operations primarily consist of retail lending, payments, deposit taking and distribution of third-party insurance and investment products. The Bank also offers agricultural and rural banking products.

The Bank delivers its products and services through a variety of channels, including bank branches, ATMs, call centres, the internet and mobile phones. As of March 31, 2024, the Bank had a network of 5,377 domestic branches and extension counters, 9,153 ATMs and 6,873 Recyclers distributed across 2,963 locations in India. As at March 31, 2023, the Bank had a network of 4,903 domestic branches and extension counters, 9,802 ATMs and 6,151 Recyclers distributed across 2,741 locations in India. In addition to the Bank’s extensive branch and ATM network, the Bank also offers telephone banking in various cities, as well as Internet banking and mobile banking facilities. The Bank has overseas branches at Singapore, DIFC - Dubai and an Offshore Banking Unit at the International Financial Service Centre (IFSC), Gujarat International Finance Tec-City (GIFT City), Gandhinagar, India. The Bank’s foreign branches primarily offer corporate banking, trade finance and treasury and risk management services.

The Bank’s principal business activities are divided into the following main business units:

- Retail Banking;

- Wholesale Banking; and
- Treasury.

The Bank's core income stream is comprised of interest income earned from its retail, corporate and SME loan portfolios, as well as from its money-market operations and investment portfolio. The Bank also earns fee and commission income from the processing of loans, documentary credits, bank guarantees, placements and syndication, service charges, cash management services, advisory services, depository services, capital market services, ATM interchange and cards, remittance, wealth management and sale of third-party products.

Since 2011, the Bank has experienced significant growth in its customer and geographical base, which expanded to approximately 3.2 crores savings customer accounts as at March 31, 2024. The Bank's total assets have increased from ₹13,17,326 crores as at March 31, 2023 to ₹14,77,209 crores as at March 31, 2024 with net retail advances (retail advances net of provisions) increasing from ₹487,571 crores as at March 31, 2023 to ₹5,83,265 crores as at March 31, 2024. Furthermore, total deposits increase from ₹9,46,945 crores as at March 31, 2023 and ₹10,68,641 crores as at March 31, 2024. As at March 31, 2023, the Bank had 9,802 ATMs and 6,151 cash deposit and withdrawal machines. As at March 31, 2024, the Bank had 9,153 ATMs and 6,873 cash deposit and withdrawal machines.

The Bank believes that it is now well-positioned to capitalize on future growth opportunities. The Bank believes that its strong liability profile, diversified and secured lending portfolio and strong credit underwriting and risk management practices will enable the Bank to withstand the during uncertain times and gather momentum to deliver performance on a sustainable and consistent basis.

Competitive Strengths

The Bank considers the following to be its principal competitive strengths:

Strong capital position

The Bank's total capital adequacy ratio as on March 31 2023 and March 31 2024 was 17.64% and 16.63% and CET-1 ratio was 14.02% and 13.74% respectively well above the regulatory requirements. The Bank believe it is in a strong capital position in the current uncertain times. The Bank has a healthy provision coverage ratio (PCR) of 79% as on March 31 2024.

Strong distribution network

The Bank has a nationwide distribution network with one of the largest number of branch outlets among private sector banks in India. As at March 31 2023, the Bank had a network of 4,903 branches & extension counters and 15,953 ATMs & cash recyclers spread across the country. As at March 31 2024, the Bank had a network of 5,377 branches & extension counters and 16,026 ATMs & cash recyclers spread across the country.

Through its extensive distribution network, the Bank offers a wide array of traditional asset and liability products and services to its customers and is continually working to offer additional products to meet the needs of its diverse customer base. The Bank's distribution network is further complemented by its digital platforms, including online and mobile banking solutions, which offer 24-hour access to customer accounts and the ability to conduct routine banking transactions, such as online bill payment and application for loans. The Bank believes this extensive nationwide network provides it with a strong sales platform, which enables the Bank to cross-sell its products and to deliver high-quality and convenient services to its customers.

Large customer base

The Bank has a large customer base of over 48 million spread across retail, corporates and SME. The Bank has been investing on building a strong customer focused franchise. The Bank believes, the customers choose its network because of its strong brand, the convenience of its branch locations, convenient access to ATMs and remote banking services, as well as diverse product offerings. The large customer base provides the Bank with opportunities to cross-sell various banking and financial products based on their needs and deepen the existing relationship. The Bank continues to drive the strategy of delivering granular growth and a clear focus on staying close to the needs and aspirations of its customers.

Strong digital presence

The Bank has set up Axis 2.0 – a fully digital bank within the Bank. The Bank continues to have strong digital presence with 30% market share in NEFT volume for FY24 and 8% market share in RTGS (value) for FY24. The Bank has witnessed improvement in digital adoption with 96% of financial transactions being done by individuals through digital channels in Q4 FY24. The Bank's mobile app is world's highest rated mobile banking app with a rating of 4.8 on the Play store and ~14 million mobile banking monthly active users in Mar'24. We aim to further grow our digital play through Neo - an integrated corporate digital bank platform offering an omni-channel experience for relevant journeys. The corporates will be offered the full breadth of digital solutions across the Bank's channels, ERP integration leveraging APIs as well as seamless banking on third party platforms. Neo has consistently won market recognition for customer experience and innovation which exemplifies the differentiation from peers that the bank has been able to demonstrate.

One Axis

The Bank has a unique opportunity to provide a complete range of solutions to corporates leveraging the corporate banking franchise and the strong capabilities of the subsidiaries. The Bank's One Axis strategy is yielding good results and its key subsidiaries continue to deliver steady performance. These co-ordinated efforts help in providing a differentiating value proposition and strengthening relationships with the clients.

Broad product offering to meet financial needs of customers

The Bank offers a wide range of products and services which cover the banking requirements of individuals as well as non-individual customer base through universal banking platform spanning across diverse business units and several specialized subsidiaries. The Bank has a comprehensive operational base and a large number of customer relationships. The wide range of solutions we offer are provided across its physical and digital network, meaning it can service customers across several market sectors which the Bank believes is a substantial competitive advantage. In addition, the Bank's products focus on superior service and execution which provides cross-selling opportunities leading to customer retention. By establishing itself as a one-stop financial centre for its customers under the Bank's "One Axis" vision, the Bank is able to employ an integrated approach towards providing a suite of products and services relevant to the customer. For example, the Bank is able to showcase and cross-sell its products and services across the retail and corporate verticals like savings accounts, term deposits, insurance, mutual fund investments, credit cards and wealth management services on the retail front, investment banking, capital markets services, foreign exchange and derivatives solutions, commercial banking services, such as working capital, term loans and bank guarantees, cash management and custodial services, correspondent banking services on the corporate front. The Bank sees this as a core strength enabling it to strengthen its existing customer relationship and to acquire new customers across various sectors.

Experienced management team

The Bank's senior management team comprise career banking professionals who have significant experience in the banking and financial services sector. The Bank believes the collective industry knowledge and leadership of its senior management team and their record of accomplishment in responding to challenging market conditions and achieving growth will enable the Bank to generate profitable growth in future years.

Over the last few years, the Bank has strengthened the leadership team across most functions with a clear focus on improving the Bank's performance. The Bank is led by a Managing Director and Chief Executive Officer and other experienced industry executives. In January 2019, Shri Amitabh Chaudhry joined the Bank as its Managing Director and Chief Executive Officer. Since his arrival, he has spearheaded a review of the Bank's policies and strategies that resulted in the implementation of the Bank's strategy, which is focused on growth, profitability and sustainability (GPS).

The Bank's current management team has strengths in key areas including retail, corporate and international banking, and is focused on delivering on the Bank's business strategies.

Strategies

The Bank's strategy is centred on three important vectors – Growth, Profitability and Sustainability and the Bank continues to be guided by the pillars of the aforesaid strategy.

The key elements of the Bank's business strategy are outlined below:

Growth – the Bank intends to continue its growth momentum by employing the following strategies:

- *Broaden the Bank’s low-cost deposit base to grow deposits in line with loans* – the Bank aims to fund its loan growth objectives largely by growing granular CASA deposit base while bringing in stability in its current account deposits. Retail depositors in India are an important source of low-cost funding for the Bank, and the Bank believes that the Indian retail financial services market will continue to grow. The Bank therefore plans to continue expanding its retail banking business by growing its distribution network, increasing its customer base, diversifying its banking product mix, providing banking convenience to customers, leveraging and optimizing its digital and phone banking channels along with its physical distribution and offering differentiated products and solutions to meet the specific needs of particular customer demographics. The Bank is focused on growing retail term deposits in addition to current accounts and savings accounts. In FY24, the Bank embarked on a journey through ‘Triumph 2.0’ deposit mobilization program that is specifically focused on accelerating granular retail SA and individual term deposit franchise. The Bank has transformed core liability channel by making them self-sufficient in sourcing (increasing productivity and end-to-end lead management) and activated other parts of the bank (assets, cards, Bharat banking etc.) to garner deposits. Catering to its customers’ needs, the Bank also offers various banking services through mobile applications and web portals. The Bank believes that such customer-specific orientation will result in an increase in retail deposits to the Bank, which will expand its pool of low-cost funding and improve share of LCR-accretive deposits.
- *Continue momentum in Bank’s retail asset growth* – the Retail Banking business unit is expected to remain as a key driver of the Bank’s overall growth strategy. The thrust of the lending business has been to grow the high RAROC business while maintaining portfolio quality and yields. The Bank intends to focus on existing customers as well as on obtaining new customers, by leveraging its digital lending platform as a channel to market its asset products. The Bank continues to invest in building risk management and analytical capabilities to mitigate risks, drive cross-selling opportunities and improve the profitability of its retail products. The Bank intends to have the right mix of secured and unsecured assets in its quest for increasing the market share. The Bank will use the following focus initiatives:
 - Making right choices on distribution channel
 - Extensive digitization of customer journeys and impactful transformations
 - Maintain strong risk & compliance culture and sustained governance
 - Leverage advanced analytics and universal underwriting to acquire more customers
 - Deepen existing partnerships and roll out new partnerships for acquiring new-to-bank applications
 - Drive deeper customer engagement with existing customers for effective cross-sell
- *Accelerate growth in the Bank’s Wholesale Banking business unit* – the Bank’s strategy will be to continue to deliver healthy profitable growth. The Bank intends to maintain its focus on corporate lending while also increasing this business unit’s income by capturing a greater share of non-credit fee income. The corporate capex cycle and the investment cycle are picking up pace on the back of healthy corporate balance sheets. The Bank expects lending opportunities arising from capex/investments, infrastructure and government spending. The Bank intends to accelerate growth in its asset portfolio by focusing on growing its MSME, Mid-Corporate, MNC and Real Economy segments. The Bank continues to invest in digital solutions for corporate customers through its Neo offering in an effort to obtain a greater share of transaction banking business.
- *Digital Bank* – The Bank intends to remain focused on and intensify its efforts towards scaling-up its enterprise level digital capabilities to address changing customer needs, introducing new products and simplifying and improving customer experience. Digital strategy will continue to drive on the 5 priorities:

1. Build digital lending and liability propositions
 - Focus on NTB
 - Partnership led acquisition
 2. Build on Mobile app - Open by Axis Bank: NTB acquisition, Fraud protect, Accessibility, Affluent App, etc.
 3. Build “Open” by Axis brand
 4. Become the leader in platform businesses by selectively focusing on priority platforms (based on impact potential and regulatory stance)
 - Account aggregator
 - Central Bank Digital Currency (CBDC)
 - Reserve Bank Innovation Hub (RBIH)
 5. In addition, we will continue to scale up Neo offerings
- *Significantly scale-up the Bank’s subsidiaries* – The Bank’s subsidiaries are an important part of the Bank’s overall growth strategy as they provide a wide range of products and services. A number of the Bank’s subsidiaries, such as Axis Capital Limited, Axis Securities Limited, Axis Finance and Axis Mutual Fund, are well-positioned to capitalize on significant growth opportunities. While Axis group’s subsidiaries have been performing well, currently, subsidiaries’ contribution to the group revenue, profit and valuation is less than that of private peers. The Bank’s aspiration is to grow the subsidiaries in a material way so that their contribution in the group’s revenues increases.
 - *Delivering solutions across the customer value chain under the “One Axis” vision* – The Group aims to become a ‘one-stop shop’ for the banking needs of Indian corporates across investment banking/ capital markets, commercial banking, and transaction banking, with linkages to retail bank. The Bank has developed a significant number of corporate and retail relationships throughout its years of operations, and it intends to continue leveraging those relationships by cross-selling products offered by other business units to those customers. The Bank also intends to further diversify revenue sources by expanding its product and offerings, particularly fee and commission-based offerings, as well as offering third party products, such as insurance, which it can market to existing and prospective customers.

Profitability – the Bank intends to implement a number of measures that it believes will both increase revenue derived from its existing businesses and reduce costs

- *Optimize the business mix to improve overall profitability* – the Bank intends to increasingly diversify revenue sources and overall revenue by expanding its product offerings, particularly fee- and commission-based offerings. The Bank is especially focused on core income streams such as net interest income and fee-based income. It expects to cross-sell other products and services to increase fee-based income from the Bank’s corporate and retail banking businesses. The Bank will continue to broaden its skill base and expertise in financial product development. Finally, the Bank also aims to diversify its portfolio mix towards products offering higher risk-adjusted returns or/and basis our relative strengths & position. On the liability side, the Bank continues to focus on low cost deposits to reduce the funding cost and expand the Net Interest Margins (NIMs).
- *Improve operating efficiency to minimize costs* – the Bank believes it can further streamline its operations and processes and minimize costs in order to increase profitability. Such measures may include, for example, centralization of procurement and outsourcing and optimizing utilization of office space. In fact, the Bank’s branches have increasingly featured smaller formats with enhanced productivity led by automation and digitization.
- *Sweat existing infrastructure* – maximize utilities derived from the Bank’s already existing infrastructure in order to derive greater efficiencies and increase profitability.
- *Maintain control over credit costs* – The Bank believes that its asset quality issues have largely been addressed and credit costs have been brought down. The Bank will continue to work to maintain this.

Sustainability – sustainability forms the foundation of the Bank’s strategy

- *Strengthen the Bank’s core around technology, operations and process excellence* – the Bank intends to continue undertaking various technology-enabled strategies to strengthen the Bank’s sustainable growth. It continues to focus on modernizing its core technology, increasing the efficiency of its operating processes and empowering customers, through the adoption of emerging technologies such as GenAI and Cloud..
- *Risk and compliance culture:* – The Bank works on the basis of its Risk Credo of “No Surprises, No Design Failures”. The Bank will look to enhance and deploy best in class models / frameworks for key emerging risks and strategies. The Bank aims to use technologies and analytics capabilities in order to build best-in-class underwriting standards across wholesale and retail. The Bank has formulated a framework for assessment of compliance culture in the Bank which is monitored by the Board. The Bank has always emphasized on building a strong risk and compliance culture to support the sustainable achievement of strategy.
- *Be distinctive* – the Bank believes that in the Indian banking sector, there is opportunity for a bank to create a positioning of distinctiveness. The Bank wants to be distinctive in select areas for sustainable competitive advantage. The Bank has identified two areas where it will strive to build a position of distinctiveness. These two areas are (a) Customer Experience and (b) Bharat banking.
 - (a) Customer Experience

The Bank has embarked upon a distinctiveness program ‘Sparsh’ to drive customer obsession in the Bank. This journey is aimed to build customer experience as a true differentiator for the Bank with the core credo being to "delight customers and fulfill their dreams, through smart banking everyday." Sparsh aims to drive excellence in customer experience by focusing on recrafting customer journeys that are low on NPS and/or top complaint areas, culture transformation, granular measurement of relevant customer experience metrics, and building institutional capabilities and platforms which would help in the sustenance of this journey.
 - (b) Bharat Banking

Growth in consumption, along with changing trends, will present huge growth opportunities in rural and semi-urban India. Our strong infrastructure in rural and semi urban India positions us well to tap into it. Moreover, a strong Bharat play will help us in meeting Priority Sector Lending (PSL) commitments. Bank’s focus will be to enable success of Bharat customers by offering best-in-class products, services and advisory. The Bank also intends to leverage its strong data analytics capability to underwrite and cross-sell products and redesign end-to-end customer journeys to deliver distinctiveness.
- *Execution Excellence* – A framework to drive Execution Excellence has been put in place which includes initiatives across 3 themes (platform, process and people) and flip the mix (rebalancing operations to tech headcount mix). The Bank will use the technology platform to track the completion and progress of multiple projects which can provide appropriate indicators to help in completion. The Bank has identified key high impact initiatives and measurable outcomes to drive execution excellence. The Bank will continue with the Annual Operating Plan review rigour with a clear focus on institutionalization and accountability.

Capital and Liquidity position

The Bank’s average liquidity coverage ratio for the quarter ended March 31, 2024 and March 31, 2023, was 121.17% and 129.59%, respectively, which is well above the regulatory requirement. As at March 31 2024 and March 31, 2023, the Bank had excess SLR of ₹85,056 crores and ₹75,071 crores, which is well above the regulatory requirement. The Bank’s capital adequacy ratio and CET-1 ratio were 16.63% (including profit) and 13.74%, (including profit) as at March 31, 2024 and stood at 17.64% with CET 1 ratio of 14.02% as at March 31, 2023.

The Bank believes that during periods of uncertainty, people generally tend to avoid higher risk assets and shift to safer ones such as bank deposits. The Bank further believes that depositors also shift to larger banks that are considered safer, better capitalized and better able to withstand economic shock. In line with this trend, the Bank has seen an increase in its average deposits during the year ended March 31, 2023. However, any failures at smaller private sector banks or large non-banking financial institutions could lead to risk aversion among depositors and creditors, creating

funding and liquidity challenges for smaller private banks with weaker franchises, which may also adversely affect the customer and creditor confidence in larger banks. Further, short term surpluses resulting from higher liquidity, may need to be invested in poor yielding securities, in an environment where riskier advances may be less attractive.

Provisions

As of March 31, 2024, the Bank had a provision coverage ratio (excluding technical write-offs) of 79% on NPAs. During the FY24, the World Health Organisation (WHO) has declared that COVID-19 is no longer a public health emergency of international concern, hence the provision of ₹ 5,012 crores carried by the Bank towards COVID-19 related risks is no longer required. The Bank's management has prudently elected to carry forward the aforesaid provision amount in its entirety, towards potential expected losses on certain standard advances and / or exposures. This prudent election was approved by the Board of Directors.

Stress testing

The Bank conducts stress testing on an annual basis as part of its ICAAP exercise as well as on a quarterly basis as part of internal management and Board reporting. The Bank continues to review and enhance its stress testing frameworks across various elements of risk - credit, trading, liquidity and operational risk

Retail Banking activities include liability products, card services, internet banking, mobile banking, ATM services, depository, wealth management services and NRI services Retail Lending constitutes lending to individuals and small businesses through the branch network and other delivery channels.
- **Wholesale Banking:** The Bank's Wholesale Banking business unit offers various loan and fee-based products and services to large, mid-corporate and multi-national clients as well as small and medium enterprises (including micro, small and medium enterprises). These products and services include cash credit facilities, demand and short-term loans, project finance, export credit, factoring, supply chain financing, structured products, discounting of bills, documentary credits, guarantees, foreign exchange and derivative products, cash management services, capital market solutions, cross-border trade and correspondent banking services and tax payments. Liability products including current accounts, certificates of deposit and term deposits are also offered to corporate customers.

The Wholesale Banking segment is divided into two sub-groups:

- The Corporate sub-group (managed by the Wholesale Banking Coverage Group), which manages government, strategic, large, multi-national, mid-sized & Medium Enterprises corporate clients.
- The Small Enterprises group (managed by the Commercial Banking Coverage Group), which caters to SMEs (including micro, small and medium enterprises).

Supply Chain Finance (SCF) is under Wholesale Banking Product (WBP) and distributed by all Coverage segments.

- **Treasury:** The Treasury business unit manages the funding position of the Bank and also manages and maintains its regulatory reserve requirements. This business unit invests in sovereign and corporate debt instruments and engages in proprietary trading in equity and fixed income securities, foreign exchange, currency futures and options. It also invests in commercial paper, mutual funds and floating rate instruments as part of the management of short-term surplus liquidity. In addition to proprietary trading and liquidity management, the Treasury also offers a wide range of treasury products and services to the Bank's corporate customers, including derivative instruments such as forward contracts, interest rate swaps, currency swaps and foreign currency options in addition to services such as loan and debt syndication and placement.
- The presentation of the Bank's business units as set forth above corresponds to the Bank's own internal organization of its operations, with each business unit comprising a distinct group of assets and operations engaged in providing products and services that are subject to their own distinct set of risks and returns. This presentation of the Bank's business units differs from that of the Bank's segments as prepared in accordance with the segment reporting guidelines issued by the RBI. The segment reporting guidelines issued by the RBI apply unilaterally across the financial sector in India for comparison purposes and are disclosed by the Bank for regulatory purposes. Accordingly, the term "business unit" refers to the Bank's own internal organization of its operations, while the term "segment" refers to the Bank's segment reporting for regulatory purposes.

Retail Banking

The Bank has over the last decade built a strong Retail Banking franchise that continues to be a key driver of the Bank's overall growth strategy. The Bank's focused customer-centric approach, strong and differentiated product offerings, along with its wide distribution network remain the core pillars through which it continues to serve the financial needs and aspirations of its customers.

The Retail business segment provides a complete bouquet of products across deposits, transaction services, wealth management and lending products for retail customers, small businesses, NRIs and retail institutions, backed by innovative, digital-first solutions.

The Bank offers a wide range of retail liability products, including savings accounts, current accounts, fixed deposits, recurring deposits, and other customized deposit options, catering to the diverse needs of customers. Retail lending products include home loans, loans against property, automobile loans, two-wheeler loans, commercial vehicle loans, personal loans, gold loans, education loans, credit cards, small business banking loans and agriculture loans among others.

The Bank's Retail Banking business unit also offers other products and services such as debit and credit cards, forex cards, bill payment services and wealth management services. The Bank also distributes third party products such as mutual funds, life and non-life insurance policies, Government bonds, etc.

The Bank's strategy in Retail has been to gain a larger share of the wallet of existing customers, acquire quality customers, and deliver a best-in-class experience, thus building customer loyalty. In line with its customer centric approach, the Bank continued its strong focus on holistic customer lifecycle management led by strong data analytics to engage in meaningful conversations and provide the right proposition. The Bank has made strong performance in digitization of sales, service, and branch operations to offer hyper-personalized experience and simplified digital journeys.

The integration of the acquired Citi Bank's consumer businesses in India remains on track with business metrics trending in line with the Bank's expected outcomes. Through this acquisition, the Bank has gained access to the large and affluent customer franchise with a bouquet of fee-oriented and profitable business segments, that included a quality cards portfolio, an affluent wealth management clientele and meaningful retail granular deposits.

The Bank believes that it is well-positioned to capitalize on growth opportunities in the Indian retail financial services market, led by its strong liability franchise, well diversified products portfolio and robust analytics and technological capabilities.

During the fiscal year 2024, the Retail segment contributed 76% of the Bank's deposits and 60% and 72% of the Bank's advances and fee income respectively .

Retail Deposits

The Bank remains focused on garnering stable and granular retail deposits to drive its balance sheet growth. Further, enhancing the quality of deposit franchise, especially via granular Individual deposits, has been a key objective for the Bank to support its asset growth. During the year, the Bank reported steady growth in its Current and Retail . During the year, the Bank reported steady growth in its Current and Retail Savings Accounts that together grew by 10% YOY. Within this, the Retail SA deposits grew by 6% and the CA deposits also grew by 17%, while the Retail term deposits grew by 11% (MDAB excluding structured deposit, excluding Citibank Deposits). The Bank added ~5.5 million new retail SA accounts during the year being highest ever for any year.

A key element of the Bank's retail deposits strategy has been the shift from a 'product centric' to a 'customer centric' approach with an objective to have sharper growth in deposits from existing to Bank (ETB) as well as new to Bank (NTB) customers. The Bank's micro market focused approach to address the specific needs of customers in a particular district leveraging its strong distribution reach and 'One Axis' approach, has seen strong progress in the last four years with 6% increase in the number of districts where its market share in deposits stood more than 5%

Premiumization of deposits franchise continues to be an important imperative for the Bank. During the year, the share of premium (Burgundy Private, Burgundy, Priority, Prestige & Prime NRI) SA segment to overall retail SA deposits is at 47.4% as on March 31st 2024. The acquisition of Citi's business had further aided the Bank's journey towards premiumization of deposit franchise with the addition of affluent Salary Account customer base.

For the Bharat Banking customers, a specially curated Savings account product 'Sampann' was launched in August 2023 to increase premium deposits in the Rural & Semi Urban branches. Sampann is equivalent to the Prestige program offering which caters to customers in the rural & semi-urban customer with offers like; complimentary Health care benefits, FAARMs app Agri benefit and discounts on Loan Processing Fees for Agri Loan, Gold Loan, Tractor Loan, the customer also gets a dedicated relationship manager.

The growth trajectory of retail term deposits continued to improve through the year as the Bank continued to focus on new individual customers leveraging its strong acquisition channels. This has been achieved through innovative offerings such as the industry-first full KYC digital term deposit, digital alliances, and a revamped mobile banking journey that allows for quick and easy FD booking. The Bank also launched a digital journey to source deposits from its existing non-CASA base. As a result, the percentage share of retail and small business customer deposits in total term deposits increased by 241 bps YOY in fiscal 2024.

The Bank continued to work towards leveraging its corporate lending relationships with top corporates to gain higher share in salary segment. During the year, the Bank redesigned its Corporate "Suvidha" Salary product proposition to win employer mindshare alongwith higher employee wallet share. The new corporate salary labels acquired grew by 12% with 7% growth in new salary accounts. To further strengthen engagement with salary customers, the bank is live with 250+ corporate salary micro-sites. These micro-sites provide as an engagement platform for salary customers and keep them informed about the latest product offerings, benefits, offers, digital journeys and can also enable seamless account opening.

The Bank extended VCIP digital savings account journey to all the non-branch banking channels to enable them as lead converters. As a next strategic step, the Bank has initiated building lean digital savings co-origination journeys for card and asset customers. Since non-branch banking channels present a huge opportunity to independently source incremental business of savings accounts, select channels were also enabled to open accounts that cannot be opened via VCIP through alternate BYOD platform.

During the year, the Bank launched digital savings account "Amaze", that offers customers plethora of benefits and annual rewards worth Rs. 11,000 for a monthly fee of Rs. 200 with flexibility to maintain minimum average monthly balance without worrying about additional charges, thereby redefining transparency in banking.

To serve the deposit customers better and deepen relationships with them, the Bank has organically built a well-diversified branch network over the years. The Bank continues to look at the segments and demographic areas that are relevant to the Retail Banking strategy, before setting up a branch. As on March 31 2024, the bank had a network of 5,705 banking outlets with 5,365 branches 12 extension counters, 143 specialized branches, 3 Digital Banking units and 182 Business Correspondent Banking Outlets BCBOs. The Bank's geographical reach in India now extends to 35 states and union territories and 693 districts. The Bank also has extensive network of 16,026 ATMs and Recyclers, which not only handled the cash deposits and withdrawals, but also served as self-service and fulfilment centres.

The Bank has been investing in alternate channels like Axis Virtual Centre (AVC) which digitally connects with customers to deliver superior customer experience and deepen the relationship. AVC operates in 6 centres with 1,590 Virtual Relationship Managers as on March 31 2024. AVC has invested in building robust processes and systems to provide services using digital mode and offers plethora of services like account opening through video KYC, relationship management across customer segments of Burgundy, Priority, Prestige, Liberty and Easy Access including payments assistance, retail loans, cards portfolio products and Investment products to both domestic and overseas customers.

During the year, the Bank further expanded its “hyper-personalisation” engine with over 125+ nudges to drive better customer engagement and improving product per customer through various digital mediums like SMS, Email, Mobile App, Internet banking, Website and WhatsApp. Furthermore, each of these nudges aid the customer to avail the services and products end to end on the platform itself without any physical intervention or visit to the branch.

Retail Forex and Remittance business

The Bank offers a range of forex and remittance products to its retail customers, which include forex cards, inward and outward wire transfers, remittance facilities through online portal as well as through collaboration with correspondent banks and exchange houses. The Bank’s active customer base for retail forex products grew by 13% YOY with similar growth in retail forex volumes during fiscal 2024.

The Bank continues to be one of the largest players in prepaid forex card market with its flagship offering of multi-currency card that allows users to load 16 currency options in one card. Forex card digital issuance was enabled for NTB customers in fiscal 2024 along with an enhanced digital journey for existing customers. The digital adoption on forex cards has been consistently growing and more than 80% of the Bank’s new forex cards are now being issued digitally.

On outward remittances, the Bank has developed digital solutions to partner with fintechs, edtechs, online stockbrokers and aggregators. The turnaround times on Remit Money platform, that enables the NRIs to remit money to India, has been improved from T+5 days to T+1 day for US corridor. During the year, the Bank also enabled fast and cost-effective inward remittances from Singapore leveraging the linkage between India’s Unified Payments Interface (UPI) and Singapore’s PayNow.

Third Party Distribution

The Bank is one of the leading distributors of third-party products including mutual fund schemes, life insurance, health insurance and other general insurance policies. The Bank offers comprehensive investment and protection solutions, to cater to the diverse needs of each customer segment, adopting tech-enabled delivery mechanisms across all customer touch points. During the year, Third Party Distribution business contributed significantly to Bank’s retail fee income on back of its strong partnerships, contextual product launches, wide distribution strength and digital initiatives.

Retail Lending and Payments

The growth of retail and consumer lending in India is a consequence of growing affluence and changing consumer behaviour. Retail Lending is one of the Bank's core growth areas. The Bank's focused marketing approach, product innovation, risk management systems and competent back-office processes contribute to the strength of the Bank's retail lending strategy. The target markets identified for retail loans are salaried or self-employed professionals and other self-employed individuals, Hindu undivided families, trusts, firms, private limited and public limited companies.

The Bank offers a variety of retail credit products such as mortgage loans, automobile loans, commercial vehicle loans, personal loans, education loans, credit cards, loans against term deposits, loans against securities, small business banking loans and agriculture loans. The major components of the Bank's retail lending portfolio are home loans, loan against property, agriculture loans, personal loans and automobile finance.

The Small Business Banking division is dedicated to cater to the financing needs of micro-entrepreneurs and continues to be a growth engine for the Bank. The Retail Banking business unit's micro-entrepreneur customers are provided with secured and unsecured credit facilities in the form of fund-based as well non-fund-based limits that are tailored for their needs. Similarly, the Retail Banking business unit also offers a diverse range of template products targeted at agricultural loan customers that have not yet achieved sufficient scale to be covered by the Bank's SME business unit. These products include, for example, the Kisan Credit Card which provides farmers with credit facilities for their various needs, loans for farmers against pledges of gold ornaments, as well as a comprehensive scheme for warehouse receipt financing.

The Bank's net retail advances as at March 31 2024, March 31 2023 and March 31 2022 were ₹ 5,83,265 crores, ₹4,87,571crores and ₹4,00,142 crores, respectively, constituting 60.44%, 57.68%, and 56.52% respectively, of the Bank's net advances.

These loans are provided by the Bank directly through loan centres and branches. Loan centres serve as the focal point for marketing, distribution and servicing of retail loan products.

Retail Advances Portfolio by Category

The Bank's retail advances portfolio consists of schematic and non-schematic loans. As at March 31, 2024, the portfolio mainly consisted of mortgage loans, personal loans, automobile loans, gold loans, agriculture loans, and non-schematic loans (comprising credit cards, loans against deposits and loans against securities, among others). The Bank's retail advances portfolio also includes loans acquired through portfolio buyouts.

The Bank's home and mortgage finance business involves extending long-term secured housing and commercial property loans to individuals and companies for the purchase, construction and extension of residential and commercial premises. As at March 31, 2024, the Bank's total home and mortgage finance portfolio was predominantly comprised of floating rate loans. Personal loans are unsecured loans provided to customers for various purposes, such as medical expenses and social obligations, and are generally repayable over the term of four years. Automobile finance, which includes financing four-wheelers, commercial vehicles, and construction equipment, involves providing consumer credit for an average period of three to five years to acquire a new or used vehicle. Automobile loans are secured by a lien on the purchased asset. The Bank has developed relationships with several established non-banking financial companies in India, providing both direct automobile finance (to individual borrowers) as well as indirect automobile finance (portfolio buy-outs).

The Bank's portfolio of credit card offerings includes featured cards, co-branded cards and premium cards. Based on RBI data, in terms of total credit cards in force, the Bank's credit card business had a 12.3%, 14.2% and 14.0% market share of the Indian credit card market in fiscal years 2022, 2023 and 2024 respectively.

The Bank believes there are significant opportunities to grow its personal loans and credit card portfolio by cross-selling to the existing customer base of partner technology companies. The Bank launched a co-branded credit card with a large e-commerce company based in India. The Bank sees this co-branded credit card as a means to tap into this partner e-commerce company's large customer base. Among its main features, this credit card is issued electronically and ready for use instantly following credit approval and provides cashback on spending at partner merchants as well as other spending categories with no upper limit on cashback earned, promotional welcome bonuses, complimentary lounge access and fuel surcharge waiver. Holders of this credit card are able to electronically monitor cashback earned, request credit limit increases, convert purchases to equated monthly instalments, apply for instant loans, block or replace their credit cards, or view their latest bills.

The Bank expects personal loans and small business loans to be the main sources of growth in the Bank's retail loans portfolio in the near term.

Credit Evaluation: Retail Loans

All prospective borrowers are granted loans only if they pass the credit evaluation process. The Bank has detailed product lending parameters and has devised a credit-scoring sheet for all major products. For a loan to be approved, a minimum cut-off score must be achieved by a borrower. This credit rating mechanism is periodically updated and reviewed. The Bank has devised a separate risk evaluation model for agricultural loans with an objective to measure and mitigate the risk involved in financing this sector.

Other Products and Services

Other products and services offered by the Retail Banking business unit include debit cards, meal cards, gift cards, rewards cards, Smart Pay cards, Meal cards, credit cards, card acceptance services and loans against gold.

Retail Banking Strategy

1. Focus on granular CASA-TD deposits to aid LCR positive deposit growth.

CASA-TD deposits growth continues to be the core focus for the bank. For FY24, the Bank continued to focus on CASA digitization. Our efforts in building digital platforms coupled with the experience of product innovations has helped us reach customers in varied geographies.

The focus for FY25 is on leveraging individual term deposits through various initiatives such as new journeys for FD booking, newer products and leveraging operating rhythm of frontline sales. With the focus on driving digital deposits, a new journey for creation of FD for standalone customers (not having a CASA relationship with the bank) was introduced through video KYC.

The efforts are aligned towards reducing cost of funds and increasing share of LCR accretive deposits. Additionally special rate bucket for capital market deposits was introduced to improve profitability of the product. Also, bank has introduced Non-Callable FD booking for amount 3 -5 Crs at competitive pricing as compared to callable deposits.

2. Client growth

For FY24, the Bank opened over 55 lakh Retail Savings accounts, which is a 18% growth over FY23 sourcing volume.

The client growth was supported through measures on introduction of new products, improvement in acquisition quality and setting cadence for the sales channel.

3. Acquisition Quality, Right Fit and Onboarding Experience

Customer Centricity continues to be the emphasis of all our initiatives, and we constantly strive to advance this concept. During the year, a customer centric structured NTB sales management framework was introduced consisting of several initiatives that focus on improving customer experience across various life cycle stages. Below are the key pillars:

- A centralized Market Scoping system in CRM was implemented which serves as a repository for all prospects and opportunities, equipping branches with relevant details to provide personalized solutions to customers.
- An on-boarding framework was launched to provide the right welcome experience to NTB customers. The plan comprises a system driven approach to ensure effective early month on book onboarding & engagement by senior branch resources across 2 defined interventions in the first 30 days which focuses on providing key account details and benefits, Profile Verification for risk mitigation and Digital Activation.

4. Customer-centric product propositions

- The focus for FY25 is to target the Silver Economy with a proposition focused on Retirement Planning thereby attracting a wide range of customers whom we can help and handhold during the retirement corpus building phase with an array of products from the Axis Group and deliver on the “One Axis” proposition to customers.
- Sampann Savings account, a premium product is being crafted specifically for Rural and Semi-urban customers. With its unique composition of features such as cash back debit card, processing fee waiver on various loan products, comprehensive tele health consultation package with hospi cash cover and discounts on agri tech services, makes it one of the best-in-class propositions in industry today.

5. Premiumization & Granular Growth

Premiumization of deposits will continue to be the focus. Increase of Burgundy & Priority share in the overall acquisitions through Market scoping to tap into every relevant market and bring premium customers to the forefront will continue to be driven aggressively

- Burgundy Promise - The industry first initiative which aims at a faster resolution of Burgundy service requests within 6 hours along with a real time tracking mechanism available at customer’s fingertips. Customers would be credited with 1,000 EDGE REWARD Points if the resolution takes longer than promised.
- Burgundy 'Circle of Trust' - For Burgundy customers to experience holistic banking at its best, a dedicated team of experts work with them to achieve their wealth goals.
- With the changing customer needs and socio-economic landscape, Burgundy will relook at how it creates, co-creates, and captures value for its target customer groups with its core product value propositions leading to new and improved banking and wealth management experiences.

- Development of robust performance reporting of customer's wealth with relevant metrics and insights, building interactive and rationalized One Glance Statement for simplification, customer 360 view on tax filing with migration of relevant statements* & certificates at a single location on Internet and Mobile Banking platforms for easier access.

*Statements & Certificates are subject to availability within Axis Bank internal system framework

- 'Do It Yourself' and Deemed Migration journeys on the Mobile App will be aggressively leveraged and will continue to be one of the driving factors to ensure right customer – right segment fitment.
- To drive Premiumization of deposits, the Bank will focus on acquisition of Burgundy Private, Burgundy and Priority customers. To this effect, there has been a tiered incentive structure that has been launched for the Liabilities Sales Channel which will help drive the right behaviors thereby providing an impetus to sourcing of Premium segment accounts.
- 'SIDDHI' app has been scaled up by extending them to BROs, after being rolled out to all liability RMs.

Wholesale Banking

The Bank's Wholesale Banking business unit offers various loan and fee-based products and services to large, mid-corporate and multi-national clients as well as small and medium enterprises (including micro, small and medium enterprises). These products and services include cash credit facilities, demand and short-term loans, project finance, export credit, factoring, supply chain financing, structured products, discounting of bills, documentary credits, guarantees, foreign exchange and derivative products, cash management services, capital market solutions, cross-border trade and correspondent banking services and tax payments. Commercial Banking Coverage

The Bank's Commercial Banking Coverage Group has significant Micro, Small & Medium Enterprises portfolio for the bank. The unit offer products including working capital finance and term loans, as well as other banking services like cash management and foreign exchange which are tailored to the requirements of small and medium enterprises (including micro, small and medium enterprises). The wide range of customized products offered by the Bank seeks to provide SME customers with adequate finance which is well-suited for their business needs. The business unit offers a wide range of both template and non-template products, including term loans and working capital finance, non-fund-based facilities tailored to the specific requirements of clients.

The business unit is of strategic importance to the Bank as it generates higher yields and helps to diversify risks.

Loans to SMEs (including SME agricultural loans) amounted to ₹75,223 crores and ₹89,398 crores as at March 31 2022 and March 31 2023 respectively, constituting 10.63% and 10.58% of the Bank's total loan portfolio as at March 31 2022 and March 31 2023, respectively. As at March 31 2024, the same stood at ₹104,718 crores constituting 10.85% of the Bank's total loan portfolio.

The Bank makes use of business analytics to identify potential borrowers across various sectors and has various early warning systems in place which help the Bank to take corrective actions when necessary. The asset quality in the SME segment has remained stable with strong focus on sourcing high rated customers.

In order to enable stronger, faster and leaner processes to streamline the customer experience for onboarding, deepening and cross-sell, the Bank is in the process of preparing a loan onboarding and approval system with the objective of implementing better controls on TATs, building better underwriting capability based on analytical feed and creating a digital workflow for risk mitigation.

The Bank has embarked on a tech-driven transformation project on SFDC platform with an objective to re-imagine the end-to-end customer journeys, simplify the processes, improve sales productivity and empowering our salesforce with the data & analytics.

These capabilities will allow us to build more templated products that can provide the benefits of lower TAT, fewer documents, and predictable outcomes for the borrower. The implementation of this digitization initiative has helped us unlock the salesforce productivity significantly resulting into effective sales process, digitized reviews & planning and enriching value through customer interaction repository.

Products and Services

A broad classification of products and services offered by the Bank's Wholesale Banking business unit to its corporate and SME clients (including corporate agriculture clients), is set forth below.

- *Fund-based products.* Loans and advances for working capital, corporate finance and project finance.
- *Non-fund-based products.* Non-funded advances such as documentary credits, standby letters of credit and guarantees.
- *Liability products and fee related services.* Non-retail term deposits and current accounts.
- *Fee-based services.* Including fund transfers, cash management services, collection of Government taxes, trade services.

These products and services are delivered to customers through the Bank's network of branches, correspondent banking networks, telephone banking, mobile banking and the internet.

Fund-Based Products

Fund-based limits are generally granted by way of overdrafts, cash credit, demand loans, medium-and long-term loans and discounting of bills. Generally, the type of facility to be granted is determined based on factors such as the loan purpose, the security offered, the size of the advance, repayment terms, risk profile and the requirements of the customer.

The RBI requires all Indian banks to classify their credit transactions in accordance with their level of risk, and the criteria the Bank uses to classify loans in its portfolio correspond to those established by the RBI. All of the Bank's wholesale banking business customers receive a risk classification, and each loan granted to each client also receives a risk classification, depending on the risk level of the transaction and the amount the Bank receives as collateral. Classifications are determined by the loan type and amount of collateral to be received and spread to be applied. All transactions are confirmed by the Bank's back-office, which confirms the limits and receipt of all relevant documentation. The Bank uses credit and behaviour scoring models to determine the volume of credit that it will grant and to establish its credit limits. The Bank's credit policy is implemented through its system, providing for individual analysis based on the client's profile and allowing for the differentiation of interest rates, based on the client's credit risk profile. The Bank's credit policy and scoring models are reviewed periodically, based on estimated performance and non-performance credit indicators.

The following provides a discussion of the products and services of the Wholesale Banking business unit's fund-based products.

Working Capital Finance. Cash credit, working capital demand loans and overdraft facilities are funded facilities, usually secured by current assets such as inventory and receivables. These facilities are generally extended for a period of one year. In almost all cases, facilities are subject to an annual review and are repayable on demand. Interest is collected on a monthly basis, based on daily outstanding amounts. Bill discounting involves discounting negotiable instruments, which are generally issued for trade receivables. These can also be re-discounted with other banks and financial institutions, if required.

Term Loans. Term loans are offered to customers based on the Bank's appraisal of the quality of management, industry, prospects, business model and financial strength of the firm. This financing is provided by way of term loans of various tenors. These corporate financing term loans, which the Bank offers to companies in the manufacturing, service and infrastructure sectors by way of medium- and long-term loans. The Bank also offers asset-based lending such as receivables financing and customized corporate finance products to meet specific customer needs.

Non-Fund-Based Products

The following provides a description of the products and services of the Wholesale Banking business unit's non-fund-based products.

- **Acceptances, Endorsements and Other Obligations.** The Bank provides documentary credits to customers to meet their working capital requirements as well as for capital equipment purchases. Documentary credits are approved together with a working capital assessment or a project finance assessment. Typically, a working capital line can be drawn down on a revolving basis over the term of the facility. Customers pay fees for drawdowns of the acceptances, endorsements and other obligations, and the Bank may require additional collateral by way of a cash margin. The percentage of any such margin is determined according to the Bank's perception of the transaction's risk. As at March 31, 2024, the Bank's acceptances, endorsements and other obligations portfolio amounted to ₹59,087 crores, compared with ₹52,361 crores as at March 31, 2023.
- **Guarantees.** Guarantees, which also include standby letters of credit, can be drawn down in a revolving manner over the life of the facility. Guarantees are also assessed during the course of working capital requirements. Guarantees are issued for various purposes such as bid bonds, performance guarantees on behalf of borrowers for execution of contracts, deferral or exemption from payment of statutory duties against performance obligations, advance payments, release of retention monies and other purposes. The tenor of guarantees is generally 36 months or less depending on the underlying obligations being guaranteed, although certain guarantees with a longer term may be approved. As with documentary credits, the Bank sometimes obtains additional collateral by way of a cash margin which, in the case of certain types of guarantees, may be as much as 100%. As at March 31, 2024, the Bank's outstanding guarantees amounted to ₹128,127 crores compared with ₹102,363 crores as at March 31, 2023.

The Bank's criteria for acceptability of credit include:

- An acceptable internal /external credit rating;
- Strong cash flows;
- Satisfactory quality of management in terms of past track record of performance, competence, professionalism, integrity and corporate governance practices;
- Sustainability of business model in the long term;
- Likely market share
- Likely future leader in emerging businesses;
- Acceptable underlying security and credit enhancement measures;
- Probability of credit rating enhancement in the medium term;
- Appropriate pricing and acceptable rate of return on capital; and
- Opportunities for boosting return on capital from ancillary businesses.

The credit selection strategy and pricing policy used in the SME sub-group follow substantially the same procedures as those used for the Corporate sub-group.

The Bank uses an early warning signals tool which helps it identify unfavourable sectional trends early in the cycle and take corrective action if necessary. The Bank uses its internal credit rating model, which utilizes a combination of quantitative and

qualitative input to arrive at a view of the risk profile of the SME counterparty and assigns an internal rating grade corresponding to a distinct possibility of default over a period. It has also adopted a practical approach to increase the SME portfolio by focusing primarily on better-rated SME accounts. Business analytics is being used to identify potential borrowers across various sectors.

Pricing Policy

The Bank prices its credit products based on its assessment of the risk profile of borrowers, largely based on:

- internal/external credit rating of customers;
- tenor of the loan;
- the specific structure of the product (such as embedded options);
- available collateral and credit enhancement;
- overall relationship value; and
- market conditions.

Treasury

The Treasury manages the funding position of the Bank and also manages and maintains its regulatory reserve requirements. As part of liquidity management, the Treasury invests in sovereign and corporate debt instruments, commercial paper, mutual funds and floating rate instruments. The Treasury also undertakes proprietary trading in equity, fixed income securities, foreign exchange, currency futures and options. Apart from proprietary trading, the Treasury also offers a wide range of treasury products and services to customers, including derivative instruments such as forward contracts, interest rate swaps, currency swaps, foreign currency options and remittances, as well as services such as loan and debt syndication and placement.

The Treasury business unit also generates fee income. Fee income from the Treasury business unit's treasury and DCM services was ₹224 crores, ₹188 and ₹239 crores for fiscal years 2022 2023, and 2024 respectively.

Funding and Asset Liability Management

The Treasury manages short-term liquidity through short-term borrowings such as overnight inter-bank borrowings, repo, re-discounting bills and through other money market operations. The ALM group within Treasury manages the regulatory requirements of Cash Reserve Ratio (CRR), Statutory Liquidity Ratio (SLR) and Liquidity Coverage Ratio (LCR). The group also manages the liquidity, interest rate and currency risks in the Bank's portfolio, under the guidance of the Asset Liability Committee (ALCO) of the Bank. The group is responsible for overall liquidity management of the domestic book and longer term liquidity management of the overseas branches across geographies. The Bank raises foreign currency borrowings from local banks and foreign counterparties. The Bank also raises retail foreign currency deposits from NRIs at rates regulated by the RBI.

The table below sets out the deposits position of the Bank as at specified dates.

	As at March 31, 2022	As at March 31, 2023	As at March 31, 2024
Savings bank deposits	242,449	297,416	302,132
Demand deposits	127,557	149,120	157,268
Term deposits	451,966	500,409	609,241
Total deposits	821,972	946,945	10,68,641

The Treasury ensures day-to-day funding for branch operations and asset build-up. Since the CRR balances earn no interest from the RBI, the funding (ALM) desk also ensures that only optimal CRR balances are maintained and that additional surpluses are deployed in the form of short-term investments in commercial paper, certificates of deposit or debt (Liquid) schemes of mutual funds.

The Treasury measures and monitors the spreads of the Bank. Yields on assets and cost of funds are monitored on an ongoing basis. Maturity profiles of new deposits are adjusted to ensure that the Bank reaches its targeted spreads and that its liquidity profile remains comfortable.

The asset liability management group considers suitable hedging options for items on the balance sheet at appropriate times to protect or increase the Bank's spreads.

Trading Operations

The Treasury manages integrated trading operations in foreign exchange and domestic money markets. It is responsible for maintaining regulatory reserves and using the trading portfolio to earn profits through exchange income and capital gains.

The investment policy is designed to address the following:

- compliance with regulatory requirements;
- guidelines for taking exposure in various debt instruments; and
- risk mitigation.

The Treasury maintains the RBI-mandated SLR requirements in the form of investments in Government bonds and treasury bills. This portfolio is actively managed and churned and, depending on an internal view of interest rates, surpluses are maintained in the trading book. The Treasury uses these surpluses to take advantage of favourable movements in interest rates to book capital gains on the investment book. In accordance with the RBI guidelines, investments are categorized as “Held for Trading”, “Available for Sale” and “Held to Maturity”.

The size of the Bank’s equity portfolio is restricted by a ceiling imposed by the RBI on the capital market exposure of banks to 40% of their net worth as at March 31 of the previous year. The Bank’s aggregate limit for exposure to the capital markets in fiscal 2024 was ₹47,157 crores (40% of its net worth as at March 31, 2023, as adjusted for subsequent capital injection). The Bank’s exposure to the capital markets (as defined by the RBI) as at March 31, 2024 was ₹27,741 crores.

In general, the Bank pursues a strategy of active management of its equity portfolio to maximize its return on investments. To ensure compliance with the SEBI insider trading regulations, all dealings in equity investments in listed companies are undertaken by the equity-trading desk, which is securely segregated from the Bank’s other business groups.

The Treasury also offers investment options to retail and institutional investors and servicing support through all branches of the Bank. In this regard, the Bank facilitates the holding of Government securities. Commission and trading profits are earned through these transactions.

Foreign Exchange and Derivatives

The trading desk deals in several major currencies and manages the Bank’s exposure through foreign exchange and money market instruments and derivatives within the guidelines and limits stipulated by the RBI and management. Appropriate internal limits for counterparty and currency exposure are in place. The Bank is a market maker in the spot and forward exchange markets, swaps and options.

The Bank offers both off-the-shelf and specifically structured products to its customers to meet funding and risk management requirements in foreign currencies.

The Bank offers forward contracts to customers to hedge against exchange risk on foreign currency receivables and payables, usually of up to one year. The Bank also acts as market maker in interest rate and currency swaps for proprietary trading and customer hedging. Commission and exchange income is earned from such transactions. As at March 31, 2023, the Bank had ₹12,27,784 crores in outstanding forward exchange and derivatives contracts compared with ₹16,61,577 crores as at March 31, 2024.

Profit on exchange/derivatives transactions (net) increase from ₹1,802 crores in fiscal year 2023 to ₹1,935 crores in fiscal 2024.

Debt Capital Markets (DCM)

The Bank continues to remain a dominant player in the debt capital market sector as per League table ranking. In fiscal years 2023 and 2024, the Bank acted as arranger for ₹ 2,65,798.05 crores and ₹ 2,77,365.18 crores, respectively. As on June 30th, 2024 (1st quarter); the Bank was associated with total issues of ₹ 48,457.75 crores for various PSUs and Corporates.

In fiscal 23, the Bank won ASSOCHAM’s Issuer Investment Banker (Merchant Banker of the Year) award. In fiscal 2022 the Bank won IFR Asia’s Asian Bank of the Year and India Bond House award and in fiscal 2021, the Bank was awarded “Best DCM House” in India by Finance Asia. Also, employees of the Bank’s sales and trading teams were included in the list of Asia’s best local currency bond individuals in research, sales and trading for 2020 in “The 2020 Asian Local Currency Bond Benchmark Review” undertaken by “Asset Benchmark Research”. The Bank is a significant player in the international debt capital markets business covering U.S.\$ and EUR-denominated bonds, masala bonds and green bonds among others. The Bank believes that its DCM business’ prominent position makes it well-placed to take advantage of profitable opportunities in India’s growing corporate bond markets. While the Bank continues to handle the debt syndication activities described above, the investment banking activities relating to equity capital markets, mergers and acquisitions, and private equity advisory business are now conducted by the Bank’s wholly owned subsidiary, ACL.

Overseas Operations

As on March 31, 2024, the Bank has overseas branches at Singapore, DIFC - Dubai and an Offshore Banking Unit at the International Financial Service Centre (IFSC), Gujarat International Finance Tec-City (GIFT City), Gandhinagar, India.

The Bank's foreign branches primarily offer corporate banking, trade finance and treasury and risk management services. The total assets (net of inter branch adjustments) at the Bank's overseas branches amounted to ₹51,542.99 crores, which constituted 3.49% of the Bank's total assets as at March 31, 2024.

Financial Inclusion

The RBI has mandated banks in India to have a financial inclusion plan for the expansion of banking services to rural and unbanked centers and to customers who currently do not have access to banking services. Apart from a regulatory requirement and a corporate social responsibility initiative, the Bank regards the financial inclusion sector as a strategic opportunity to expand its reach into the unbanked rural market and underserved sectors of the urban market.

The Bank utilizes the services of business correspondents in select areas to expand its reach in areas unserved or underserved by the banking industry. The Bank has also taken several initiatives to implement financial awareness program for the underprivileged sections throughout India, comprising of trainings, workshops and awareness campaigns.

As on March 31st, 2024 the Bank had opened approximately 0.65 crores basic savings accounts PAN India and had a network of 77,060 customer service points in rural locations. The Bank is equipped to handle interoperable transactions on the Aadhaar Enabled Payment System, an electronic system in India that enables financial transactions based on customers' Government-issued Aadhaar identification numbers. This, in turn, has empowered the Aadhaar enabled customers of the Bank to transact at other banks' Aadhaar enabled business correspondent outlets and vice versa. In FY'23-24, the Bank processed nearly 35.12 lakh transactions on the Aadhaar Enabled Payment System amounting to ₹908.32 crores.

Priority Sector Lending

Commercial banks in India, including the Bank, are required by the RBI to lend 40% of their adjusted net bank credit of the previous year to specified sectors known as "priority sectors", subject to certain exemptions permitted by the RBI from time to time. Priority sector advances include loans to the agriculture sector, micro and small enterprises, financial inclusion sector, microfinance loans, loans to certain sectors deemed "weaker" by the RBI, housing and education finance up to certain ceilings, and loans to fund the purchase of eligible assets and investments in eligible securitized assets. Deposits with NABARD on account of shortfall in priority sector business targets are eligible for priority sector lending.

As March 31, 2024, the Bank had a total priority sector lending portfolio of ₹3,50,219 crores. The following is a breakdown of the Bank's priority sector lending position as at the dates indicated.

	(₹ in crores)		
	As at March 31, 2022	As at March 31, 2023	As at March 31, 2024
Agricultural advances ⁽¹⁾	125,501.10	1,33,226.98	1,50,465.00
Micro and small enterprises ⁽²⁾	140,165.47	1,32,263.77	1,71,624.09
Other priority sector lending ⁽³⁾	33,675.07	34,813.32	28,130.10
Total	299,341.64	3,00,304.07	3,50,219.19

(1) Agriculture advances includes deposits with NABARD and PSLCs purchased.

(2) Micro and small enterprises advances include deposits with Small Industries Development Bank of India (SIDBI) and MUDRA. It also includes PSLC purchased.

(3) Other priority sector lending includes deposits with NHB and PSLC purchased.

To encourage banks to extend long-term loans to the infrastructure sector, Indian banks are allowed to issue infrastructure bonds and provided a relaxation in cases of priority sector lending by way of allowing banks to claim for a deduction in adjusted net bank credits.

Agriculture Lending

The RBI requires the Bank to lend 18% of its adjusted net bank credit of the previous year to the agricultural sector.

In recent year's Bank has recalibrated its approach to Rural Agri Market and created a specialized division as Bharat Banking to focus on Agricultural loan and Rural lending customers. The Bharat Banking division is catering to agricultural community by offering customized products suited to the requirements of retail farmers as well as Agri corporates. The Bank's strategy in agricultural lending is based on identifying opportunities in the entire agricultural value chain, focus on diversification, and creating partnerships opportunities with like-minded companies in the agricultural sector, microfinance and other rural institutions and non-governmental organizations that have close links to the agricultural sector. Beyond retail lending to farmer community, Bank has also grown its agricultural lending business by offering suitable products to various members in the supply chain in the agriculture business (such as warehouses and cold storage units) and leveraging the Bank's technology platform to distribute its products and services conveniently and cost-effectively in rural areas. The Bank offers schemes for financing the agricultural value chain participants such as Agri-processing units and agricultural service providers.

In order to provide a strategic focus on agricultural lending, the Bank has adopted an area-centric approach to agricultural lending, specifically in areas which the Bank considers agriculture-intensive and where we have identified potential for the Bank's agriculture finance. This initiative is aimed to help the Bank in scaling up its direct lending services at multi-fold level.

The Bharat Banking team has identified areas of intervention and is creating capabilities and network to serve larger and deeper Agri-markets by developing customized products/ programs catering to such credit approaches.

Delivery Channels

The Bank distributes its products and services through various access points ranging from traditional bank branches to ATMs, call centers for telephone banking, mobile banking and the Internet. The Bank’s channel migration effort is aimed at reducing costs while enhancing customer satisfaction levels by providing customers access to their accounts at all times.

Branch Network

The Bank has a well-distributed branch presence across several of India’s regions and market sectors. As on March 31st 2024, the bank had a network of 5705 banking outlets with 5365 branches 12 extension counters, 143 specialized branches, and 182 BCBOs and 3 Digital Banking Units (DBU) as compared to 5548 branches and extension counters as at December 31st, 2023.

The Bank has opened 475 new branches and extension counters in fiscal 2024.

Branch premises are generally leased. Back-office operations are centralized at a central processing unit in Mumbai, allowing the Bank’s branch network to focus on business acquisition and expanding customer relationships. From a monitoring perspective, the Bank has divided its franchise of branches into 37 Circle Offices and eight regional offices, which are administrative units that controls a cluster of branches, in order to provide for adequate supervision across various levels.

The following table sets forth the number of the Bank’s branches (excluding extension centers) in India, classified by category based on the India 2011 census, as at March 31st’24.

Cashless and Digital Platforms

The Bank’s distribution network is further complemented by its digital platforms, including online and mobile banking solutions, among others, which offer 24-hour access to customer accounts and the ability to conduct routine banking transactions, such as online bill payment and application for lines of credit.

Increased availability of internet access and broadband connectivity across India requires a comprehensive digital strategy to proactively develop new methods of connecting with customers. In response to these trends, the Bank has made substantial investments in its technology platforms.

Mobile Banking

The Bank’s mobile banking channel has emerged as a convenient option for customers to access their account information anytime. Through the Open by Axis application, customers can use their accounts to pay bills, transfer funds, recharge prepaid mobile phones, create and liquidate deposits, log requests for cheque books, stop cheque, change card PINs, among other services. Open application is available for retail saving accounts, current accounts, NRI savings accounts, credit cards, forex and loan customers.

As at March 31st 2024, Open by Axis application had 4.8 rating out of 5 on both Google Play Store and Apple App Store.

Cashless and Digital Payments

The Bank offers various cashless and digital payment services to its customers and remains committed towards promoting a less-cash focused, digital economy in India. The Bank believes that its recent investments in technology and data analytics have allowed it to build and sustain a strong market position across many digital and cashless payments spaces in India.

In the digital-first era, our pioneering initiatives like 'NEO' are catalysing transformative change, redefining banking experiences for customers. Through end-to-end digital journeys and innovative solutions, the Bank is driving impressive growth in digital adoption and engagement. From instant digital onboarding to seamless lending journeys and beyond, the Bank's commitment to continuous innovation ensures cutting-edge services that prioritise customer needs and convenience.

In FY24 we made strong progress towards our aspiration of becoming India's best Digital Wholesale Bank with the roll-out of our digital properties – 'NEO for Business' and 'NEO for Corporates'. During the year, we launched NEO for Business, a first-of-a-kind mobile first transaction banking platform, specially curated for the MSMEs' banking and beyond banking needs. The proposition has seen strong acceptance, with over 60K customers onboarded in the six months since launch.

Our path-breaking digital banking platform 'NEO by Axis Bank' continued to demonstrate a strong product market fit. With over 1,800 corporates integrated on APIs, there has been ~6x growth in transaction volumes, over 4x growth in transaction throughput and 2x growth in the linked CA balances in the last 12 months. Our Corporate Developer Portal now offers over 125 Open Banking APIs that allow seamless end-to-end digital onboarding tailored to clients' specific businesses. We also launched 'NEO for Corporates', a cloud-based digital banking solution that provides a unified platform across payments, trade, forex, and more. This integrated platform will significantly increase ease of doing business for large corporates while enabling us to scale products rapidly. With a full rollout of NEO, Axis remains on track to becoming the Operational Bank of choice for our Wholesale Banking clients.

In fiscal year 2022, the Bank introduced the Industry first feature loaded Debit Card along with Video KYC based savings accounts. The E-Debit Card allows customers to start transacting immediately after opening the account and carries spend linked benefits. In FY24, with continued focus on increasing penetration of Contactless payments, the Bank also launched another product in its Wearable suite - Axis Bank Active Watch - a smartwatch cum Debit Card, for making payments truly on-the-go and convenient for its customers. Axis Bank Debit Cards are also enabled on multiple PSPs (ex. Google Pay, Samsung Pay, etc.) for device tokenization, that helps customers make Debit Card contactless payments via their Android Mobile Phone on POS machines.

The bank has also completed CITI integration successfully in July 2024 and migrated the 2 Mn base of customers to Axis Bank.

The bank has also launched industry first Numberless credit card Co-brand partnership with Social Worth (Axis Bank Fibe Credit Card- RuPay).

The Bank maintained its positioning as one of the largest players in the UPI space with a market share of 26% as Payer PSP during the fiscal year 2024. The Bank now has partnerships with all the major third-party UPI apps in the ecosystem (including Google Pay, PhonePe & Paytm) with more than 93.8 crores customer UPI ID's registered as on March 31, 2024.

The Bank's initiatives on the digital front have been widely recognized. The bank was awarded the "Best Bank Award for Innovation" in the Business Today - KPMG India's Best Bank Awards. Similarly, the Bank was awarded the "Best Digital Bank" by publications like Asiamoney and Financial Express. The bank has also been awarded Assocham Annual BFSI Lending Award for Best Digital Initiatives and Infosys Finacle Awards for NEO API Banking Suite.

Internet Banking Services

The Bank provides Retail Internet Banking platform to its customers which offers various features and services. Through the platform, customers can view accounts, statements, loans, credit and debit cards, forex prepaid cards, demat details and can utilize services such as cross-border remittances, fund transfers, bill payments, initial public offering (IPO) applications and mutual fund applications. In addition, the Bank offers an online direct debit facility to customers for purchase of products and services through a host of online merchants in the e-commerce space. Customers can also use this platform to pay their taxes, including goods and services tax, directly from their bank account.

With the objective of increasing the digitization of services, the internet banking channel also offers instant credit card, instant personal loan, mutual funds buy and sell, IPO purchase and book locker functionalities. Digitization of services for cost savings is an important focus area for the Bank. Internet banking services allow customers to update their personal profile details, change purchase limits of cards, set internet banking transaction limit, access online tax filing certificates, order cheque book and check status of clearing instruments, thereby reducing the need to visit a branch for day to day banking requirements and fill physical forms for services. With features that are easily accessible and categorized, Axis internet banking portal is aimed at making day to day banking experience convenient for customers of any age group.

Internet banking services are provided only in respect of existing customer accounts for which the necessary identity documentation has been obtained prior to providing the customer with a user identity and password to access its account online. The Bank has in place a two-factor authentication system for transactions. As an additional control feature, the Bank has also implemented a risk-based (adaptive) authentication system for all retail Internet banking users.

Retail Internet Banking has seen customer centric initiatives and uptake of new technologies this past year. Host of banking services have been made available for IB users for better experience. Internet banking has also moved to a new platform with upgraded technology stack on March 02nd, 2021.

The Bank's internet banking platform has received the following awards:

- Best Banking Technology at The Internet & Mobile Association of India Digital Awards, 2020
- Best Use of Data & Analytics for Business Outcome amongst large banks by the Indian Bank's Association in 2019

Conversational Banking (Chat Bot)

Axis Aha! is an AI-powered conversational banking channel which can respond to voice or text inputs and determine the intent of the user in a fraction of a second. Axis Aha! is designed to enhance online customer experience, resolve customer queries, assist with service requests and transactions such as account balance, cheque book requests, card blocking requests, managing debit card limits, paying credit card bills and check available limits.

WhatsApp banking was made available to customers beginning in January 2021 to service customers' banking needs. This provides a faster, more convenient platform for customers to interact with Bank. Currently there are 25+ live services and also supports FAQs.

Credit Ratings

The following table sets forth, as at March 31, 2024, the details of the Bank's domestic and international credit ratings by the indicated ratings agencies:

Rating Agency	Long term rating	Outlook
S&P Ratings	BBB-	Positive
Moody's	Baa3	Stable
Fitch	BB+	Stable
CRISIL	AAA/AA+	Stable
CARE	AAA	Stable
ICRA	AAA/AA+	Stable
India Ratings	AAA/AA+	Stable

Competition

The Bank faces strong competition in all of its principal lines of business. The Bank's primary competitors are large public sector banks, other private sector banks, foreign banks and, in some product areas, development financial institutions.

Recently, non-bank financial companies, particularly international technology companies including large e-commerce players, have been increasing their presence in the financial sector and offering payment platforms and select services.

Consolidation in the Indian banking industry may increase competitive pressures experienced by the Bank. For example, in one of the largest consolidations in the Indian banking industry, the SBI merged with its five associate banks and the Bharatiya Mahila Bank, which merger became effective from April 1st 2017. In fiscal year 2019, the Government announced the merger of three other public sector banks, Bank of Baroda, Vijaya Bank and Dena Bank, effective from April 01, 2019. In fiscal year 2020, the Government announced several additional mergers of public banks: Canara Bank's merger with Syndicate Bank; United Bank of India's merger with Oriental Bank of Commerce and Punjab National Bank; Andhra Bank's merger with Corporation Bank and Union Bank of India; and Allahabad Bank's merger with Indian Bank. Following these mergers, the number of public sector banks is expected to be 12, down from 27 in fiscal year 2022.

New banks in the private sector have also increased competitive pressures. Two new private sector banks were set up and began banking operations in fiscal year 2016. Ten small finance banks and seven payments banks have recently begun operations. The RBI has granted licenses to entities, which includes large telecom companies and pre-paid wallet providers, to establish payments banks. The RBI has also granted licenses for the establishment of small finance banks, which include micro-finance non-banking finance companies. The RBI has released a discussion paper on licensing of wholesale and long-term finance banks that will largely lend to infrastructure and core industries. A discussion paper on licensing of other differentiated banks such as custodian banks has also been indicated. The RBI has released guidelines with respect to a continuous licensing policy for universal banks as compared to the earlier practice of intermittently issuing licenses and has demonstrated an intention to allow small finance banks to apply for universal banking license under this framework, which may result in greater competitive pressure. The RBI has also indicated that it plans to give greater access to foreign banks in the Indian market.

The Bank's corporate banking products and services face competition from a number of banks and financial institutions. Public sector banks, which pose major competition to the Bank, have a significant history of operations. These competitors have, over time, built extensive branch networks, providing them with the advantage of a low-cost deposit base, and enabling them to lend at competitive rates. In addition, the extensive geographic reach of many of these institutions enables product delivery in remote parts of the country. The Bank seeks to compete with these banks through faster response to customer requirements, quality of service, a fast-growing inter-connected branch network and technology-enabled delivery capabilities.

In retail banking, the Bank's principal competitors are the large public sector banks, which have much larger deposit bases and branch networks, as well as aggressive new private sector banks and foreign banks. The retail savings deposit share of foreign

banks in India is quite small in comparison to the public sector banks, and has declined in the last five years, which the Bank's management attributes principally to competition from new private sector banks. However, some foreign banks have a significant presence among NRIs and also compete for non-branch-based products such as auto loans.

Customer Base

The Bank's customer base is comprised of large and mid-sized corporates, SMEs and individuals, and is highly fragmented. Although the Bank has an extensive customer base, it has a relatively high concentration of loans to certain borrowers, borrower groups and industry sectors.

The Bank calculates the level of its exposure to any industry or customer in accordance with the guidelines established by the RBI. The Bank's loan portfolio and non-performing asset portfolio have a high concentration in certain industries, the most significant of which are Banking and Finance, Trade, Infrastructure (excl Power), Engineering and NBFCs industry representing 6.63%, 3.96%, 3.86%, 3.31%, and 2.87% respectively, of the Bank's gross fund-based loans outstanding and credit substitutes as of March 31, 2024. As of March 31, 2024, aggregate credit exposure (including derivative exposure) to the Bank's 20 largest borrowers (fund and non-fund based) amounted to ₹1,26,510 crores, representing 73.18% of the Bank's total capital (comprising Tier I capital and Tier II capital).

Seasonality

The Bank typically does not experience, and in the last three financial years has not experienced, any significant seasonality in its business.

Employees

The Bank believes that employees are its most important asset. The Bank is an equal opportunity employer and is committed to hiring, developing and promoting individuals who best meet the requirements of available positions, possess the required competencies, experience and qualifications to carry out assigned tasks, and have the potential for growth within the organization.

The Bank had 1,04,332 employees as at March 31, 2024 compared with 91,898 employees as at March 31, 2023.

Set out below is a breakdown of the number of employees of the Bank between corporate headquarters, corporate office verticals, Circle offices and branches:

	As at March 31					
	2019	2020	2021	2022	2023	2024

ESG and Corporate Social Responsibility

As one of India's largest private sector banks, the Bank is firmly aligned to the global sustainable development agenda underscored by the Sustainable Development Goals and India's commitments under the Paris Agreement.

The Bank's ESG agenda is guided by its purpose statement 'Banking that leads to a more inclusive and equitable economy, thriving community and a healthier planet'.

In 2021, the Bank became the first Indian bank to establish a standalone ESG Committee at the Board level. Guided by the Committee, the Bank is driving a multi-pronged ESG strategy focused on its business activities, risk management, human capital management, business operations and community impact. The Bank has also taken pertinent ESG-aligned commitments and continues to focus on driving deeper ESG integration across each aspect of the organization. The Bank is represented on key thought leadership and policy advocacy platforms focused on driving the ESG and climate action agenda in India, including at IBA, FICCI, CII, among others.

The Bank is committed to playing an active role in building an inclusive and resilient Indian society. Guided by the CSR Committee of the Board, the Bank is implementing impactful CSR (Corporate Social Responsibility) initiatives focused on bringing meaningful socio-economic change in the lives of marginalized and vulnerable communities and protect India's rich biodiversity. The Bank's CSR programs span the entire country, especially focusing on India's North-east and the interiors of Eastern and Central India. Its programs are implemented through the Axis Bank Foundation as well as experienced and reputed implementation partners, across the themes of Lives and Livelihoods, Financial Inclusion and Financial Literacy, Education, Environment, and Healthcare.

The Bank has been included in the FTSE4Good Emerging Index for the eighth consecutive year in 2024. In addition, the Bank is rated 'A' by MSCI ESG Ratings and has a Score of 'C' in the CDP in 2023. The Bank was placed above the 80th percentile among global banks in the S&P DJSI in 2023 and has a Sustainalytics ESG Risk Rating of 19.9. The Bank is a constituent of leading domestic ESG indices including the MSCI India ESG Leaders Index and the Nifty 100 ESG Sector Leaders Index.

Information Technology

The Bank's Information Technology (IT) strategy remains guided by its vision of being a customer-centric organization with a robust, state of the art technology platform to achieve its growth, profitability, and sustainability objectives. The Bank continues to focus on the six key imperatives that include, 1) End-to-end customer journey digitization, 2) Accelerating delivery, 3) Modernizing the core to deliver profitable growth, 4) Fix the basics to build a sustainable franchise, 5) Talent and culture, and 6) Risk and governance.

The Bank has been focusing heavily on expanding its technology capabilities. Over the past 3 years, the investment in the IT operations has increased by ~150% while the IT workforce has increased by ~100%. The Bank's Information Technology (IT) department manages all banking applications through a talented 2000+ member IT team having strong domain capabilities in banking, treasury, channels, payments and collections, along with technical capabilities. The IT operations are managed through a cross-functional team involving functional and technical experts.

During the year FY24, the IT team continued execution of 30+ key initiatives to facilitate its journey towards driving sustainable growth, improving customer experience with the help of digital banking, leveraging payments business capability, sustained focus on analytics, and providing self-assisted capability to customers. The Bank retained strong position in digital banking with the Axis mobile app being world's highest rated mobile banking app on Google Play store and iOS with a consistent rating of 4.8 and 14 million+ monthly active users. As of June 2024, ~11 million non-Axis Bank customers are using Axis Mobile and Axis Pay Apps. The Bank continues to add to its 250+ services portfolio on digital channels, eliminating the need to visit branches for basic servicing. Axis Bank is committed to make retail internet banking platform more inclusive with multilingual feature; Bank support website now available in 9 Indian languages.

The Bank remains committed to its open ecosystem proposition with its focused API strategy and has 500+ gateway external partners. The Bank has adopted 'Next Gen integration' by deploying more than 440+ Retail and Corporate APIs on its Developer portal. The Bank continues to roll out new APIs to enable digital customer journeys and partner on-boarding leading to reduced time to market.

The Bank continued its journey towards Hollowing-the-Core to become future-ready with a modernized Core. The Bank became first amongst peers to create a separate UPI instance for P2M elite merchants and gained leadership position in UPI Payer PSP category. Additionally, Hollowing-the-Core initiatives are undertaken on areas such as General Ledger, Lending, Inquiring, BNPL, and Account Opening to increase capacity and improve performance of the core systems.

The Bank is the first amongst peers to create 3 Cloud landing zones (AWS, Azure and GCP) to support its multi-cloud strategy and has an architectural Cloud-first, Cloud-native approach. The rapid pace of cloud adoption, driven by a dedicated Cloud COE (Centre of Excellence), has helped the Bank to drive business innovation at a faster pace. Using automation and SOPs, the Bank reduced its infrastructure provisioning TAT by ~90% compared to comparable on-premises solutions. The Bank has 140+ critical applications on Cloud as of March 2024. Axis Bank is the first Indian Bank to be ISO certified for its AWS and Azure Cloud security. The Bank is investing in Hyper automation using Infra-as-a-Code capabilities and enhancing application observability through Cloud based SRE capabilities. As of June 2024, Axis Bank has achieved a best in class 99.5% CIS Score (Center of Internet Security).

Additionally, the Bank continues to build capabilities in emerging technologies of AI, ML, Automation, and Data Analytics. The Bank has 3600+ RPA bots in action and is targeting best in class efficiency for RPA, Voice, and IOCR. The Bank has continued to introduce, and scale new products driven by its zero-based redesign philosophy. The redesigned customer centric journeys enable minimum to no data entry with automated underwriting. Additionally, the Bank is exploring business use cases for Generative AI within its ecosystem and evaluating multiple workstreams for experiments on GPT usage. Axis Bank rolled out Gen AI based chatbot - Adi for ~60,000 users across branches, for enhanced customer service efficiency and personalized banking experiences. Additionally, Axis Bank is the first Indian Bank to roll out Microsoft Gen AI based Co-pilot.

Data Centre and Disaster Recovery Site

The Bank has two primary data centers located in Mumbai (co-located) and Bengaluru (owned). Both data centers have n+1 redundant architecture for power and cooling distribution. Business applications are strategically spread between the two data centers for active setup at one DC and resiliency at other DC. Both data centers are in different seismic zones and are connected through a redundant wide-area network which is connected to all branches and office locations. Additionally, the Bank has set up a refreshed Near DR (Disaster Recovery) for Critical Apps with Improved Infra availability at 99.99% at its Bengaluru Data Center location. The Bank regularly conducts disaster recovery drills for critical applications to ensure continuity readiness in the event of disaster. Bank has enhanced resiliency of critical applications with automation tools that provide real-time visibility on DR readiness and DR operations. Axis Bank has enhanced the working duration from DR Site during DR Drills to 5+ working days (for both Standalone and Cluster DR Drills) – over and above regulatory guidance of >24 hours.

During FY25, the Bank will continue to build on the initial success of the transformation journey undertaken to make the IT team future ready. The transformation program will build the foundation for becoming best-in-class across key areas. The transformation program focuses on achieving 4 key outcomes - a) deliver tech products faster, b) enable critical capabilities, c) improve resilience, and d) optimize expenditure across engineering excellence, channel architecture, integration, automation, infrastructure etc.

2.40 THE BROAD LENDING AND BORROWING POLICY INCLUDING SUMMARY OF THE KEY TERMS AND CONDITIONS OF THE TERM LOANS SUCH AS RE-SCHEDULING, PREPAYMENT, PENALTY, DEFAULT; AND WHERE SUCH LENDING OR BORROWING IS BETWEEN THE ISSUER AND ITS SUBSIDIARIES OR ASSOCIATES, MATTERS RELATING TO TERMS AND CONDITIONS OF THE TERM LOANS INCLUDING RE-SCHEDULING, PREPAYMENT, PENALTY, DEFAULT

The Issuer has framed its lending policy and internal processes with the objective of achieving profitable growth of its lending portfolio by identifying specific business opportunities and managing the risks involved. The lending policy guides adherence to regulatory guidelines, adherence to due diligence based on industry best practices and seeks to ensure consistent and transparent credit selection, appraisal process and operating guidelines.

The Board of Directors has delegated credit approval authority to various committees, forums, and individual officers under the credit policy.

The Issuer's criteria for acceptability of credit include:

- An acceptable internal /external credit rating;
- Healthy cash flows;
- Satisfactory quality of management in terms of past track record of performance, competence, professionalism, integrity and corporate governance practices;
- Sustainability of business model in the long term;
- Likely market share;
- Likely future leader in emerging businesses;
- Acceptable underlying security and credit enhancement measures;
- Probability of credit rating enhancement in the medium term;
- Appropriate pricing and acceptable rate of return on capital; and
- Opportunities for boosting return on capital from ancillary businesses.

Each credit proposal is thereafter prepared in an appropriate appraisal format which also includes the critical terms & conditions and is placed before the approving authority. For retail products, the Issuer evaluates credit proposals based on operating policies/guidelines.

The Issuer communicates the terms of sanction as approved by the respective sanctioning authority to the borrower, which includes key terms and conditions such as security, pricing, conditions precedent for disbursement. The Issuer thereafter enters into appropriate legal agreement with the borrower. These documents ensure that the Issuer has appropriate rights over the collateral or other forms of credit enhancement including the right to liquidate, retain or take legal possession of it in a timely manner in the event of default by the counter party. In order to protect the interest of the Issuer, the Credit Policy of the Bank recognizes legal action, restructuring and rehabilitation, settlements, sell down to asset reconstruction companies etc. as a mode of recovery of its dues.

The borrowing policies are framed in accordance with various laws & regulations applicable to the Bank. The Bank raises borrowings in INR and foreign currencies in normal course of business up to the aggregate amount not exceeding the limits approved by shareholders/the Board of Directors/the Committee of the Board from time to time under the applicable laws.

The Issuer's primary source of funding is deposits and borrowings. In the rupee market, most of our deposit are at fixed rates of interest. We accept deposits for fixed periods, except for savings account deposits and current account deposits, which do not have any specified maturity and can be withdrawn on demand. Our borrowings are for a fixed period and range from overnight borrowing in the call market to issuance of long term bonds. The foreign currency loans of the Bank are generally funded with foreign currency borrowings and deposits in our overseas branches.

ANNEXURE D

CHANGES TO ISSUER'S ACCOUNTING POLICIES

(all amounts are in Rs. Crores, unless stated otherwise)

Summary of significant accounting policies

FY 2021-22

Effective April 1st, 2021, the Bank has carried out the following changes in its accounting policies

1. Recognition of Employee stock option expenses

RBI issued a clarification on Guidelines on Compensation of Whole Time Directors/Chief Executive Officers /Material Risk Takers and Control Function Staff on August 30th, 2021, advising banks that the share-linked instruments are required to be fair valued on the date of grant using the Black-Scholes model. The fair value thus arrived should be recognised as an expense for all options granted after the accounting period ending March 31, 2021. Accordingly, the Bank has changed its accounting policy from the intrinsic value method to the fair value method for all share-linked instruments granted after March 31, 2021 and consequently recognized the fair value of options computed using the Black-Scholes model, without reducing estimated forfeitures, as compensation expense over the vesting period. As a result, 'Payments to & provisions for employees' for the year ended March 31, 2021 are higher by Rs.129.79 crores with a consequent reduction in the profit before tax by the same amount.

FY 2024-25

1. Change in Investment guidelines

Effective April 01st, 2024 the Bank has adopted the revised framework as detailed in RBI Master Direction on Classification, Valuation and Operation of Investment Portfolio issued on September 12th, 2023 ('RBI Investment Direction 2023'). Accordingly, as prescribed under the transition provisions of the aforesaid framework the Bank has (1) transferred the balance in Investment Reserve Account as at March 31st, 2024 of ₹242.29 crores to the general reserve) (2) transferred an amount of ₹1,219.07 crores (net of tax) to the general reserve, resulting into increase in the networth of the Bank, on account of reversal of balance in provision for depreciation on investments as at March 31st, 2024 and adjustment for the difference between the carrying value of its investment portfolio as per the revised framework and the previous carrying value as at March 31st, 2024.

Further, in compliance with the said RBI Investment Direction 2023, the valuation gains and losses at the period ended 30th June, 2024, across all performing investments held under AFS are aggregated and the net depreciation amounting to ₹2.31 crores (net of tax) has been directly recognised in AFS Reserve. The securities held in Fair Value through Profit and Loss ('FVTPL') are fair valued at the period ended 30th June, 2024 and the net gain of ₹99.16 crores arising on such valuation has been recognised in the Profit and Loss Account. Figures for the previous quarter and corresponding quarter of the previous year are not comparable to that extent.

Litigation involving the Issuer

Except as disclosed below, there are no material events / developments or changes having implications on the financials/credit quality which may affect the Issue or the investor's decision to invest / continue to invest in the Bonds.

There are no litigations pending against Bank and Subsidiaries (i) which require disclosure under SEBI Listing Regulations; or (ii) which the Bank believes could have a material adverse effect on the business of the Bank on a consolidated basis. We are involved in a number of legal proceedings in the ordinary course of our business, including certain proceedings with significant financial claims present on the face of the complaint but that we believe lack any merit based on the historical dismissals of similar claims.

There are no material regulatory proceedings against the Promoters of the Issuer at the time of Issue which may affect the Issue or the Investor's decision to invest/ continue to invest in the debt securities. However, it is advised that the Investors look at the disclosures made by the Issuer in the entire Offer Documents and specifically look at Section 1: 'Risk Factors'.

- Axis Bank Limited, has filed an Original Application numbered 419 of 2013 against the Corporate Debtor - M/s Fantasy Furnishings Pvt. Ltd and the Personal Guarantors (i) Mr. Naresh Chander Goel (ii) Mrs. Kiran Devi Goel (iii) Mr. Vineet Goel (iv) Mr. Ajay Kumar Goel & (v) Mr. Mayank Goel before Debts Recovery Tribunal - 1 at Kolkata. The claim amount was Rs.23.41 crores. The key contentions taken by the bank are: (i) Despite demanding the payment in connection with the cash credit facility, the Defendants failed and neglected to make payment for the same. (ii) The bank has stated that they do not have any security in connection with the said cash credit facilities except for the mortgaged properties and the hypothecated assets. (iii) During the pendency of the suit, the bank came to know that the Defendants are trying to dispose of their stocks and assets with an intention to delay or frustrate the execution of the order for the recovery of Debt that may be passed against the defendants. The reliefs sought are (i) Pass an order of attachment of the account of the defendants maintained with HDFC bank bearing number: 00142290000810. (ii) Direct the defendants to submit balance sheets as on March 30th 2014 before the Tribunal. (iii) Pass an order of injunction restraining the Defendants from dealing with or encumbering the stocks and assets pledged as security by the Defendants against the cash credit facility availed by them. (iv) Pass an order of attachment of the receivables of the Defendant No. I till the disposal of the suit. The Corporate Debtor contested before the DRT with a written statement and also made a counter claim in Sep'14 amounting to total Rs. 401.61 crores on grounds of loss in business due to bank and reputation loss. All records with regard to the OA and counter claim were misplaced from DRT. Thus, we have again restructured all documents and the same has been filed before DRT. The borrowers have also restructured all documents filed by them and have been filed before DRT. No adverse order has yet been passed against Axis Bank Limited. Last Hearing was scheduled on November,2022 which has been adjourned by NCLT. In the above OA, the defendants filed written statement with counter claim for a sum of Rs.401.61 crore as on 30.09.2014 together with interest @18% per annum at monthly rates from 01.10.2014 till recovery and other consequential reliefs.

The above OA was heard by the Learned Tribunal in length on numerous occasions but subsequently the court records of the above OA were destroyed due to fire. Subsequent to the above as per the necessary direction of the Learned Tribunal true copy of the OA as well as the written statement were filed by both the parties before the Learned Tribunal for the purpose of reconstruction of the record and necessary affidavits in connection with such filing of true copy were also submitted before the Learned Tribunal. Last Hearing was scheduled in May, 2023 which has been adjourned by DRT, Kolkata. Next date of hearing 05.12.2023 for hearing. In this regard we have also obtained risk certificate from our lawyer wherein the counter claim has been classified as Remote risk. The matter is listed for hearing on 05.12.24.

- A company petition was filed on April 25th, 2019 by the Ministry of Corporate Affairs, Government of India (MCA) against the Bank and others (2019 Petition) before the National Company Law Tribunal Bench at Mumbai (NCLT) alleging breach by the Bank and the other respondents of the directions issued by NCLT, by way of its order dated 3 December 2018 (IL&FS Order) in another company petition (IL&FS Petition) filed by the MCA, before the NCLT, against Infrastructure Leasing And Financial Services Limited (IL&FS) and others, which is currently pending before the NCLT. In accordance with the IL&FS Order, certain respondents of IL&FS Petition (IL&FS Respondents) were (i) required to disclose their movable and immovable properties/ assets, including bank accounts, lockers owned by them in India or anywhere in the world, including jointly held properties (Declarations); and (ii) restrained from, mortgaging or creating charge or lien or creating third party interest or in any way alienating the movable or immovable properties owned by them, including jointly held properties. In accordance with the Declarations, the Indian Banks' Association was instructed by the MCA, to circulate the IL&FS Order to all the member banks, for necessary

compliance of the IL&FS Order. It was alleged that the respondent Banks had knowingly allowed one of the IL&FS Respondents to operate his accounts and locker maintained with the respective respondent Banks, in a manner, which was in violation of the IL&FS Order. Hence, the 2019 Petition was filed. The Bank has filed an affidavit in reply refuting all allegations in relation to violation of the IL&FS Order by the Bank. The matter is currently pending before the NCLT, and no interim order has been passed against the Bank till date.

- A suit was filed on April 12th, 2019 by Power Finance Corporation Limited (Power Finance) and others against the Bank and certain others, before the High Court of Delhi, alleging breach of various terms and conditions, by the Bank of the trust and retention accounts agreements entered into among Power Finance, the Bank and others. Power Finance had originally entered into a loan agreement with IND Bharat Power (Madras) Limited (Borrower), the Bank, being one of the lenders, and certain others, for an amount of ₹2,655.00 crores. Pursuant to the loan agreement, a trust and retention agreement was also entered into among Power Finance, the Borrower, the Bank and certain others, in relation to govern the disbursement of loan amount to the Borrower (TRA). Power Finance claimed that the Bank, among others failed to, (i) adequately monitor and administer the disbursements made in accordance with the TRA, (ii) keep custody of the title documents of the Borrower; and (iii) effectively monitor and administer permitted investments in accordance with the procedure laid down in the TRA, thereby causing substantial losses to Power Finance. Power Finance has sought, among other things, a money decree for ₹625.09 crores along with interest at the rate of 15% per annum. The matter is currently pending before the High Court of Delhi for filing evidence on behalf of the Plaintiffs.
- We note from publicly available sources, including information available on the website of the Bombay High Court that one Mr. Mohanish Jabalpure has filed a criminal writ petition on August 07th 2019 before the Bombay High Court, Nagpur Bench, against the State of Maharashtra, the Bank and certain other individuals, challenging a circular dated 11 May 2017, issued by the Additional Director General of Police State of Maharashtra, transferring the salary accounts of the police officials from a public sector bank to the Bank. Further, pursuant to an order dated September 16th 2019, the Nagpur Bench of the Bombay High Court directed the criminal writ petition filed by Mr. Jabalpure to be examined as a public interest litigation. Vide order dated 05.01.2022, notice was issued to the Axis and State Bank. Bank has filed Vakalatnama in the High Court and reply to the PIL before the High Court.
- A writ petition was filed on September 02nd, 2019 by the Bank and others against the Union of India, Central Information Commission, Central Public Information Officer of the RBI and the RBI before the Supreme Court of India. The writ petition was filed challenging the arbitrary actions of the respondents in relation to disclosing confidential and sensitive information, prepared by the RBI, pertaining to some of the petitioners, their employees and their customers, pursuant to applications under the Right to Information Act, 2005 (RTI Act), requesting disclosure of such information, which was intimated, post such disclosure, to the concerned petitioners by way of letters from the RBI, each dated June 26th 2019 (Impugned Actions). Further, the petitioners have, among others, alleged violation of Articles 14 and 19(1)(g) of the Constitution of India by the Impugned Actions, as the concerned petitioners, being 'private sector banks' are exempt from the purview of the RTI Act. The petitioners have sought, among others, (i) issuance of orders striking down the Impugned Actions; (ii) declaration that the information obtained by the RBI during the course of its inspections of banks and financial institutions are exempted from disclosure under Section 8(1) of the RTI Act; (iii) declaration that 'private sector banks' including the concerned petitioners are not to be considered 'public authority' under the RTI Act; and (iv) issuance of the writ of mandamus or any other appropriate writ directing the respondents to comply with the applicable provisions of the RTI Act. Banks have also filed the application for referring the matter to larger bench. RTI Applicant Girish Mittal has also filed an SLP against order of CIC dated 05.05.2022 along with application to add other Banks including Axis as party to SLP. Mr. Girish Mittal filed another petition for dismissal of the writ petition filed by the banks on the ground that the same is not maintainable since a writ petition cannot be filed challenging a judgment. This petition filed by Mr. Girish Mittal was dismissed by the Supreme Court of India on 30.09.2022 observing the writ petition to be maintainable and that prima facie, the judgment in the case of Jayantilal N. Mistry did not take into consideration the aspect of balancing the right to information and the right to privacy. The matter is currently pending before the Supreme Court of India.
- An FIR was registered on January 25th, 2020 by the Bank against unknown individuals (Accused) under Sections 419, 420 and 34 of the Indian Penal Code, 1860 and Sections 66C and 66D of the Information Technology Act, 2005 alleging that the Accused had, among others, cheated the Bank by impersonation, fraudulently and dishonestly made use of the unique identification feature of the Bank to illegally transfer an amount aggregating to ₹19.85 crores due and payable to the Bank pursuant to the electronic toll collected through prepaid rechargeable FASTag. Pursuant to two applications filed by the Bank under Section 457 of the Code of Criminal Procedure, 1973, the Additional Chief Metropolitan Magistrate, 37th Court Esplanade, at Mumbai (ACMM), has directed the authority's handover an amount aggregating to ₹18.44 crores seized from the bank accounts of the Accused. As on 14.07.2022 Bank has recovered Rs.10,14,69,880/-.
- Punjab National Bank (PNB) has filed an application under Section 11 of the Arbitration and Conciliation Act, 1996 against the Bank before the High Court of Delhi, at New Delhi, for appointment of an arbitrator. The application has been filed in relation to a dispute which arose between the parties in relation to sharing of certain documents with PNB for its forensic audit. The High Court of Delhi, by way of its orders dated March 12th, 2021 and April 09th, 2021, disposed the application and appointed a sole arbitrator. PNB has filed their statement of Claim and Axis has also filed its statement of Defense. PNB and Axis have also filed the affidavit of evidence of their respective witnesses. The

matter is currently pending before sole arbitrator for further proceedings. Cross examination of witness of PNB & Axis completed. Matter is at final hearing stage.

Appeal/High Court/2021 dated 12.08.2021	2008-2009 to 2012-13	The Commissioner of CGST & Central Excise , Mumbai south Commissionerate Vs LIC of India	Bombay High Court	ULIP policies has investment and Risk portion. In case of Investment portion, service is not involved. On same line endowment policies also have risk and investment portion, but in endowment policies bifurcation is not available. As such, LIC was discharging their service tax liability by paying service tax on risk premium in ULIP policies and at specified rate on endowment policies. The CENAVAT credit on commission etc. is utilized on these services. Service tax authorities says that proportion of commission etc. which is reversed by LIC shall be equal to the Investment portion of the premium and they are treating whole investment portion as exempt service under Rule 2(e) of the CENVAT Credit Rules, 2004. Hitachi Payment Services Private Ltd. are Independent ATM Deployers (IAD) and M/s. Writer Safeguard Pvt Ltd. is the common Cash Replenishment Agency (CRA) for these IADs. On 12/11/2020, the Cash Replenishment Agency (CRA), M/s. Writer SafeGuard, had allocated cash of Rs. 453.00 lakhs to the cash custodians from their Thane vault for replenishment of cash in 54 ATMs of various Banks on the Virar route. Out of which, cash amounting to Rs.114.00 lakhs was allocated to be loaded in the Axis Bank ATMs. The custodians were accompanied by one armed security guard. The driver of the vehicle, Mr. Rohit Aaru was deployed by the CRA for the first time on the said route. The custodians had entered the ATM site of the Kotak Bank, at Bolini, Virar, located on their cash loading route, and had advised cash van driver to park the cash van nearby before stepping down from the cash van as there was no parking space in front of the ATM site. The custodians and the security guard later on noticed that the cash van was missing from the parking place. The custodians thereafter informed the matter to their supervisors. The IAD and the CRA agency had informed the GPS device was tampered with. As the driver was not contactable, a FIR was filed with Virar, Police. The Police immediately began investigation and within a couple of hours the located the abandoned cash van near Kalyan Naka, Bhiwandi. The police later on traced the driver at Ahmednagar and arrested him along with his 2 accomplices. Infidelity and breach of trust by the CRA cash van driver resulted into perpetration of fraud and misappropriation of cash.</p> <p>Action taken: The amount of Rs.114.00 lakh has been recovered from IADs in terms of the Service Level Agreement (SLA) with them. A FIR has been filed by the CRA with Arnala Coastal Police Station on 12 November 2020. The Bank classified the account as fraud and reported the case to the RBI on 12 November 2020.</p>

Date of Occurrence: 31.03.2017, since as per the forensic audit report, the borrower started misrepresentation of financial statements from FY 2017. The Bank classified the account as fraud and reported the case to the RBI on 21 December 2020</p> <p>Action Taken / Proposed: Legal recourse for recovery has been initiated by the Bank under IBC. The complaint has been lodged in the matter at Economic Offence Wing (EOW), New Delhi on 21 December 2020. The Bank has made full provision on the principal outstanding amount of credit facilities (viz working capital and term loan) and on the MTM value of equity shares as at 30.09.2020.</p>
92	Case of Identity Theft by Seema Tomar	22.00	<p>Home loan was availed by Ms. Seema Tomar from the Bank. A complaint was raised by the relatives of the owner of the property (Ms. Sohanbiri) alleging that the borrower had fraudulently availed of the loan from the Bank for purchase of owner's property. On scrutiny of the documents, significant mismatch was identified in the photograph of the seller i.e. the photograph on Ghaziabad Development Authority allotment letter of 1997 was that of an old lady whereas the photograph on the sale deed signed on behalf of seller in 2019 was of relatively middle aged lady. It transpired that an unknown individual impersonated the seller, Ms. Sohanbiri, and executed the sale deed with the borrower, Ms. Seema Tomar. The Bank's empaneled legal agency did not verify the identity of the person (seller) executing the documents. The scrutiny of statement of account of seller's account with Bandhan Bank (where loan proceeds were transferred) was done and it was identified that the proceeds of the disbursed loan credited into the account was withdrawn through cash amounting to Rs.2.17 crore immediately and Rs. 11 lacs were transferred to the current account, with Axis Bank, of a firm of which Ms. Seema Tomar was a proprietor. It was also noted that the account with Bandhan Bank (opened in January 2019 and closed in May 2019) was opened just to facilitate routing of loan proceeds. The Sale Deed was executed by an unknown individual (by impersonating the seller) and fabricated documents were</p>

93	Case of Diversion of Funds by Unity Infraprojects Limited	14.20	<p>Company Background Unity Infraprojects Ltd. (UIL), incorporated as Unity Builders Ltd. in 1997, is engaged in construction of buildings and housing, transportation, water supply and irrigation projects. UIL was part of KK Group of Companies promoted by Mr. Kishore Avarsekar. UIL is listed on NSE and BSE Banking Arrangement UIL availed debt of Rs.3277.92 crore as on 31.10.2016 from 25 lenders, including a consortium led by State Bank of India and out of consortium lenders. Axis Bank's limits were part of the Consortium. The credit facilities of the company were restructured under CDR mechanism in December 2014. However, the company was not able to turn around its operations post restructuring. Axis Bank had initially sanctioned a term loan of Rs.25 crore to UIL in 2008. As on 14.06.2016, total credit facilities sanctioned to the company by Axis Bank was Rs.91.94 crore. As part of the CDR scheme implemented in 2014, Axis Bank subscribed to 5,24,854 equity shares of UIL having a book value of Rs.1.42 crore. The borrower was classified as NPA by Axis Bank in December 2016 w.e.f. 29.12.2014. Resolution and Insolvency Proceedings Axis Bank assigned the entire fund based credit exposure to Asset Care and Reconstruction Enterprises Ltd (ACRE ARC) for Rs.22.50 crore vide agreement dated 27.03.2017. Presently, Axis Bank's exposure in UIL is only in the form of equity shares, issued as part of CDR scheme. Additionally, BGs of Rs.18.04 crore have been issued by Axis Bank on behalf of UIL, which are yet to be invoked. As per the asset sale agreement, ACRE ARC would purchase the non-fund based facilities, as and when invoked, at the assignment value of 30% of the devolved amount. The borrower was admitted for insolvency proceedings vide National Company Law Tribunal (NCLT) order dated 20.06.2017. Resolution Professional has filed an application before NCLT for liquidation of the company on 20.03.2018. NCLT has reserved the order in the said matter. Group Exposure Axis Bank does not have any exposure in the group companies of Unity Infraprojects Ltd as on 30.09.2020. Resolution and Recovery The borrower was classified as NPA by Axis Bank on 28.11.2019. Lenders (83 percent by share) have signed an Inter Creditor Agreement (ICA) in July 2019. Bank of Baroda (BOB) is acting as the lead bank post signing of ICA. The company had submitted a resolution plan in December 2019 which was rejected by the lenders. A revised resolution plan was submitted on 05.03.2020. In the meeting held on 06.08.2020, the resolution advisors advised that Expression of Interests (EOIs) have been received from potential investors. Group Exposure Axis Bank had total outstanding of Rs.5021.89 crore from 15 companies of Reliance ADAG group as on 31.10.2020. RFA Classification The following EWS alerts were generated for the borrower on 17.12.2019: RFA by Yes Bank on 05.11.2019 for default with banks; Poor disclosure of materially adverse information; Substantial related party transactions. Axis Bank classified the borrower as RFA on 03.01.2020 on the basis of above mentioned alerts and adverse observations in the draft forensic audit report. Forensic Audit and Lenders Decision Grant Thornton India LLP was appointed by Bank of Baroda on 29.08.2019 to conduct a forensic audit of RHFL with review period from 01.04.2016 to 30.06.2019. The key findings of the forensic audit report dated 02.01.2020 are as below: Rs.12,573 crore (around 86 percent of corporate loans) were disbursed to 47 Potential Indirectly Linked Entities (PILE), of which: Rs.3,573 crore were utilized towards debt servicing of PILE / group companies Rs.1,610 crore appeared to be potential circular transaction where the funds were routed back to RHFL Rs.9,443 crore were disbursed towards non housing purpose in FY19 (80 percent of loans), in spite of RHFL being a housing finance company Rs.118 crore were extended to a suspicious entity (Valuecorp Securities and Finance Ltd) and written off within 4 months Rs.7,908 crore were disbursed to borrowers with weak financial metrics Rs.1,363 crore were disbursed prior to the date of issuance of loan sanction letter Decision of Lenders and Litigation by the Borrower Post submission of fund tracing report by the auditor, lenders meeting was called on 15.05.2020 and lenders were requested to take internal decisions on the report and communicate the same to the lead bank. However, in the subsequent meeting dated 06.06.2020, lenders agreed that a joint decision to be taken in the matter. No final decision was taken on the forensic audit report after the meetings. A legal notice dated 15.06.2020 was served, on behalf of RHFL, to all the lenders requisitioning for final end use report by GT and that no coercive action be taken until</p>

			<p>review and response by the company. However, PNB classified Reliance Home Finance Ltd (RHFL) as 'Fraud' on 21.07.2020. In response, RHFL sent a legal notice to PNB on 29.07.2020 calling the declaration of Fraud by PNB as 'unilateral and wrongful'. A lenders' meeting was called on 30.07.2020. In the meeting, the legal counsel (JSA Advocates and Solicitors) advised the lenders to obtain a conclusive audit report from the forensic auditor. The lenders requested the forensic auditor to provide a clear conclusion to the report to enable lenders to proceed further. Bank of Baroda called for a joint lenders meeting on 06.08.2020. In the said meeting: Grant Thornton (forensic auditor) informed that they complied with their scope of work and given observations accordingly. Bank of Baroda and United Bank of India (now merged with PNB) advised the lenders that they propose to classify the borrower as 'Fraud'. Other lenders were asked to take their individual decisions. On 14.08.2020, the legal counsels of RHFL sent letters to all the banks informing that the High Court has restrained PNB from taking any coercive action pursuant to declaring the Company's account as 'Fraud'. Further, they requested the banks to not take any further steps and / or any "coercive or precipitative" steps. On 31.08.2020, the legal counsels of RHFL sent another letter to all the lenders stating that "The banks forming part of the Consortium of Lenders are also expected to adhere to the order dated 14.08.2020 passed by the Hon'ble Delhi High Court in letter and spirit. Accordingly, you are also requested not to take any further steps and / or any coercive or precipitative action against the Company, failing which the Company will be constrained to initiate legal proceedings including civil and contempt proceedings against you at your cost and peril." The matter was heard on 25.09.2020 by Delhi High Court, wherein the counsels of RHFL and RCFL sought impleadment of the remaining lenders forming part of the consortium so that the order dated 14.08.2020 is applicable to them. In hearing dated 29.09.2020, the Court stated that it would not issue notice in the impleadment applications at this juncture. In hearing dated 06.11.2020, the counsels of RHFL and RCFL (Reliance Commercial Finance Ltd) requested the Court to permission to withdraw the impleadment applications and instead file writ petitions against the individual banks. The same was permitted by the Court. The matter was again heard on 08.12.2020. The Bench directed that the arguments in the matter be continued on the next date of hearing on account of paucity of time. The matter is now listed for hearing on 21.12.2020. Conclusion: Though consensus/majority decision is yet to be arrived at by lenders, 6 lenders have already classified the borrower as 'Fraud' based on adverse forensic audit</p>

			<p>inspection report, KSBL credited the funds raised by pledging of client securities to its own bank accounts and did not report these bank accounts to the exchange. One of these accounts was Axis Bank A/C no. 916030054913843. II) Transaction analysis of A/c. No. 916030054913843 revealed the following outflows to accounts other than Client Accounts: a) First outflows from the account worth Rs.40 crore were to other banks accounts of KSBL via RTGS on 29.11.2016. b) Subsequently till 24.10.2017, there were outflows of Rs.22.90 crore to the GL Expenses Account of the company. c) Subsequently, there was one outflow of Rs.25 crore to GL Expense account (004010203343544) on 03.04.2018. d) Between 09.04.2019 and 15.05.2019, there were 4 NEFT outward transactions worth Rs.15.20 crore to other bank accounts of KSBL. e) Between 25.10.2019 and 02.12.2019, there were 6 debit transactions worth Rs.5.25 crores to KSBL's OD against Receivable Account with Axis Bank. III) Transaction analysis of A/c. No. 916030054913843 revealed the following outflow to Client Accounts: a) From 26.10.2017, outflows from the account began predominantly flowing into Client Accounts maintained with the Bank. b) In total, there were 84 such transactions between 26.10.2017 and 05.09.2019 which were cumulatively worth Rs.138.30 crore. c) From the client accounts, the funds were mostly transferred via RTGS or IMPS to other bank accounts of the company. Forensic Audit I) In the meeting held on 11.03.2020, the lenders discussed the scope of work and prospective agencies for conducting forensic audit. Two agencies, Deloitte and BDO, were shortlisted and lenders were requested to communicate their choice to ICICI Bank. II) Axis Bank requested ICICI Bank to appoint BDO as forensic auditor and followed up with ICICI Bank for the same. III) There was delay by ICICI Bank in appointing a forensic auditor. Finally, ICICI Bank appointed BDO as forensic auditor on 24.09.2020. IV) While lenders have shared majority of the data with BDO, there was no cooperation and information sharing from the company. V) Axis Bank, vide letter dated 22.12.2020, advised ICICI Bank to examine the borrower as non-cooperative and to consider declaring the company as fraud based on the violations highlighted in the forensic audit report conducted by NSE. VI) ICICI Bank vide letter dated 22.12.2020 advised Axis Bank to take necessary action as per the internal policies and guidelines of the Bank. VII) Subsequently, in the lenders' meeting held on 22.12.2020, the borrower informed that data was being submitted to Exchanges at present and sought additional time for submission of data to forensic auditor. Further, it was decided that lenders may take appropriate action as per their</p>

98	Case of Forged / Fabricated Financial Statements by Amit Iron Private Limited	143.60	<p>Background: Amit Iron Private Limited (AIPL), incorporated on 19.06.2000, is a Kolkata based authorized distributor of Tata Steel Limited. AIPL is one of the biggest distributors of hot roll sheets (under brand name TATA Stilium) and cold roll sheet (under Brand name TATA Astrum) in eastern India. Banking Arrangement: AIPL availed working capital limits of Rs.110 crore under multiple banking arrangement from 4 Banks (SBI - Rs.60 crore, ICICI Bank - Rs.25 crore, Axis Bank - Rs.15 crore, Yes Bank - Rs.10 crore). The Bank sanctioned a limit of Rs.15 crore to AIPL under 'Tata Steel Limited - Dealer Finance Program' on a platform arranged by Mjunction Services Limited (MJSL), in November 2014. The borrower was classified as NPA by Axis Bank on 03.09.2019. Resolution Action: All the lenders have issued notification to Tata Steel to stop supplying to the company. Axis Bank has issued recall notice to the borrower on 10.02.2020. RFA Classification: The account was classified as 'RFA' by Axis Bank on 16.04.2020, based on classification of the borrower as RFA by Yes Bank. Forensic Audit: SBI appointed Suman Kumar Agarwal and Associates on 16.03.2020 to conduct forensic audit with review period from 01.04.2017 to 29.02.2020. Draft forensic audit report was received on 09.11.2020. Key observations noted in the draft forensic audit are as under: Compensation of</p>

			<p>Rs.1.24 crore was booked from 01.04.2019 to 29.02.2020 (pertaining to FY 2013 to FY 2018) on account of an agreement to supply a minimum quantity of coils to Arya Metals Pvt. Ltd (related party). Receivable outstanding as on 29.02.2020 were Rs.77.38 crore, after write off of bad debts of Rs.12.24 crore. Recklessness in assessing the credibility of the debtors was observed. In many instances, goods had been sold at gross loss on credit basis. These goods had been purchased from party other than Tata Steel Limited. Settlement to these creditors were made either by adjusting the receivables from that party or by making payment. No concrete steps had been initiated by the borrower to recover the dues from parties. In spite of the fact that receivables from these parties were outstanding for a considerable period of time, no legal remedies had been initiated to recover the outstanding dues. It reflected borrower's apathetic nature towards recovery of receivables. Top 10 debtors amounting to Rs.48.84 crore constituted 62.94 percent of the total debtors. However, total sales made to these debtors during the period from April 2018 to February 2020 amounted to Rs.53.19 crore, which constituted 10.14 percent of the total sales during this period. This signifies that liberal credit had been extended only to some of the debtors, out of which most are new parties and no sales had been made to these parties in the earlier years. While finance cost had always been a significant expense of the borrower (debt-equity ratio increased from 4.65 times in FY 2017 to 8.36 times in FY 2019), borrower had provided interest free advances to certain parties (Rs.23.21 crore paid during review period). Out of the advances of Rs.23.21 crore, Rs.13.72 crore was advanced to G K Ispat Pvt Ltd, which is a related party. Borrower has commented that they had paid advances to Star creation, Indian Sculpture, Parton Vinimoy, G K Ispat and MRS Educational Trust for procurement of steel materials. However, no materials were purchased and advances are returned back. Unusual income of Rs.3.25 crore (in FY 2016, FY 2017 and FY 2019) and unusual expenditure of Rs.19.23 crore (during the period from 01.04.2019 to 29.02.2020) which do not seem to be in the normal course of business were observed. Out of unusual expense of Rs.19.23 crore, Rs.13.05 crore was attributed bad debts. This hinted that inflated income had been shown in the books in previous years and that during the period from 01.04.2019 to 29.02.2020 losses had been inflated by booking of expenses which are not in the normal course of business. Lender's meeting: SBI had requested other lenders for their opinion or observations on the report and conveyed that a meeting for the discussion on further course of action will be arranged shortly. However, till date, no such meeting</p>

99	Case of Diversion of Funds by Modex International Securities Limited	208.70	<p>Company Background: Modex International Securities Limited (MISL) is a SEBI registered stock broker. MISL was a member registered with National Stock Exchange of India Limited (NSE) and BSE Limited (BSE) in Capital Market, Future and Option (F and O) and Currency Derivatives segments. Further, MISL is a Depository Participant (DP) of Central Depository Services Limited (CDSL). The company caters to both retail and corporate clients, as well as undertaking proprietary trading. Banking arrangement MISL availed working capital limits of Rs.47 crore (Fund based limit: Rs.10 crore; Non-fund based limit: Rs.37 crore) from IndusInd Bank and Axis Bank under Multiple Banking Arrangement. MISL has availed PCM (Professional Clearing Member) services in NSE F and O, BSE F and O and MSEI F and O from Axis Bank. Axis Bank initially sanctioned working capital limits of Rs.2 crore in 2013. The company's limits have been subsequently enhanced to Rs.32 crore between 2014 and 2019. Resolution and Recovery Axis Bank classified the borrower as NPA on 31.03.2020. SARFAESI action has been initiated for a commercial property owned by Mrs. Sangeeta Sachdeva mortgaged to the Bank. Notice under section 13(2) was issued on 21.07.2020. Symbolic possession of the property was obtained on 15.12.2020. Suit for winding up of the company has been filed with DRT on 13.03.2020. RFA classification The borrower was classified as RFA by Axis Bank on 27.01.2020, based on the following: i) Inability expressed by the client to meet margin shortfall ii) MISL squared off position which led to exchange obligation and upon multiple request, the borrower was not able to arrange funds from its clients or by self. Investigation by NSE and SEBI Order As a part of offsite supervision, NSE observed inconsistencies between security balances reported by MISL in its monthly and weekly client securities balances submissions as on 29.11.2019 with the Depository Participant records and Clearing members' submissions/holdings with Clearing Corporation Accordingly, an inspection was conducted by NSE for the period from 01.03.2019 to 11.12.2019, whereby it was observed that MISL had posted journal vouchers/manual adjustments entries in ledgers/ Register of Securities of its clients, respectively. In view</p>

			<p>of above, NSE appointed KPMG to conduct forensic audit of MISL with review period from 01.04.2017 to 24.01.2020. The forensic audit report and NSE' observations were submitted to SEBI. The said report has not been shared with lenders. Based on the violations of the Code of Conduct and other provisions of Securities Laws, SEBI restrained MISL and its 9 directors from accessing the securities market, till further directions, vide ex parte ad interim order dated 30.04.2020. The directions issued in the above interim order against MISL and 2 of the directors, Mr. Dharmendra Kumar Arora and Mr. Pavan Kumar Sachdeva, were confirmed by SEBI vide confirmatory order passed on 11.09.2020. Further, stock exchanges and clearing corporations were directed to ensure that shortfall of client funds are made good through realisation from assets of the said 3 parties. NSE declared MISL as a defaulter and expelled the company from its membership on 16.09.2020. Both NSE and BSE have subsequently commenced formalities of compensating investors from investor protection funds of the stock exchanges. As per media reports, investors of MISL have filed an FIR with EOW Delhi against the company. It has been alleged that MISL misused the power of attorney to conduct unauthorised trades in the accounts of the investors, without their knowledge or consent. MISL allegedly used shares as leverage for speculative derivatives trades in order to maximise brokerage earning. Delhi Police has registered FIR against MISL under various sections of Indian Penal Code (IPC) covering breach of trust, forgery and cheating. Forensic Audit Axis Bank appointed Grant Thornton to conduct forensic audit of MISL, with review period from 01.10.2018 to 31.01.2020. There was delay by the borrower in furnishing the information on account of COVID-19 pandemic. The Bank was following up with the borrower for furnishing the information. Final forensic audit report was submitted to the Bank on 25.12.2020. Key findings are given below: i) Non - availability of client balances, misappropriation of client funds and incorrect securities balance through recording of manual adjustments ii) Misutilisation of clients funds for proprietary margin obligations iii) Round payments made to specific set of clients iv) Incorrect submission of weekly report to the stock exchange and short/non collection of margin from the clients which indicates that MISL had misutilised the financial facilities obtained from Bank for exchange margin purpose. v) MISL was engaged in unfair trade practices which were deceitful to the clients as well as the Banks. Conclusion Several regulatory violations were identified in forensic audit conducted by NSE. The said report has not been shared with lenders. However, SEBI has passed interim</p>

			<p>order penalizing the company and 9 of its directors, based on findings of the said report. Pursuant to review of submissions from the company and its directors, the penal actions were confirmed against MISL and 2 of the directors. The said regulatory violations were also corroborated in forensic audit conducted by the Bank. The forensic auditor has concluded that MISL was engaged in unfair trade practices, which were deceitful to its clients as well as the Bank. In view of the aforementioned, Axis Bank classified the borrower as 'Fraud', based on the following: i) Adverse observations mentioned in forensic audit report ii) Regulatory violations identified in forensic audits conducted by NSE and lenders iii) Punitive action against the company by SEBI and NSE Root Cause Misappropriation of funds. The Bank classified the account as fraud and reported the case to the RBI on 11 January 2021</p> <p>Action Taken/Proposed i) To continue suitable recovery proceedings ii) The Police complaint has been lodged in the matter at Economic Offence wing (EOW), New Delhi on 12 January 2021 iii) 100 percent provision has already been made.</p>

II) The forensic audit report was shared by Union Bank of India (erstwhile Andhra Bank) with Axis Bank on 23.12.2020. Key observations are given below: a) The borrower was not co-operative during the course of audit. The auditor has stated that Andhra Bank may pursue necessary action in this regard. b) Unjustified payments to its promoters and related parties indicate diversion of funds towards purposes other than business activities. c) Transfer of Rs.10.14 crore to promoters against unsecured loans indicate that funds have been siphoned-off without creation of assets. d) The company represented that trade receivables aggregated more than Rs.164.06 crore as of June 2019. However, upon verification, none of the customers accepted their dues towards the borrower indicating misrepresentation of facts to Andhra Bank. e) The borrower had maintained accounts with other banks like ICICI Bank. The borrower continued its operations with other banks and did not route any transactions with Andhra Bank, despite classification of account as NPA with Andhra Bank indicating breach of trust with Andhra Bank. f) As per the stock statement as of June 2019, the borrower had trade receivables aggregating Rs45.53 crore from its sister concern SMW Metals. However, transaction analysis of bank accounts revealed that significant payments were made to SMW Metals indicating manipulation of books of accounts. g) Transaction analysis of bank accounts revealed significant transactions with related parties. However, such transactions were not disclosed in the audited financial statements indicating manipulation of books of accounts. III) Conclusion by Forensic Auditor: Basis the above, the borrower can be classified as fraudulent by Andhra Bank. Conclusion Axis Bank classified the borrower as 'Fraud', based on findings of the forensic audit report highlighting manipulation of financial statements and diversion of funds. 103	Case of Forged / Fabricated Financial Statements by Infrastructure Leasing and Financial Services Limited	137.90	<p>Company Background Infrastructure Leasing and Financial Services Limited (IL and FS), incorporated on 03.09.1987, was an infrastructure development and finance company, promoted by the Central Bank of India (CBI), Housing Development Finance Corporation (HDFC) and Unit Trust of India (UTI). The company was established with twin mandates of providing financial services and to develop infrastructure projects under a commercial format. IL and FS was a Core Investment Company, engaged in the business of providing financial support for commercialization of infrastructure projects by extending loans and investments in group companies. Banking Arrangement IL and FS availed term loan and working capital (fund based and non-fund based) facilities of Rs.4846.50 crore under multiple banking arrangement from 22 Banks. Axis Bank sanctioned LER facility of Rs.25 crore to the company in April 2005. Subsequently, non-fund based working capital limits (LC and BG) of Rs.500 crore were sanctioned by Axis Bank during 2011 and 2012. The working capital limits of IL and FS were last renewed on 24.05.2018 with reduction to Rs.250 crore. Recent Developments i. Government of India (GOI), based on reports received from Regional Director (Mumbai), Ministry of Corporate Affairs, concluded that the affairs of IL and FS and its group companies were being conducted in a manner prejudicial to public interest. ii. With a view to preventing further mismanagement and</p>

			<p>protecting public interest, GOI referred the company to NCLT Mumbai for approval to take over its Board and to impose a moratorium on its group entities. iii. The said request for takeover of the company's Board by GOI was approved by NCLT Mumbai vide order dated 01.10.2018. Subsequently, GOI superseded the Board of IL and FS and appointed six new directors. iv. NCLAT passed an order on 15.10.2018, permitting moratorium to IL and FS and its group companies till GOI issue appropriate notification and stayed any proceedings against them. v. SFIO filed a charge sheet against IL and FS Financial Services Ltd (IFIN), a subsidiary of IL and FS, on 30.05.2019 in the court of Additional Sessions Judge-cum-Special Judge (Companies Act) at Greater Mumbai. The following certain allegations against IL and FS were noted in the said charge sheet: Ravi Parthasarathy and Hari Sankaran (both former Managing Directors of IL and FS) received hospitality from C Sivasankaran (founder of Aircel) and used IL and FS group as their personal fiefdom to provide wrongful gains to Sivasankaran illegally. IL and FS had exhausted the regulatory limits beyond which further lending to group entities could not be done. Hence, the accused relied on IFIN to fund the requirements of the group entities. Sanction of loans of Rs.190 crore to Employee Welfare Trust which were used for repayment of loan taken to purchase shares of IL and FS and IL and FS Securities Services Ltd (ISSL) and interest payment of previous loans, which was an abusive exercise of authority. NPA Classification and Recovery Action Axis Bank classified the borrower as NPA on 13.01.2019. Post GOI superseding the Board of the company and commencement of investigation by SFIO into IL and FS group: Axis Bank froze the limits at current outstanding levels for all the group companies where Axis Bank had exposure. The account was classified as Red Flagged Account (RFA) and monitored closely. The Bank filed an application before NCLAT seeking clarification in the matter related to payment to beneficiaries on account of invocation of BGs / devolvement of LCs. RFA Classification The borrower was classified as RFA by Axis Bank on 05.12.2018, based on external developments and adverse media reports. Forensic Audit IL and FS group companies have been classified as RFA by a few lenders including Axis Bank, based on adverse media reports and SFIO investigation into the conduct of the erstwhile Board of the company. Lenders are awaiting the outcome of SFIO investigation for deciding future course of action. Since SFIO investigation is ordered against all the group companies of IL and FS, the management expressed their inability to support separate forensic audit for group companies. It was informed to Axis Bank that, as part of SFIO</p>

			<p>the Joint lenders Meeting (JLM) held on 22.12.2020. The member banks agreed that there were sufficient grounds to classify the account as 'Fraud'. Clarification was sought from the borrower by Axis Bank regarding the aforementioned ITAT order dated 30.01.2019 over telephone call. The borrower advised that an appeal has been filed against said ITAT order in the High Court. However, the borrower has failed to share any supporting in this regard despite follow-up. Observation regarding Income Tax Appellate Tribunal (ITAT) order dated 30.01.2019 IT authorities conducted a raid of the company's premises on 28.01.2011. During the course of search and seizure, Mrs. Rajkumari Singh, director and promoter of HTPL, confessed in her statement recorded u/s 132(4) of IT Act, that the group was indulging in procuring bogus purchase bills in order to siphon off money from the business to facilitate payment to various persons for getting contracts / orders. During the course of search, document containing information about bogus purchases and sales were found and seized. When Mrs. Singh was confronted with the said documents, she admitted that the group was indulging in booking accommodation entries in form of purchases and sales in order to show higher turnover in books of accounts, for the purpose of availing loans from banks and financial institutions. Subsequently, IT Department served notice to HTPL for filing revised returns for 6 previous assessment years. This resulted in additions/disallowance of income tax paid by the company by IT Assessing Officer (AO). The company filed an appeal against the same to the Commissioner of Income Tax (CIT) and subsequently to Income Tax Appellate Tribunal (ITAT). As per IT authorities, the company eliminated bogus purchase of Rs.771.38 crore and corresponding sales of Rs.862.58 crore for the 5 year period from AY 2006-07 to AY 2010-11. The said eliminations resulted into reduction of income admitted in IT return filing by Rs.91.19 crore. The representatives of HTPL submitted before the ITAT that the company has booked two types of bogus purchases and sales: i. The first type was accommodation bills which were procured from bogus parties through agents, like Mr. Kishore Jain, etc. It was confessed by the company that such accommodation bills were obtained in order to generate cash, which, in turn was paid as kickback to several persons for procuring orders and contracts. ii. The second type was mere fictitious entries of purchases and sales recorded in the books of account having no corresponding banking transactions. It was done to obtain bank finance and foreign equity. The aggregate amount of such entries is approximately Rs.666.76 crore. In its submissions before ITAT, the company claims to have booked bogus purchases amounting to</p>

			<p>Rs.328,18,70,325 in AY 2010-11. It further claimed that out of total bogus purchases, it has passed fictitious entries without involving monetary transactions from three parties, viz. Ankita Enterprises, Pavitra Infrastructure and Balaji fibre Reinforce Ltd of Rs. 67.72 crore. i. In order to nullify the credit appearing in the books of account, the company passed journal entries to credit share capital and share premium and debited trade creditors' accounts by Rs.62,72,35,875. ii. ITAT, in its order, added the above Rs. 62.72 crore and consequent expenditure of Rs.2.19 crore incurred to raise bogus share capital, to the income of the company. It may be noted that the company did not challenge the existence of bogus purchases and sales, which resulted in falsification / manipulation of books of accounts, in its submission before ITAT. 118	Case of Fake KYC Documents by R.A.Himasinka and Co (Prop. Mr. Sambhu Saran Sharma)	33.07	<p>A proprietorship current account was opened in the name of M/s. R.A.Himasinka and Co, at our Samantarapur Branch, where Mr. Sambhu Saran Sharma was proprietor of the firm. As stated in the Economic Offences Wing Notice, twenty three demand drafts, aggregating to Rs.1,93,70,000, issued by 'Odisha Gramya Bank' favouring 'R.A.Himatsingka and Co' were wrongly collected through current account, 'R.A.Himasinka and Co' with our Bank. Scrutiny of the KYC documents of the current account, R.A.Himasinka and Co, revealed discrepancies. The firm's proprietorship rubber stamp affixed on the account opening form (AOF) and other KYC documents (Rental agreement for address proof, learner's driving licence and VAT certificate towards proof of proprietorship firm) were in the name of 'R.A.Himatsingka and Co' and not as per the title of the account, 'R.A.Himasinka and Co'. The VAT certificate, held with AOF, and the PAN details mentioned on the AOF were found to be invalid. Further, during the fresh field verification, it was found that the firm was not existing at the given address. Scrutiny of statement of account and other records relating to this current account, it was observed that four demand drafts/bank's cheques issued by Andhra Bank and Bank of India, aggregating to Rs. 1,36,97,055, favouring 'R.A.Himatsingka and Co' towards loan disbursement were wrongly collected through current account, 'R.A.Himasinka and Co'. Subsequently, both Andhra bank and Bank of India, have submitted letters to the Bank stating that they have no claim against the Bank as their borrowers have repaid their dues. Lapses were observed on part of the staff for being negligent during onboarding of current account of R.A.Himasinka and Co and for collection of other banks demand drafts in the third party account. Root Cause: Failure of the staff to adhere to extent guidelines on onboarding of current account and for collection of demand drafts. Actions recommended / taken: i. Rs. 193.70 lakhs is probable loss to the Bank, hence a provision for the loss</p>

121	Case of Fake Title Deeds by Rajiv Jain	27.33	Gist of the case: Mr. Ankush Suri, an imposter, posing as son of Mrs. Satya Suri (owner of a plot of land) executed a agreement to sale with Mr. Rajiv Jain, borrower, on the basis of a registered landed property transfer deed, purportedly executed by Mrs. Satya Suri in favour of Mr. Ankush Suri. The purchaser of the plot, Mr. Rajiv Jain availed home loan from the Bank for purchase of the said property, located at Gurgaon, Haryana and construction thereupon. Findings: Home loan was sanctioned to the borrower, Mr. Rajiv Jain in November 2019 as per product / policy guidelines of the Bank. The loan amount for purchase of the landed property was disbursed in favour of Mr. Ankush Suri, purported owner of the property and part to Mr. Rajiv Jain for initiating construction. The loan amount for construction of house was to be disbursed in stages. It transpired that the landed property financed by the Bank was owned by Mrs. Satya Suri; however, one Mr. Ankush Suri had got executed a landed property transfer deed in favour of himself, where an unknown person had posed as Mrs. Satya Suri as the owner of the property. Based on this transfer deed, Mr. Ankush Suri, imposing as a son of the property owner Mrs. Satya Suri, entered into an agreement to sale for the landed property with Mr. Rajiv Jain, borrower. The loan amount for purchase of property was disbursed was remitted to the purported seller, Mr. Ankush Suri's, account with other bank, which was withdrawn immediately. Subsequently, actual owner of the landed property Mrs. Satya Suri approached the Bank and stated that she had not executed any transfer deed in favour of Mr. Ankush Suri and that she does not know him. The borrower after learning the fact related to the landed property had stop paying EMIs and the account has turned NPA. 123	Case of Cheating and forgery by Mr. Akash Gupta and 1 Other	26.28	The builder, M/s. Biodiversity Conservation (India) Pvt Ltd sold both flats to third party without any intimation to Bank and the borrower. Mr Akash Gupta, availed 2 home loans for purchase of properties consisting of two flats from the builder, M/s. Biodiversity Conservation (India) Pvt Ltd (BCIL) and a villa from builder, M/s. BCIL Red Earth India Pvt Ltd. (M/s Biodiversity Conservation (India) Pvt Ltd being parent company). Home loans of Rs 1.24 crore for purchase of two flats and Rs 1.39 crore for purchase of a villa were disbursed in July 2013 and August 2013 respectively and both the projects were covered under Approved Project Funding (APF) of the Bank. The two flats were unregistered properties. The borrower had stopped paying the EMIs and subsequently when Bank's team started following up for the repayment, the borrower provided a MoU executed between himself and the builder (BCIL Group). Upon review of the MoU, it transpired that the borrower had invested funds into the builders' projects, which were to be repaid with interest, where the part payment would be from the proceeds of home loans disbursed by the Bank. It thus, clearly indicates that the end use of the funds with respect to the home loans availed from Axis Bank was not ensured for the purpose for which they were granted. Further, the builder had sold both the unregistered flats to a third party without any intimation to Bank and the borrower. The said arrangement was not informed by both the parties to the Bank leading to breach of trust. The builder, M/s. Biodiversity Conservation (India) Pvt Ltd. sold both the flats to a third party violating tripartite agreement executed with Bank. The encumbrance check of other property, villa, financed by the Bank revealed no registration had taken place. The fraud has been perpetrated by both the parties wherein borrower colluded with builder and engaged raising funds by way of home loan from Axis bank. Action taken: (i) Staff lapses examination has been completed (ii) DRT proceeding against the borrower and builder has been initiated and OA filed on 12.11.2020 vide OA No. 1377/2020 (iii) Police complaint lodged at Halasuru Police Station on 16-06-2021.

			<p>borrower, the builder and the Bank. The mortgage in favour of the Bank was pending to be created on the property as the final sale deed was not executed between the builder and the borrower. It transpired that the builder had covertly sold the aforementioned financed flat allotted to Mr. Ravikumar Umashankar to Mr. Christopher Richard (another borrower of the Bank) without intimation to the Bank. The account of the borrower, Mr. Ravikumar Umashankar had slipped into a NPA as the borrower had stopped paying the EMI instalments. The borrower, Mr. Umashankar Ravikumar had filed a police complaint against the Builder. The builder has stated that that cancellation of Agreement to Sale was done on the request of the borrower, Mr. Ravikumar Umashankar and amount paid by the borrower was refunded to him; however the builder could not provide any evidence to that effect. The borrower, Mr. Ravikumar Umashankar is reported to be absconding and not contactable. Action Taken: Police complaint lodged at Whitefield police Station on 16-06-2021. 125	Case of Cheating and forgery by Mr. Moorthy Elumalai and 1 Other	25.95	<p>The borrower, Mr. Moorthy Elumalai and co-borrower, Mrs. V Lakshmi, existing customer of the Bank, had availed a loan against property (LAP) of Rs.259.51 lakhs as a balance transfer of an existing loan of the borrower with M/s. Religare Finvest Ltd.(RFL) The KYC documents of the borrowers were found to be in order and the loan was sanctioned and disbursed as per product / policy guidelines of the Bank. As per balance transfer process, the disbursal proceeds pay order was issued in favour of the loan account of the borrower with RFL. The documents were not immediately delivered by RFL. Subsequently, the borrower had covertly collected the title documents from RFL without knowledge of Bank. The borrower got the charge of RFL removed from the property. It was further identified that the borrower had created charge of another bank for credit facility availed from them on same property in July 2017 (as per encumbrance certificate obtained by Axis Bank). During September 2017, borrower, Mr. Moorthy Elumalai had sent title documents to the Bank (which are suspected as fabricated) and never turned-up for creation of mortgage charge on the property in favour of Axis Bank. The loan account turned NPA in December 2020. Presently, borrower Mr. Moorthy Elumalai and co-borrower, Mrs. V Lakshmi are not contactable and as per visit of Bank's collection team at their parental residence, it was reported that Mr. Moorthy Elumalai was in jail for unknown offences. 			<p>After the borrower started defaulting on EMI payments, Bank conducted verification of the properties financed. It came to the notice of the Bank that the borrower had covertly entered into a development agreement with M/s. CMRS Builders, Bengaluru for construction of residential flats on the plot secured to the Bank without permission and NOC of the Bank. The builder had constructed a building consisting of nine flats on the plot along with commercial space on ground floor and the flats were sold to different buyers. The commercial space is occupied by the builder. The borrower had also availed a second housing loan for purchase of flat at other location, Pijore Panchkula Haryana. The borrower had occupied this residential flat financed by Bank in Pinjore Panchkula. Action Taken i. Legal action has been initiated through SARFAESI and symbolic possession of the litigated property has been taken by the Bank. ii. 127	Case of Cheating and forgery by Mr. Shaileshkumar Ishwarbhai Patel and 2 Others	12.51	<p>Home loan of Rs. 125.13 lacs was disbursed to, Mr. Shaileshkumar Ishwarbhai Patel, borrower and Ms. Dakshaben Shailesh Kumar Patel, co-borrower on 04.07.2017 for purchase (resale) of flat from Mr. Praful Jadhav (seller). As the borrower was irregular in repayment of instalments, the loan account turned NPA and the Bank, thereafter, served notice under SARFAESI Act to the borrower. In response to the said Notice, the occupant of the property, Mr. Pankaj Bafna, submitted a letter to the Bank claiming to be rightful owner of the property. Based on this letter the matter was investigated. The borrower had submitted a registered agreement to sale between seller and the borrowers, agreement to sale between the builder and seller and NOC of the Cooperative Housing Society. As the NOC of the housing society was obtained, Bank did not undertook title search of the property in the Government records. It transpired that after availing loan amount, borrower and seller covertly cancelled the registered agreement to sale without knowledge of the Bank. The NOC of the Housing Society submitted was also found to be fabricated. Post receipt of complaint from occupant of property, Bank undertook title search of the property and it was revealed that the flat was already sold to a third party i.e. Mr. Pankaj Bafna, by the seller, Mr. Praful Jadhav, prior to the agreement to sale with our borrower/co-borrower. It also transpired that the current occupant (Mr. Pankaj Bafna) had purchased (resale) flat from Mr. Praful Jadhav, and the loan of Mr. Praful Jadhav with other financial was transferred (balance transfer) to Mr. Pankaj Bafna. Hence, the agreement to sale between the builder and seller, Mr. Praful Jadhav, submitted to the Bank during availing loan by the Bank's borrowers, Mr. Shaileshkumar Ishwarbhai Patel and Ms. Dakshaben Shaileshkumar was suspected to be fabricated. The above findings indicates collusion between the borrower and the seller to defraud the Bank. Action Taken: - Police complaint lodged with DCP zone 5 Wagle Estate Thane on 21-06-2021.</p>

			<p>Vishnubhai Patel and Mr. Vipulbhai Vishnubhai Patel, partners of borrower M/s. Shree Vimal Cold Storage. All these thirteen loans of 9 borrowers were sanctioned and disbursed as per Bank's policy. Subsequently, all these loan accounts turned into NPA and the Bank initiated legal proceedings against all these borrowers and took physical possession of the property/ collateral security under SARFAESI Act. Further, auction of the property was also initiated. The borrowers approached Debt Recovery Tribunal (DRT), Ahmedabad for a stay order on the auction sale; however DRT did not grant stay order to them. The Bank thereafter, conducted an e-auction of the collateral security and sale certificate was issued to the highest bidder as per auction policy of the Bank. However, when Bank and the bidder / Buyer approached the sub registrar office for registration of sale certificate/ sale deed, it transpired that the mortgaged property was clandestinely sold to a third party by the borrowers, post e-auction, despite property being mortgaged with the bank. Further, DRT Ahmedabad afforded the judgement in favour of the bank. The Bank had received the amount finalised in the bidding process and thereafter, had registered the property in the name of bidder. The amount received has been apportioned towards outstanding dues with the Bank. Action Taken 1. FIR against borrower Mr. Sureshbhai Vishnubhai Patel and Mr. Vipulbhai Vishnubhai Patel has been filed as per instructions from DRT. 2. DRT has given judgement in favour of the Bank. 3. Examination of staff accountability has been completed.</p>
129	Case of Clandestine selling off of hypothecated/mortgaged security by Mr. N. Raja Mohammed and 1 Other	14.65	<p>The borrower Mr. N. Raja Mohammed and Co-borrower Mrs. Noorjahan R (spouse), availed home loan (Balance Transfer). The loan was sanctioned towards takeover of borrower's dues with other financial institution, M/s. Cholamandalam Investment and Finance Company Limited. The foreclosure and settlement amount of CIFCL identified was Rs.185.87 lakhs which was to be settled through disbursement of loan of Rs.144.87 lakhs and Rs.41 lakhs was borrower's own contribution. The borrower defaulted on loan repayment and Bank started following up for recovery, during which Bank identified that the borrower had surreptitiously sold off the mortgaged property to a third party. A loan of Rs.146.50 lakhs was sanctioned as per the Bank's policy which included payment of insurance premium amount and other charges. Further, as per mutual consent the customer agreed to remit the remaining amount of Rs.41 lakhs to CIFCL towards pre-closure of the loan outstanding with them. Accordingly, a demand draft for Rs.144.87 lakhs, as a loan amount, and a cheque for Rs.41 lakhs (being his contribution) drawn by the borrower was handed over to CIFCL. Subsequently, the cheque of Rs.41 lakhs returned unpaid due to which CIFCL did not release the title deeds of the borrower. The Bank then initiated legal action in the Debt Recovery Tribunal (DRT), Madurai against the borrower for recovery of dues and also made CIFCL as a party. During the recovery process, it was then identified that the borrower had paid off outstanding loan amount with CIFCL and took custody of the original title deeds without informing the Bank. It further transpired that the borrower had thereafter sold off the financed property to a third party without the</p>

130	Case of Multiple Sale By Builder(s) by M/s. Golden Gate Properties Ltd. and 2 Others	14.80	Gist of the Case: Mr. V. Ravi Chandra, borrower and Ms. Mamta Shri, co-borrower had availed two home loans for purchase of two under-construction flats in an approved project of the builder M/s. Golden Gate Properties Ltd. at Bengaluru. Also, a third home loan was availed by them for purchase of plot and construction of a house thereon. As the borrower had stopped paying EMI, the account turned NPA. The borrower, Mr. V. Ravi Chandra, was employed at a senior position with M/s. Prisha Properties India Pvt. Ltd. (a group company of builder, M/s. Golden Gate Properties Ltd.). The KYC and other loan documents were found in order and all three loans were sanctioned as per product / policy guidelines of the Bank. The first two home loans were disbursed based on flats allotment letters issued by the builder, NOC of HDFC Ltd. (as project was financed by them), sale agreement between borrower and builder and tripartite agreement among borrower, builder and Bank. An aggregate amount of Rs.148.00 lakhs was disbursed as per the stage of constructions and purchase of plot. After borrower's default in EMI repayment, it came to notice of the Bank that the services of the borrower was terminated by the builder, which was not informed to the bank. Further, the builder had covertly sold both the flats, allotted to the borrower which were financed by the Bank, to the third parties without the knowledge of the Bank. Hence, it is suspected that borrower and builder, in connivance with each other, availed loans to defraud the bank. Since the final sale deed was not executed, hence a charge of mortgage could not be created by the Bank for two flats. The mortgage charge was created for the third property and the process of recovery through auction has been initiated by the Bank. The borrower is presently not contactable and his whereabouts are not known to the Bank. Action Taken: (i) Proceedings under DRT have been initiated by the Bank. (ii) Police complaint filed at kodgehalli Police Station on 21-06-2021.
131	Case of Multiple Sale By Builder(s) by M/s. Landmark Housing Projects Chennai Private Limited	40.33	Gist of the case: Borrower, Mr. Vipul Mehta and Mr. Hemant Mehta had availed home loan for purchase of a under construction residential apartment in an approved APF project 'Vertica' situated at Gopalapuram, Chennai from the builder M/s. Landmark Housing Projects Chennai Private Limited. The loan documents and other documents of the borrower were found to be in order and the home loan was sanctioned as per Bank's policy and guidelines. Since the flat was under-construction, builder and borrower executed an agreement of sale and a tri-partite agreement was executed between borrower, builder and Bank at the time of disbursement of the loan. The borrower stopped had stopped paying EMI since December 2020 and the account turned NPA. The Bank's collection team visited the borrower for recovery of the loan post which they ascertained that the borrower had filed an FIR against the builder for covertly selling the flat to a third party. The encumbrance certificate of the flat reflects that the builder had sold the flat which was financed by the Bank to a third party in June 2017 without intimation to Bank. Action Taken: - Police

132	Case of Clandestine selling off of hypothecated/mortgaged security by Ms. Shivani Puri and 4 Others	40.00	A home loan of Rs.400.00 lakhs was sanctioned to Mr. Rahul Puri, Ms. Shivani Puri, Ms. Tripta Puri, Mr. Rajiv Puri and Edit Factory (Partnership firm) for purchase a new house property (Ground plus 2 floors) situated at Safdarganj Encalve Delhi. The loan was disbursed on 27.12.2006 and the borrower had repaid the loan instalments September 2020 which were stopped subsequently. Visits by the Bank's team were paid at the residential and business addresses of borrowers which revealed that the premises were locked and neighbours were unaware about the present whereabouts of the borrowers. Further, a visit was also done at the mortgaged property and it was found that the property was occupied by third parties. There was no deficiency in sanction and disbursement of the loan. The property was in the name of Mrs. Shivani Puri and Mrs. Tripta Puri and they had deposited title deed (Sale Deed) of the entire property with the Bank towards security of the loan facility. A power of attorney was given by the borrowers in the name of the Bank which specified that the Bank can create the mortgage of the property in its name and in its nominees name and can register the property in the land registry or Municipal records. Post account becoming delinquent, the Bank's Collection Team found that the property was in possession of third parties and also borrowers were untraceable and not contactable. Fresh search report of the property was carried out which revealed that the entire property was sold to third parties. It was also found that the third floor was constructed subsequent to the sanction of the loan and that too was also sold. Borrowers, vide execution of loan agreement have provided undertaking that during the tenure of the loan agreement they would not part with possession or create third party rights on the property or any part of it (whether by way of sale, exchange, lease, mortgage, agreement, or option or otherwise). The borrowers had contravened the agreed terms of sanction by creation of third party interest and therefore committed the act of fraud. Root cause: Covert sale of property funded by the bank, without any intimation to the Bank by the borrowers. Action Taken/Proposed: (1) 100% provision has been done, (2) Police complaint filed at Economic Offences wing Mandir Marg Police Station, New Delhi on 01-07-2021.

Mr. Tapan Mukesh Shah is son of the Co-borrowers. The loan was sanctioned and disbursed as per product / policy guidelines of the Bank. As per process the loan documents were executed by the borrower and both Co-borrowers of the loan. Further, the legal report, obtained at the time of sanction, stated that a valid mortgage can be created by the co-borrowers (owners of the property). The title deeds of the properties were deposited with the Bank and a charge of equitable mortgage was created in respect of both the properties. The loan documents were not executed in front of the Bank's staff. Subsequently when the account turned irregular and the Bank contacted the Co-borrower Mr. Mukesh Jayantilal Shah

			<p>aggregate credit limit of Rs.2.55 lakhs. The usage of cards was found to be in order till October, 2020. Mrs. Vidya Madhavrav Ugle was also issued two credit cards with a credit limit of Rs.0.45 lakh each. On 09.11.2020, Mr. Madhavrao Manikrav Ugle lodged a cheque of Rs.1.50 lakhs in clearing, towards repayment of his credit card dues of Rs.2.55 lakhs (same as the card limit). After lodgment of the cheque, the customer was sent SMS alert, as a service gesture, on his registered mobile number about receipt of payment of Rs.1.50 lakhs in his credit card account and available limit is restored to the extent of Rs.1.50 lakhs, which should not have been available till the clearance of the said cheque. Post receipt of this message, the customer executed transactions on his credit card to the extent of restored limit, even though the cheque was not cleared. The cheque had subsequently returned unpaid on same day and was debited to the card account leading to overdrawn of his credit card limit. The customers realizing this, have taken advantage of availability of card limits during intermittent period (between processing of credit of cheque and debiting post it is returned unpaid during day) for several times. Preliminary Investigation identified vulnerabilities in process relating to repayment of credit card dues through cheques, as the customers, Mr. Madhavrav Manikrav Ugle and Mrs. Vidya Madhavrav Ugle were able to transact beyond approved limits by lodging cheques with higher amounts (over and above credit card dues and sanctioned limit) in their respective card accounts and, as there was a time gap available between posting of credit / debit transactions for cheques deposited and returned unpaid during the day. The customers have also converted their credit card purchase transactions and balances into EMIs' leading to outstanding dues getting reflected in the credit card statement to the extent of billed EMIs only, instead of total outstanding. The transactions through these three credit cards were undertaken with several merchants; but majority transactions were executed through M/s. Badshah Enterprises run by Mr. Khadarbasha Shaikh, which was apparently found to be facilitating routing of transactions. Root Cause: A window was available between posting of credit / debit leg of the returned cheques that led to release of the limit equivalent to the cheque deposited (but not cleared). The limit available during the short duration was misused by the customers. Action taken/being initiated: FIR has been filed at Rabale Police Station, Navi Mumbai on 13.07.21 in the matter. Examination of Staff accountability has been completed. Recovery proceedings have been initiated. The discrepancy in process relating to repayment of credit card dues repayment through cheques has been rectified.</p>

			<p>Bank of India, Yes Bank, Kotak Mahindra Bank and Standard Chartered Bank. GISL had also availed unsecured loans from HSBC, Citi Bank and other few financial institutions, outside the consortium arrangement. Total borrowings outside consortium was Rs.68.00 crore. Axis Bank sanctioned working capital limits of Rs.75.00 crore to GISL in 2011. The limits were subsequently reduced to Rs.40.00 crore as per the limit allocation by the Lead Bank. Resolution and Recovery In view of financial stress of the borrower, 4 consortium member banks (ICICI Bank, IDBI Bank, SBI and Axis Bank) permitted restructuring of their limits under bilateral terms in FY 2015. Axis Bank had implemented the restructuring on 20.12.2014, with a cut-off date of 01.04.2014. The company continued to face liquidity issues post restructuring and was classified as NPA by Axis Bank on 29.07.2016. The advances were recalled by Axis Bank vide notice dated 28.12.2016. ICICI Bank has filed a recovery suit against the borrower and guarantors before DRT Jabalpur in May 2017, on behalf of the consortium. The borrower was admitted for insolvency proceedings vide NCLT order dated 20.07.2017. Total claims of Rs.456.09 crore from secured financial creditors have been admitted by NCLT, including Axis Bank's claims of Rs.46.95 crore. The Resolution Professional (RP), Mr. Naveen Kumar Sood, filed a liquidation report with NCLT after expiry of extended CIRP period on 16.04.2019. NCLT, vide its order dated 08.11.2019, directed the COC to re-look the resolution proposal submitted by erstwhile promoter (Mr. C.E. Fernandes), provided it does not hit the provisions of Section 29A and provisions of IBC. The matter was discussed in COC meeting held on 10.02.2020 wherein ineligibility of Resolution Applicant (RA) was discussed and it was decided to refer the matter to NCLT. However, the RA (Mr. C.E. Fernandes) had withdrawn their resolution plan on 12.06.2020. The withdrawal of resolution plan by the RA was discussed in COC meeting held on 16.06.2020 wherein the COC requested RP to submit a report with NCLT requesting expeditious disposal of the case since a considerable time had already been lost post completion of CIRP period. The NCLT vide its order dated 20.08.2020 directed the RA to approach RP and COC with their resolution plan. However, the RA (Mr. C.E. Fernandes) filed an appeal before NCLAT challenging NCLT order dated 20.08.2020. The outcome of appeal filed, under NCLAT, by the RA is awaited. RFA Classification Axis Bank classified the borrower as Red-Flagged Account (RFA) on 15.06.2021 on the basis of adverse observations in the forensic audit report. Group Exposure Axis Bank do not have any exposure in group companies of GISL. Forensic Audit IDBI Bank appointed P V R and Associates on 23.09.2018 to conduct forensic audit of the borrower, covering review period from 01.10.2013 to 19.07.2017. A draft forensic audit report was submitted on 30.12.2020. A lenders' meeting was held on 16.03.2021 to discuss the report, wherein the forensic auditor was advised to send a letter to the company/ promoters, detailing findings of forensic audit and requesting them to submit clarification within 15 days. Accordingly, the forensic auditor sent mail dated 17.03.2021 to the borrower, seeking clarification. After several reminders,</p>

			<p>response was received from the promoters on 29.05.2021. In lenders meeting held on 02.06.2021, forensic auditors advised that the response given by promoters did not address the forensic audit findings. The final forensic audit report, incorporating the management responses, was received by the Bank on 16.06.2021. Key findings of the forensic audit are as under: i) Amount of work in progress inventory was inflated by Rs.102.80 crore in the balance sheet, which was written off in FY 2018. ii) Inter-party adjustment entries of Rs.46.33 crore were passed to nullify balances of various parties without any supporting documents. iii) Expired work orders of Rs.112.26 crore were shown in stock statements as work in progress. iv) While the borrower claimed that a fire occurred in its IT server room shortly after the appointment of forensic auditor, supporting documents like surveyor report, insurance document, FIR and police inquiry status were not submitted. Lenders Decision The final forensic audit findings were discussed in joint lenders meeting held on 09.06.2021. i) The forensic audit report points towards misrepresentation of Financial Statement/ Stock Statement with excess credit facilities being availed based on fictitious work-in-progress, etc. and concludes that the company had committed fraud with bankers as per RBI guidelines. ii) Lenders also took cognizance of additional clarifications provided by Mr. Fernandes, Director, vide email dated 07.06.2021. iii) Lenders were of the view that the account is fit to be declared as Fraud. iv) As the date of occurrence of fraud had not been specifically mentioned in the forensic audit report, lenders decided to consider 01.04.2013 as the date of occurrence. Conclusion Axis Bank classified the borrower as 'Fraud', based on adverse observations in the forensic audit report and consensus decision by lenders to classify the borrower as 'Fraud'. Action Taken / Proposed i) The Bank will continue suitable course of recovery. ii) The Bank informed lenders about classification of fraud by our Bank vide mail dated 14.07.2021 and also requested IDBI Bank to lodge a complaint with CBI. iii) The fraud has been reported to the Special Committee for Monitoring of Large Value Frauds. iv) The exposure has been prudentially written-off.</p>

139	Case of Fabricated / Inflated Stock / Book Debt Statements by IMECO Limited	354.80	<p>Background: IMECO Limited (IL) was engaged in manufacturing of pollution control equipment and medium/heavy fabrication products like electrostatic precipitators, industrial fans, industrial heat exchangers, cold formed products, compressor and pneumatic, locomotive spares, etc. Banking Arrangement: IL availed credit facilities aggregating Rs.80.93 crore from a consortium of 2 lenders - Axis Bank (lead bank) and State Bank of India (SBI). The company originally availed working capital limits from SBI for its Engineering Division. Axis Bank sanctioned working capital limits of Rs.25 crore in November 2007 for operations of the newly formed Railway Division. Resolution and Recovery: Credit facilities sanctioned by Axis Bank were restructured in April 2012 based on bilateral terms. As part of the restructuring scheme: i) Outstanding under CC/invoked BG/devolved LC aggregating Rs.23.83 crore was converted into WCTL. ii) FITL limit of Rs.7.24 crore was sanctioned for funding interest for the period from April 2012 to June 2014. iii) Fresh CC limit of Rs.5.10 crore was sanctioned and existing LC/BG limit was continued at reduced level of Rs.0.73 crore. SBI also approved restructuring of its limits in October 2012. However, the scheme was implemented only in March 2013. The borrower continued to face liquidity constraint post restructuring, due to low capacity utilization and non-recovery of dues from Bharat Earth Movers Limited (BEML) for its Railways Division. Notice u/s. 13(2) of the SARFAESI Act, 2002 dated 10.05.2016 was sent to the borrower, its directors and owners of collateral. A suit was filed against the borrower in DRT, Kolkata on 04.07.2016. The borrower was admitted for insolvency process vide NCLT order dated 29.08.2019. Total claims of Rs.80.93 crore from financial creditors, including Rs.63.80 crore from Axis Bank, have been admitted under CIRP. RFA Classification: Axis Bank classified the borrower as Red-Flagged Account (RFA) on 28.01.2021 on the basis of discrepancies regarding ownership of a property exclusively charged to the Bank. Group Exposure: Axis Bank do not have any exposure in group companies of IL. Forensic Audit: Post RFA classification, Axis Bank regularly followed up with SBI for holding a meeting to discuss appointment of a forensic auditor. However, SBI decided not to participate in forensic audit. Subsequently, Axis Bank appointed Kansal Singla and Associates on 31.03.2021 to conduct forensic audit of the borrower with review period from 01.04.2007 to 31.03.2020. The borrower did not cooperate in the forensic audit and there was substantial delay in sharing of information with the auditor. The forensic auditor shared a draft report in June 2021, which was inconclusive. The Bank shared the observations of the draft forensic audit report with the borrower and Resolution Professional and sought clarifications / responses on the same on 09.06.2021. The borrower has provided certain clarifications on 08.07.2021 and 09.07.2021. The final forensic audit report, incorporating the responses from the borrower, was received on 14.07.2021. Key findings were as below: i) Inclusion of non-moving / slow-moving inventory of Rs.14.37 crore and non-disclosure of trade payables of Rs.15.10 crore in the stock statement for March 2016, resulting in excess drawing power availed from the Bank. ii) Over valuation of inventory as on 31.03.2019 (Fair market value and liquidation value was estimated at Rs.0.84 crore and Rs.0.21 crore, respectively, as against value of Rs.6.77 crore disclosed in audited financials of FY 2019). iii) Borrower maintained current accounts with non-lending banks, through which receivables of Rs.7.35 crore were routed during the period from FY 2015 to FY 2020. Conclusion: Axis Bank classified the borrower as 'Fraud', based on the adverse observations in the forensic audit report regarding inflated stock statements. Action Taken / Proposed: i) Legal recourse for recovery has been initiated by the Bank. ii) Police complaint filed with Joint Commissioner Police Kolkata police headquarters on 02-09-2021. iii) The fraud has been reported to the Special Committee for Monitoring of Large Value Frauds. iv) The exposure has been prudentially written-off.</p>

As per claims admitted from financial creditors under CIRP as at 08.03.2019, RSIL availed credit facilities of Rs.5853.09 crore from 28 lenders under multiple banking arrangement as on 08.03.2019. As per claims admitted under CIRP, Asset Reconstruction Company India Limited (ARCIL) was the largest lender to the company. ARCIL sold its exposure to CFM Asset Reconstruction Company Private Limited on 23.04.2021. Axis Bank initially sanctioned working capital limits of Rs.20 crore to the company in 2007. Subsequently in 2008, working capital limits were enhanced to Rs.50 crore and fresh project finding limits of Rs.95 crore (RTL and Capex LC/LOU/Line of Credit) were sanctioned for part funding of plating line, chain link and welded mesh and steel fibre facilities at Unit-V of RSIL. Subsequently in 2009, WC limits of Rs.50 crore were converted into a Short Term Loan (STL) and a Funded Interest Term Loan (FITL) of Rs.4.70 crore was sanctioned for funding interest of the STL from April 2009 to December 2009. The STL and FITL were repaid and closed in June 2010. In August 2010, Axis Bank sanctioned a STL of Rs.55 crore for a period of three months for meeting temporary cash flow mismatches. NPA and Recovery Action: The borrower was classified as NPA by Axis Bank on 24.11.2010. Notice under section 13(2) of SARFAESI Act was issued by Axis Bank on 17.07.2015. The borrower was admitted for insolvency proceedings vide NCLT order dated 08.01.2018. A resolution plan submitted by a consortium of two resolution applicants (namely, S.S. Natural Resources Limited and Shyam SEL and Power Limited) was approved by NCLT vide order dated 04.09.2019. The resolution applicants challenged the said order in National Company Law Appellate Tribunal (NCLAT). NCLAT issued an order in February 2021 directing implementation of the resolution plan. Subsequently, the resolution applicants appealed against the said order before Supreme Court, who dismissed the petition on 04.05.2021. Group Exposure: Axis Bank does not have exposure in group entities of RSIL. RFA Classification: The borrower was classified as RFA by Axis Bank on 28.01.2021, based on the following EWS alert: Fraud classification by United Bank of India and Bank of India. Status with other lenders: As per CRILC data, the borrower was reported as 'Fraud' by United Bank of India (UBI, subsequently merged with PNB) on 02.05.2014 (which was reported in CRILC only on 13.02.2020). Axis Bank followed up with UBI to ascertain reasons for the same. However, no details were shared by UBI. As per submission of UBI to Centralized Fraud Registry (CFR) and its FIR filed with CBI, the following key findings were noted: i. Diversion of funds amounting to Rs.130.95 crore to a related party concern, RAV Dravya Private Limited from United Bank of India. As per submissions to CFR by ICICI Bank, it is understood that a stay order on the CBI proceedings was granted by Calcutta High Court in July 2018 and the order is still in force. As for CFR submissions, the borrower has been classified as 'Fraud' by Bank of India (BOI) and ICICI Bank on the basis of 'Fraud'</p>

141	Case of Misappropriation and criminal breach of trust by Subham Das	11.02	<p>Khanapara Branch, Guwahati received complaint from multiple customers alleging non-deposit of cash in their accounts and fraudulent debits in their account. Mr. Subham Das, was working as sales manager at our Khanapara branch. It transpired that, Mr. Subham Das, over the period of 14 months, had collected an aggregate amount of Rs.102.62 lakhs from the customers; however, did not deposit the cash in customers' account on the same day and misappropriated the same. He later on deposited the amount in the customers' account with substantial delay. Further, Mr. Subham Das also carried out fraudulent debits, aggregating to Rs.3.78 lakhs in the customers' account towards investment in insurance products without knowledge/consent of customers, by forging their signatures to achieve his business targets. It was also noted that, Mr. Subham Das, had fraudulently opened a Current Account in the name of one of the customer by using the KYC documents of customer's existing Savings Bank account, by forging customer's signatures. Mr. Subham Das, was able to link the fraudulently opened current account with all the existing accounts of the customer. Mr. Subham Das, then availed overdraft facility through online mode by pledging the customer's existing term deposits and transferred the amount in fraudulent current account. He had also transferred the amount online from customer's existing saving bank account to fraudulent current account and thereafter, both the transferred amounts, aggregating to Rs.3.30 lakhs, were withdrawn in cash through cheque by forging customer's signature. Additionally, he had also duped another customer by gaining access to customers debit card details and changing mobile number in the account and effected fraudulent transactions aggregating to Rs.0.49 lakh in customer's account. Mr. Subham Das, had also issued fabricated statement of accounts to customers to mislead them about the existing balances in the account. Mr. Subham</p>

142	Case of Fake Title Deeds by Ashwani Kumar Sharma & Shweta Sharma	27.32	<p>Borrowers, Mr. Ashwani Kumar Sharma and Ms. Shweta Sharma were sanctioned and disbursed two home loans aggregating to Rs.273.19 lakhs during October 2017 and November 2019. In respect of home loan disbursed during October 2017 for purchase of a plot located at Dwarka, New Delhi and construction thereupon, Bank had received a legal notice from Ms. Poonam Batra and Mr. Rakesh Batra stating that the land property belongs to them as the original documents related to the property were in their possession and they were not aware of borrowers, Mr. Ashwani Kumar Sharma and Ms. Shweta Sharma. As per the documents held with Bank, the property was sold by one Mr. Pawan Kumar Garg to Mr. Ashwani Kumar Sharma during October 2017. Mr. Pawan Kumar Garg (seller) was owner of the property as per the conveyance deed executed during May 2005 by Delhi Development Authority (DDA). The complainant Mr. Rakesh Batra claimed that he had acquired the mentioned property in November 2005 from Mr. Pawan Kumar Garg. During March 2006, he sold the property to Mr. Harjit Singh who had finally sold it to Ms. Poonam Batra (wife of Rakesh Batra) in September 2019. The details provided by the complainant were matching with the Government records. This fact was not verified by the Bank's legal firm, while providing the title certificate during sanction of loan to the borrowers. The photograph and signature of seller Mr. Pawan Kumar Garg on the conveyance deed executed during May 2005 and as per sale deed executed with borrower, Mr. Ashwani Kumar Sharma during October 2017 were not matching. The seller was not available at the address as per records with Bank. Hence, it is suspected that the sale deed executed with borrower was by a person with fake identity. The documents related to other another housing loan disbursed to the borrowers, Mr. Ashwani Kumar Sharma and Ms. Shweta Sharma, for purchase of property located at Rohini, New Delhi from Mr. Sanjeev Kansal and Ms. Micky Rani during November 2019 were also scrutinized. The unregistered agreement for sale executed during October 2019 between Mr. Sanjay Bansal and Ms. Micky Rani (sellers) and borrowers, Mr. Ashwani Kumar Sharma and Ms. Shweta Sharma (purchasers) and conveyance deed executed in favour of Mr. Sanjeev Bansal and Ms. Micky Rani during December 2012 by Delhi Development Authority (DDA) were held on record. As per the Government records the property was transferred to Mr. Ravinder</p>

			<p>Singh Sejwal, Smt. Krishna Devi and Smt. Anita Devi during March 2013 by Mr. Sanjeev Bansal and Ms. Micky Rani, which was not verified by the Bank's legal firm while providing the title certificate during sanction of loan to borrowers. Further scrutiny of the documents revealed that signatures of sellers, Mr. Sanjeev Kansal and Ms. Micky Rani as per conveyance deed executed during December 2012 and as per agreement to sale executed with the borrowers during October 2019 were not matching. The photographs of sellers could not be verified as the copy of final sale deed and KYC of the sellers were not available. During field verification at the seller's address, the house was found to be locked and the neighbors did not confirm about identity of the sellers, Mr. Sanjeev Kansal and Ms. Micky Rani. Hence, it is noted that an unknown persons have impersonated themselves as sellers and have sold the properties to the borrower/s. The title clearance report provided by the Bank's empanelled legal firm at the time of sanction of loan was thus defective. Basis the findings, the case has been classified as Fraud. Action Taken: (i) Police complaint filed with Barakhamba Police Station on 24-09-2021 filed in the matter. (ii) Suitable action is being initiated against the legal advisors who had provided defective title clearance report. (iii) 100% provision has been made in the account.</p>

			<p>Bank, on behalf of the lenders, appointed T R Chadha and Co LLP on 20.04.2021 to conduct forensic audit of ASSBPL, with review period from 01.04.2018 to 31.03.2021. However, the borrower has not shared any data with the forensic auditor, in spite of multiple reminders from Kotak Mahindra Bank. Investigation by NSE and Declaration as Defaulter As per media reports, NSE received alert about an off-market transfer of securities by Arcadia during September- October 2020. In its offsite supervision, NSE found off-market transfer of securities worth Rs5.51 crore to clients' demat accounts without sufficient quantity of securities available in the client collateral account maintained by Arcadia on behalf of the clients. NSE asked Arcadia for clarification through 16 emails sent between September 2020 and December 2020. However, the company did not submit satisfactory response (on the grounds of COVID-19 pandemic and personal and family problems), despite several follow-ups by NSE. In the meantime, NSE received alert from depositories regarding invocation of pledged securities by banks from proprietary demat accounts of the company between October 2020 and December 2020 worth Rs20 crore. Officials of NSE visited the company's office three times in December 2020 and obtained relevant supporting documents. On review of said documents, NSE observed certain mismatches in the clients' fund balances between trial and client ledger balances. In view of aforementioned, NSE appointed KPMG for conducting forensic audit of the company, with a review period from 01.04.2018 to 08.02.2021. A preliminary analysis of the data submitted by KPMG revealed that there was a shortfall of clients' funds against non-related client payables for around 10,000 clients, as on 31.03.2020. NSE called Mr. Antony Sequeira, founder-promoter of ASSBPL, who promised to share the required information by 19.01.2021. In its email dated 20.01.2021, ASSBPL acknowledged shortfall of clients' funds of Rs. 37.92 crore as on 31.12.2020. Mr. Sequeira subsequently assured the NSE that the company would sell off their proprietary shares, currently pledged with banks, and utilise the proceeds to settle the client payables within 15 days' time. However, the same was not done. The company claimed to have paid Rs10.20 crore to about 360 creditors between 27.01.2021 and 02.02.2021, as against the client payable of Rs47.51 crore as of 31.12.2020. However, no documentary evidence for the payment was shared with NSE. NSE subsequently ordered to disable trading terminals of ASSBPL on 07.02.2021 and instructed the lenders to put a freeze on all bank accounts of the company. BSE issued similar order on 08.02.2021. A preliminary forensic audit report from KPMG, dated 12.04.2021, was shared with the lenders by NSE in May 2021. The key findings of the report dated 12.04.2021 are given below: i) The borrower had under-reported its clients' securities payable obligations to NSE by Rs.306.64 crore ii) The borrower underreported trade payables for potential connected parties by Rs.374.62 crore and non-related parties by Rs.149.78 crore. The borrower over-reported trade payables to related parties by Rs.7.71 crore iii) Funds available with the borrower, exchanges and clearing member was not sufficient to meet its payable obligation to clients iv) Related parties</p>

Lenders' Decision The final forensic audit findings were discussed in joint lenders meeting held on 24.08.2021: i) Certain concerns were raised by the lenders with respect to non-inclusion of SBI's limits in the forensic audit report, quantification of amount involved in the conclusion section of report, etc. ii) Forensic auditor informed that SBI's limits were not captured in the report since documents were not provided by SBI. Forensic auditor was instructed to capture exposure details of SBI in the report and quantify amount involved with respect to fraudulent observations in the report. iii) Axis Bank informed other lenders that they have recommended 'Fraud' classification in the account to the competent authority, based on adverse observations of forensic audit report. All lenders took cognizance of the same. Conclusion Axis Bank classified the borrower as 'Fraud', based on adverse observations related to circular and suspicious transactions in the forensic audit report. Action Taken / Proposed i) The Bank will continue suitable course of recovery. ii) The Bank will be lodging Police complaint against the company and its directors. iii) The fraud has been reported to the Special Committee for Monitoring of Large Value Frauds. iv) 100% provision has been made in the account.</p>
145	Case of Forged / Fabricated Financial Statements by ATCIndia Agro Private Limited	45.00	<p>ATCIndia Agro Private Limited (AAPL), incorporated in 2016, was engaged in trading of different varieties of rice like IR-36, Basmati, Minikit, Gobindabog etc. Banking Arrangement Axis Bank is the sole lender to the company. Axis Bank sanctioned cash credit facility of Rs.5 crore to AAPL in 2016. Resolution and Recovery The borrower was classified as NPA by Axis Bank on 05.03.2021. Legal action for recovery of dues is being initiated. RFA Classification Axis Bank classified the borrower as Red-Flagged Account (RFA) on 12.03.2021, based on the following EWS alerts: a) non-cooperation from the borrower and guarantor, b) irregularity in the account, and c) non-functional unit of borrower. Group Exposure Axis Bank has exposure in the following group entities of the borrower: ATC India Electronics Pvt Ltd (Rs.4.97 crore) and Tanushka Auto (Rs.1.75 crore). Investigation Findings i) On comparison of audited financial statements filed with Registrar of Companies (ROC) with audited financial statements submitted to the Bank for FY2017, discrepancies were observed. ii) Value of inventory and trade receivables were overstated and trade payables understated in the audited financials submitted to the Bank. iii) Drawing Power (DP) calculated based on the financials filed with ROC works out to Rs.2.64 crore, compared to DP of Rs.5 crore availed by the company for March 2017. Further, the DP of Rs.2.64 crore was not adequate to cover the outstanding in CC account as at 31.03.2017. iv) From the aforementioned, it is evident that the borrower had misrepresented in audited financials for FY2017 submitted to the Bank for availing higher DP. The Bank sent a mail to the borrower on 10.08.2021 for submitting clarification/responses on the adverse observations of internal investigation. No response was received from the borrower. The Circle Head, Chennai Circle, was informed by a relative of the Branch Operations Head that there was a major cash shortage at the Branch.</p> <p>The Branch Bank Operations team, Andhra Circle verified the physical vault cash of the Branch and post verification of the Branch vault cash, a physical cash shortage of Rs. 118.37 lacs was identified. Investigations revealed that vault cash was mis-utilised by Mellaki Pushpa Raju, the Branch Head, in connivance with P. Rama Lavanya, the Operations Head and M. Venkata Kiran, the Teller. During investigation, the Branch Operations Head admitted that the vault cash was used by her for personal purposes to the extent of Rs.30 lacs. She accused the Branch Head of misappropriating the remaining cash, which the Branch Head denied. The Teller informed that the cash shortage issue was prevalent since June, 2020 as he had handed over cash from Teller Counter/ Vault to the Branch Operations Head at the verbal instructions of the Branch Head, from time to time. The Branch Operations Head indicated that the Branch Head started it in order to scale up the CASA deposits where cash from the vault was used to fund few Savings Bank accounts. The cash withdrawn from the vault was routed through certain accounts with the Branch initially to artificially inflate the branch CASA balances to project higher business performance but was misused subsequently. Funds were also found to be routed through accounts of the wife of the Branch Head and mother of the Operations Head. The Operations Head was also found involved in theft of cash as revealed during investigation on 2 occasions in the month of June 2021. Staff accountability has been identified against the Branch Head, Branch Operations Head and Teller who are already placed under suspension. Lapses have also been attributed to 2 more staff in addition the Cluster Head and Cluster Operations head for supervisory failure.</p> <p>An amount of Rs.15 has been kept under lien in the savings bank account of the Branch Operations Head. An FIR has been filed with the Chodavaram, Vishakhapatnam Rural, Police Station. Recovery efforts are underway.</p>

149	Case of Staff - Embezzlement of Cash by Suman Tarafder	13.88	<p>Kalyani Branch, had received 42 complaints from 35 customers against Mr. Suman Tarafder, Branch Sales Officer, alleging misappropriation of cash, misuse of credit cards / loans and transfer of funds under the pretext of offering investments fetching higher returns. Investigation revealed that Mr. Suman Tarafder was a one-point contact for multiple customers of the Branch and thereby gained their confidence. Over the period of time, he had collected cash, aggregating to Rs.49.15 lakhs, from 28 prospective customers for account opening, deposit in customers account and creation of fixed deposit. However, the funds were misappropriated by Mr. Suman Tarafder. On scrutiny it was observed that, the Mr. Suman Tarafder had provided cash acknowledgement slips duly signed / stamped to 19 customers aggregating to Rs.42.51 lakhs. The remaining complainants could not provide proper acknowledgement of having given cash to Mr. Suman Tarafder. In case of one another complainant, the customer herself had transferred an amount of Rs.0.75 lakh through NEFT to the other bank account of staff, allegedly for opening of her account with Axis Bank. It was also observed that the staff had also misused the credit cards/debit card of 7 other customers for amount aggregating to Rs.3.10 lakhs, wherein the customers have allegedly compromised the confidential details of their cards viz. PIN/OTP with Mr. Suman Tarafder. It was also revealed from the complaints that pre-approved insta loans, aggregating to Rs.10.18 lakhs, were offered to 3 customers, which were allegedly availed by the staff in their name. The proceeds of loan were credited to the customers accounts which were later withdrawn either through ATM or transferred to other accounts through ATM/Mobile. The customers had themselves shared the confidential data related to the transactions with Mr. Suman Tarafder. Further, on the advice of the Mr.</p>

			<p>Suman Tarafder, three customers had transferred funds to other customer accounts with the Bank aggregating to Rs.75.57 lakhs under the pretext of investments which will fetch higher returns for them. The funds were also received in the above 3 customer accounts through ATM/ Mobile transfer as the proceeds of those alleged investments/returns. The aggregated amount of misappropriation of customer funds, as alleged by the customers, by the staff Mr. Suman Tarafder was Rs.138.75 lakhs out of which Bank's liability is considered for Rs.42.51 lakhs based on the evidences provided by way of acknowledgement slips bearing Branch stamp/staff initial. The liability of Rs.96.24 lakhs was not considered by the Bank since the customers themselves had compromised the confidential details viz. PIN/OTP with the staff, Mr. Suman Tarafder and also evidence of handing over the cash to the staff was not provided by those customers. The investigation was conducted basis complaints received from the customers. While no further complaint has been received by the branch against Mr. Suman Tarafder till the completion of the investigation, however, the possibility of receiving similar customer complaints in future could not be ruled out. Mr. Suman Tarafder is not reporting to the Branch since July 2021 and is also not contactable. Based on the above findings, the case is concluded as 'Fraud'. Due diligence and supervisory failure were identified against the other branch staff in the said case. Action Taken/being taken Police complaint has been filed in the matter. Bank is in process of restoring the mis-appropriated amount to the complainant's account. Branch to block debit/credit card of selected customer's post receiving confirmation from them. 			with Axis Bank, which concluded falsification of financial statements submitted to Canara Bank. Axis Bank classified the borrower as 'Fraud', on the basis of misrepresentation in financial statements submitted to the Bank and diversion of sale proceeds against inventory procured from MSIL, which were funded by Axis Bank. In the audited financials for FY2018 submitted to Axis Bank, sales and purchases were both inflated by Rs.50 crore. An amount of Rs.6.71 crore, corresponding to 19 indents from MSIL discounted by Axis Bank, is overdue. Sale proceeds from the said inventory were not routed through Axis Bank, which tantamount to diversion of funds. Staff accountability has been identified with respect to 1 employee for lapses in monitoring of the account. Assessment of staff accountability across other sanction and disbursement process is in progress. Police complaint is lodged at EOW new Delhi on 20.12.2021.
158	Case of Cheating and Forgery by Talwar Mobiles Private Limited	66.70	Background: Talwar Mobiles Private Limited (TMPL), incorporated in 1998, is a dealer of Hyundai Motors under the trade name of Talwar Hyundai. Banking Arrangement: TMPL availed working capital facilities of Rs.89.90 crore, under Multiple Banking Arrangement, from 9 Banks/ Financial Institutions as on 01.07.2020. Axis Bank sanctioned a dealer finance limit of Rs.4.00 crore to TMPL since 2013, under inventory funding limit extended to dealers of Hyundai Motors India Limited (HMIL). The limit was gradually enhanced to Rs.9.00 crore during the period from 2013 to 2019. NPA and Recovery Action: Pursuant to COVID-19 lockdown, HMIL withdrew its dealership with TMPL in August 2020, who filed a petition in Madras High Court. Subsequently, the HMIL terminated the dealership in November 2020. The account was classified as NPA by Axis Bank on 31.10.2020. A case was filed under section 138 of Negotiable Instrument act on 23.09.2021. Axis Bank recalled the facilities sanctioned to TMPL on 01.12.2021. Group Exposure: Axis Bank has exposure to Talwar Auto Garages Private Limited (TAGPL) which is a group entity of TMPL. TAGPL had availed limits of Rs.2.00 crore under supply chain finance facility from Axis Bank on 16.03.2018. The account is NPA with effect from 01.11.2020 with principal outstanding of Rs.1.97 crore. RFA Classification: State Bank of India (SBI) reported the borrower as Fraud on 01.04.2021. However, the same was not intimated to other lenders and was reported on the CRILC platform only on 11.07.2021. Based on the email communication dated 10.05.2021 received from RBI on the subject, Axis Bank requested SBI for calling a lenders' meeting to understand the reasons for Fraud classification. The matter was discussed in lenders' meeting held on 16.06.2021, which was attended by only 3 lenders' viz. SBI, Axis Bank and Tata Capital Ltd. SBI informed that the account was classified as 'Fraud' on account of diversion of funds identified in internal investigation. Based on the above discussions, the borrower was classified as RFA by Axis Bank on 02.07.2021 and the same was intimated to other lenders vide email dated 05.07.2021. Forensic Audit: Axis Bank had appointed Raj Niranjana Associates to conduct the forensic audit of the borrower on 24.07.2021, covering review period from 01.04.2016 to 31.03.2021. 159	Case of Cheating and Forgery by Ghosh Brothers Electronics Private Limited	47.60	<p>Background: Ghosh Brothers Electronics Private Limited (GBEPL), was an authorized dealer for sales and service of passenger cars of Tata Motors Ltd (Tata) in Assam and West Bengal. The company owned showrooms and workshops in Guwahati, Tezpur, Barteta, and Nagaon and Kolkata. GBEPL was also engaged in retail sale of electronics goods of various OEMs (viz. LG Electronics India Pvt Ltd, Samsung India Pvt Ltd, Sony India Ltd, Whirlpool India Ltd, Godrej Consumer Products Ltd., etc.) through its showrooms in Guwahati. Banking Arrangement: Axis Bank sanctioned factoring facility to Tata Motors Ltd. (TML)/TML Distribution Co. Ltd. (TMLD) for assignment of TML/TMLD's receivables arising from sales to their dealers of passenger car (PC) division in March 2012 and September 2012. Further, a one-time non-recourse factoring facility of Rs.250 crore (Rs.200 crore for Tata Motors and Rs.50 crore for TMLD) for domestic receivables from dealers of Passenger Car Division was sanctioned in December 2012. Under the said facilities receivables arising from sale of vehicles to GBEPL to the extent of Rs.17.27 crore were assigned to Axis Bank. GBEPL also availed working capital limits from IDBI Bank, factoring limit of approximately Rs.12 crore from HDFC Bank and inventory funding limit of Rs.20 crore from State Bank of India (SBI) under multiple banking arrangement. NPA and Recovery Action: The operations of the borrower were affected due to slowdown in automobile industry. The account was classified as NPA by Axis Bank on 06.11.2013. Group Exposure: Axis Bank does not have exposure in group entities of GBEPL. Alert: Axis Bank received an email communication from RBI, advising the Bank to investigate the operations in the said account, in view of reporting of the borrower as 'Fraud' by IDBI Bank and SBI. 			<p>Following were noted from the submissions by IDBI Bank to Central Fraud Registry (CFR) on 11.09.2018:.</p> <p>i. IDBI Bank sanctioned cash credit limits and term loans to the borrower. Various inconsistencies were observed between the audited financials submitted to the Bank during FY 2010, 2011 and 2012 and those submitted to RoC. a) Name of the signatory (of Auditor Firm) differs (Arunabha - as furnished to Bank) and (Arunava - as furnished to ROC) and signature of the auditor also differs. b) A letter dated 13.03.2018, seeking explanations from auditor firm viz. A Chattopadhyay and Associates was returned undelivered. c) It can thus be inferred that the company had submitted forged financial statements to the Bank during FY 2010, 2011 and 2012 to avail more financial assistance than its eligibility based on its true financial position as per ROC statement. ii. Special Investigative Audit (SIA) was carried out during April 2018, and the lapses/deficiencies observed are as mentioned below: a) Utilization of funds for business need was not observed. Funds were transferred from CC to current account and in another instance the unsecured loan was remitted through outward clearing to the account of Ghosh Brother maintained with other bank in July 2009. b) During Renewal cum enhancement (07.09.2009), the company submitted manipulated/falsified balance sheets and suppressed the facts of actual financial position of the company submitted to ROC. c) Financial of FY 2011, submitted by the company, was audited by CA Shri Arunabha Chattopadhyay (A. Chattopadhyay and Associates). However, signature of the chartered accountant was not matching. d) In absence of the original attestation of the authorized signatory of the company, it could not be ascertained whether the balance sheets available on record were actually submitted by the company to the Bank. However, in view of the signature difference of the Chartered Accountant, it is understood that the available Balance Sheet was fabricated and falsified. iii. In 2012, a stock audit of the group was carried out by CA Prabir Mazumdar and Associates. Prima Facie the stock audit observed that the stocks reported to the Bank on a monthly basis was higher as compared to stock audit report. Following were noted from the submissions by SBI to CFR on 21.01.2021: i. SBI sanctioned a limit of Rs.26.00 crore on 13.12.2012 under Electronic Dealer Financing Scheme (e-DFS) tie up with TATA Motors. The loan amount was directly paid to the TATA Motors against the invoice of vehicles delivered to Ghosh Brothers Electronics Pvt Ltd. ii. The unit was running well till Q1 of 2013. Thereafter, relationship between the dealer and Tata Motors soured and the sales declined. iii. The sale proceeds were to be deposited to the loan account. The outstanding in the account should have matched the value of unsold vehicles but the company (GBEPL) did not route the regular sale proceeds through the account. iv. Inspection of registered office at P-35, Block-B, Lake Town, Kolkata was conducted on various dates and any office set up or staff was not found. (Inspection dates - 14.02.2014, 30.05.2014, 24.06.2014, 25.07.2014 and 01.09.2014). v. They disposed of the stocks which were hypothecated to SBI and dispensed with the activity without informing the Bank. It was evident that the promoters did not route the sale proceeds</p>

			<p>through the CC account as per terms of the sanction of the loan. vi. The showroom at Guwahati was closed and Registered Office shifted from Kolkata. vii. Borrower was declared as Willful Defaulter by SBI on 10.10.2018. viii. SBI conducted internal investigation and reported the borrower as fraud on 13.01.2021. Investigation Findings i. Disbursements of Rs.7.31 crore was made by the Bank on 10.05.2013 against inventory procured by GBEPL, which were not repaid. ii. TML paid an amount of Rs.1.69 crore towards part sharing of the loss, whereas the balance Rs.4.76 crore is still outstanding. iii. Details of inventory funded by the Bank and status of sale proceeds were sought from GBEPL. However, no response was received. iv. Sale proceeds from the said inventory were not routed through Axis Bank, which tantamount to diversion of funds. Conclusion The borrower was classified as 'Fraud', based on the following: i. Fraud classification by IDBI Bank and State Bank of India. ii. Diversion of sale proceeds against inventory procured from TML and TMLD, which were funded by Axis Bank. Action Taken / Proposed i. The Bank will continue suitable course of recovery. ii. The police complaint has been filed on 04-02-2022 at office of Jt. Commissioner of Police (EOW) Mumbai. iii. The fraud has been reported to the Special Committee for Monitoring of Large Value Frauds. iv. The exposure has been prudentially written-off.</p>

161	Case of Negligence and cash shortage	43.50	<p>Regional BBO Head, East visited Dimapur Branch, wherein it was observed that apart from the cash kept in almirahs (which were packed to capacity with cash) bundles of cash were kept stacked on the vault floor completely covering the vault space. The Branch officials were directed to remit the excess cash to the linked SBI Branch and Axis Bank, Guwahati Currency Chest. During cash remittance, when cash bundles were taken out for remittance, it was observed that bundles of currency notes lying on floor in the corner of vault (outside the cash almirah) were completely mutilated / destroyed caused by termites. The Branch segregated such mutilated/soiled notes however, there were bundles which were completely destroyed into small bits and pieces. The remaining physical cash was counted and on reconciling the closing cash balance as per the GL vis-a-vis the countable physical cash, a difference of Rs.435 lakhs was identified. The amount of Rs. 435 lakhs has since been debited to SA- Branch Short Cash A/c on 10.01.2022 after approval from the competent authority. An additional amount of Rs. 52.50 lakhs has been identified under mutilated category, which are subjected to adjudication for arriving at real value. The valuation of these mutilated notes once received shall be updated through FUA. Branch was remitting cash regularly but cash remitted did not commensurate with the volume of inflow, resulting in excess cash in the branch vault. Further, the Branch followed a practice of remitting the cash bundles prepared and kept nearer to the grill gate of the vault, as it was more convenient for extraction during remittance. Due to this practice, bundles of cash stacked at the rear end of the vault against the wall remained static over a prolonged period and became exposed to termites. Ant-termite treatment, although carried out inside the cash vault, was not effective to prevent termites from accessing the cash stored outside the cash almirahs. The investigation in the matter is still under way. Action taken 1. An additional amount of Rs. 52.50</p>

Banking Arrangement: The company availed limits under multiple banking arrangement from 14 banks, with Qatar National Bank being the largest lender. The balance outstanding as on 07.02.2018 was USD 208.26 million. FTPL availed working capital facilities of USD 5 million from Axis Bank since 2008. The limits were subsequently enhanced to USD 17.50 million. NPA and Recovery Action: Overall conduct of the account was satisfactory till FY 2016, at which point FTPL started facing issues in realization of receivables, which resulted in liquidity issues. Axis Bank classified the account as NPA on 10.05.2018. Reservation of Rights notice dated 07.08.2017 was issued to the Borrower and Guarantor. Subsequently, the Notice of Default was issued to the Borrower on 06.07.2018 and Notice of Demand dated 17.07.2018 to the Personal Guarantor. High Court of Republic of Singapore ordered winding up of the company on 02.11.2018 and appointed FTI Consulting as liquidators. Claims of USD 15.30 mio and AUD 5,386 were filed by Axis Bank and said claim has been accepted by the liquidator. High Court of Republic of Singapore declared Mr. Mohammed Farouk, personal guarantor, as bankrupt on 29.11.2018 and appointed YC Chee, RSM Corporate Advisory Pte Ltd as Private Trustee for bankruptcy proceeding. Axis Bank has filed its claims under the proceeding. RFA Classification: RBI sought update from the Bank regarding Fraud/RFA classification of the borrower. It was observed from Centralized Fraud Registry (CFR) that Union Bank of India classified the borrower as Fraud on 12.02.2020. However, Axis Bank was not initiated of the same by Union Bank of India. Subsequently, Union Bank of India, Hong Kong branch was approached by Axis Bank to get details regarding classification of the account as fraud and copy of the Forensic Audit Report, if any. Further, communications were sent to other lenders seeking status of RFA/Fraud classification with them. However, no response was received. In view of the same, RFA Standing Committee of the Bank approved non-classification of the borrower as RFA on 06.01.2021 and 24.04.2021. As per email dated 08.09.2021 received from RBI, the borrower has been classified as Fraud by Union Bank of India, Indian Overseas Bank, Canara Bank, Bank of Baroda, Indian Bank, Bank of India and Punjab National Bank. However, the said Fraud reporting were not visible in CRILC. Axis Bank has not received any communication/intimation from any of the lenders regarding their 'Fraud' classification of the borrower. Further, Axis Bank was not invited to any joint lenders meeting regarding the matter. On the basis of email dated 08.09.2021 from RBI, the borrower was classified as RFA by Axis Bank on 15.09.2021 and reported in CRILC. If not, to share the evidences of follow-up done with TBVFL or any other correspondence in this regard for the outstanding bills vi. No response was received from the borrower. Conclusion The borrower was classified as 'Fraud', based on following: o Diversion of bill discounting proceeds from Axis Bank against invoices drawn on TBVFL; o Adverse observations related to the borrower in the forensic audit report of TBVFL and THL, regarding round tripping of funds.</p> <p>Action taken: Police complaint lodged at EOW, Crawford Market on 25.03.2022.</p>
169	Case of Misappropriation and criminal breach of trust of Govt. subsidy at Latur Branch	82.92	<p>During transaction monitoring, suspicious alerts pertaining to high value subsidy amounts, received from Government Department, being credited to the internal office account of Latur and Partur branches were generated. On scrutiny of the entries in the said office account, it was observed that Latur Branch had received 75 credits in the office account aggregating to Rs.750.51 lakhs, whereas Partur Branch had received 9 credits aggregating to Rs.78.71 lakhs from Government Departments towards subsidy for the loans sanctioned by the Branches under Government sponsored schemes. On investigation, it was observed that no underlying loans were sanctioned/opened by the Branches in respect of the subsidy amounts received. Further, no subsidy related documents were found uploaded in the Government portals; however, the said subsidy amounts were still found to be released to the suspected applicants, which indicated the potential involvement of officials of the Government Department. Also, the statements of the applicants savings bank accounts and overdraft against fixed deposit accounts and sanction letters, duly signed by the Branch Head, were uploaded in the portal by the Latur Branch to avail subsidy amounts on behalf of the applicants. The statement of underlying loan accounts, as needed under the Government sponsored schemes, were not uploaded as the actual loan accounts under the scheme were not opened. In case of Partur Branch, an unsigned sanction letter on blank paper was found to be uploaded in the Government portal to avail the subsidy amounts on behalf of the applicants. On review of 84 applicants saving bank accounts, 78 accounts were found to be KYC compliant at the time of on-boarding and 6 accounts were found to be opened on the basis of a copy of the fabricated Aadhar Cards in the name of customers. It was observed that the subsidy amounts credited to these 84 individual accounts were further transferred to various customers within the Bank as well as to other bank accounts. A lien was marked in the 84 applicants savings accounts as well as on term deposit accounts</p>

			<p>linked to these applicants to the tune of subsidy amount credited in the accounts. Aggregate balances of Rs.5,08,56,092.23 was available in these applicants accounts. Lapses were identified against the staff for not adhering to the Bank's internal guidelines with regards to subsidy related account opening and disbursement processes. The incidents were classified as 'Fraud' basis following points: There were no loans sanctioned nor opened with Latur and Partur Branches under PMEGP/CMEGP schemes and still the subsidy amount from the Government Department was claimed. Improper / incorrect documents were found uploaded onto the Government portal inorder to avail the subsidy by the Branches for claiming the subsidy amounts for the Government Department. Diversion of subsidy amount to various other accounts.</p> <p>Action taken / Proposed: The Bank has lodged Police complaint in the matter with Latur and Partur Police stations. 100% provision has been made in the account.</p>
170	Case of Cheating and Forgery by Gottapu Venugopal Naidu	60.02	<p>The loan accounts of the borrower Mr. Gottapu Venugopal Naidu had turned and during recovery process it was identified that one property was under the possession of other bank and ownership of other property was claimed by another person. The borrower, Mr. Gottapu Venugopal Naidu had availed five loans from the Bank for which four different properties were secured. All the five loans were sanctioned and disbursed as per product policy of the Bank. Home Loan: During recovery process, it was identified that the property was under possession of other Bank. As per the index verification done through panel advocate for the property, the name of the executants and claimants as per Sub Registrar Office records did not match with the details furnished in the link deed provided to the Bank. As per the funds trail, out of the home loan disbursed to the seller's account with the Bank, an amount of Rs.1.36 crores were received back in the account of the borrower through various other routing accounts. Loan against property: A loan was sanctioned as per the Bank's policy. Post account turning NPA, Bank took symbolic possession of the property under the SARFAESI Act, after which a third party visited the Branch and stated that they have absolute charge on the property and asked the Bank to withdraw the possession notice immediately. On cross checking the antecedents of the property with the neighbours, it was revealed that the property mortgaged to the Bank was also mortgaged with other bank. As per the certified copy of the link document of the property extracted, the schedule of property and name of the executants and claimants as per link document with the Bank are different from the details as per the certified copy of the document. On verification of accounts of the seller with the Bank, no transactions towards sale consideration was observed. It appears that the sale deed was executed without passing any consideration to the seller and fictitious payment entries were recorded in the sale deed to substantiate the sale. The proceeds of Rs. Rs.1.91 crores of loan against property disbursed into the account of borrower were further immediately routed to other accounts with the Bank, which were same accounts through which the proceeds of home loan were also routed. Business Loans: Post delinquency in the business loans disbursed,</p>

			<p>it was found during the visit to the property, that there was no concrete (RCC) structure as the same was demolished and the property was a vacant land with compound wall. The Bank had received a legal notice on behalf of a third party (Bandaru Foundation), stating that they have absolute charge on the property and that they have obtained an injunction order restraining borrowers from interfering with the peaceful possession of the property. Bandaru Foundation also stated they had filed an FIR against seven parties in the matter. An aggregate amount of Rs.81.50 lakhs was ultimately transferred to the saving bank account of the borrower. The accounts were classified as 'Fraud' based on the following: (i) Loans availed by the borrower against properties which were not in his ownership by producing fabricated documents (ii) Multiple ownership claimed on the properties mortgaged to the Bank (iii) Loan proceeds credited to the property seller's account were routed back to the borrower's account. Action Taken: (i) Police complaint has been lodged with 4th Town Police Station, Visakhapatnam on 12.04.2022. (ii) Suitable action is being initiated against the legal advisors and technical valuers who had provided defective title clearance and technical valuation reports. 174	Case of Cheating and Forgery by various Credit Card customers, Raipur	36.00	<p>News article was published in Raipur local newspaper stating that five accused have been arrested, including two executives of the Bank, for cheating 50 people for an amount of Rs. 4 crore on the pretext of providing them loans under credit card. Also, a police complaint was also filed by a customer against two outsourced officials of the Bank and three other individuals for issuance of a credit card to him by misleading him under the pretext of providing a loan and thereafter misusing the credit card issued to him. The two outsourced officials referred to in the complaint were Mr. Nabeel Khan and Mr. Jagmohan Sipka, working as credit card sales officials with Bank's Raipur Circle. During investigation, it was observed that these officials, in connivance with three customers' Mr. Nikhil Koshle, Mr. Shiv Kumar Sahu and Mr. Shailendra Mishra have sourced 71 credit cards from 51 customers. As an income proof, inflated income recorded in the Income Tax Returns (ITR), filed with the Income Tax Department, were provided along with credit card application. The customers were approached under the pretext of providing them loans and the credit cards were also simultaneously sourced in their names through TAB banking application and collecting their KYC documents. The credit cards were delivered to the customers address and One Time Password (OTP) for generating the PIN was also delivered to the customers registered mobile number updated in the Bank's records during the credit card sourcing process. The credit cards / OTPs for PIN generation were provided to the perpetrators by these customers as the perpetrators convinced these customers to handover the cards and OTPs to them. All the 51 customers, to whom the credit cards issued were KYC compliant as per the documents submitted and basis the field verification / telephonic verification conducted. At the time of onboarding the credit cards, inflated income details were recorded in the Income Tax Returns (ITRs), submitted by the customers ; however, no tax was paid on the income. Fresh field verification conducted during the investigations was negative in 39 cases and positive in 12 cases. The cards were used at 2 merchant outlets, M/s. Shiva Traders and M/s. Vidya Traders for an aggregate amount of Rs. 4.09 crore and Rs. 2.29 crore respectively. Mr. Shiv Kumar Sahu, one of the accused, is the proprietor of M/s. Shiva Traders. Mr. Vidya Sahu is the proprietor of M/s. Vidya Traders. M/s. Shiva Traders and M/s. Vidya Traders were maintaining current accounts with the Bank and the accounts were KYC compliant at the time of onboarding. The funds received in these accounts were primarily through POS settlements and were subsequently transferred through RTGS / NEFT / IMPS and internal transfers. Both these accounts have been closed in September 2021. The transactions aggregating to Rs.3.60 crores were executed on these credit cards. Hence it was evident that fabricated income proof was submitted by the customers for availing high variant credit cards from the Bank. Information sought by the forensic auditors have been shared by the Bank. However, in spite of the above, the forensic audit report is still awaited. Further, the report was not submitted within the timeline of 6 months from the date of 1st RFA reporting (i.e. by 28.05.2022). Sale of mortgaged property without NOC from lenders i. An undated anonymous letter was received by the Bank, alleging sale of certain properties, which were charged pari-passu to Axis Bank and UBI, without obtaining NOC from the banks ii. Bank conducted encumbrance search on the mentioned properties, wherein the allegations were confirmed iii. As per independent legal opinion, these sale transactions were not valid under law, since lenders have first charge on the properties iv. The borrower advised that they had availed unsecured loans from certain parties. As a assurance for meeting these liabilities, sale deeds for these properties were drafted. The sale deeds were executed by the POA holder without borrower's knowledge Conclusion The borrower was classified as 'Fraud', based on Clandestine selling off of hypothecated/mortgaged security. 179	Case of Cheating and Forgery in the name of C. G. State Agriculture Marketing (Mandi) Board Raipur (Vipanan Vikas Nidhi) (Government Department)	164.01	<p>Opening of Account: A savings bank account in the name of C. G. State Agriculture Marketing (Mandi) Board Raipur (Vipanan Vikas Nidhi) (Government Department) was sourced by the Branch Head, Mr. Sandeep Ranjan Das with the help of one, Mr. Satish Verma, who introduced himself as a close associate of the Managing Director of said Government Department. The authorized signatories to the account were its Managing Director and the Account Officer, with the mode of operation as 'Jointly'. It was observed that while sourcing the account, authorized signatories (Managing Director and Account officer) signatures were not obtained by the Branch Head in his presence, flouting the Bank's guidelines. Mr. Satish Verma facilitated sourcing of the account of Mandi Board with Dunda Branch, which was opened on 19.05.2022. It was revealed that the signatures of the authorized signatories on account opening form were at variance with the actual signatures of the Government officials, though their name were matching. After opening of the account, an aggregate amount of Rs.60 crore was credited to the account in three tranches through RTGS from other banks. It is thus established that the said account was opened with the knowledge of the Govt. Officials/Department and legitimate funds of Rs.60 crore were received in the account. However, the account opening form received by the Branch was bearing forged signatures of these Govt. Officials, which got recorded as specimen signatures to operate the account. Fake fixed deposit advices: The Branch then received two debit mandates for issuance of two fixed deposits of Rs.10 crore and Rs.20 crore respectively, which were issued from the said account of the customer. The third debit mandate which was said to be issued by the Government Department to debit their account for issuance of the fixed deposit of Rs.30 crore was not found available at the Branch. Further, no such amount was debited from the account for issuance of</p>

			<p>said fixed deposit of Rs. 30 crore. The fixed deposits of Rs.10 crore and Rs.20 crore were issued basis cheques, where the signatures of the drawer(s) on the cheques were at variance with the signatures of actual authorized signatories of Mandi Board, but as per fraudulent specimen signatures held on record. The fixed deposit advices for these two issued fixed deposits were hand delivered by the Branch Head to the same individual, Mr. Satish Verma, who was instrumental in sourcing the account. The customer, basis tip-off received by them, called on the Bank's officers and provided three fixed deposit advices each of Rs.10 crore, Rs.20 crore and Rs.30 crore. All the three fixed deposit advices were found to be fake. Hence, it is established that the two original fixed deposit advices of Rs.10 crore and Rs. 20 crore issued by the Dunda Branch did not reach the authorized Government officials. Disputed transactions in account: Out of the balance of Rs.30 crore, the funds aggregating to Rs.14.41 crore were transferred out through RTGS to nine accounts with other banks and Rs.1.99 crore to two current accounts with the Axis Bank. The customer disputed said transactions (outward RTGS transactions and internal funds transfer) aggregating to Rs.16.40 crore, which were processed basis the cheques bearing signatures that were found to be at variance with the signatures of the actual authorized signatories, but as per fraudulent specimen signatures held on record. Funds received in Axis Bank accounts were further transferred through RTGS / NEFT to other banks by the respective customers, leaving negligible balance. The accounts with Axis Bank were, M/s. Imstranseair International Private Limited and M/s. Freshever International. Both the accounts are found to be KYC compliant at onboarding stage. During fresh field visit, M/s. Imstranseair International Private Limited was found at a new address whereas M/s. Freshever International could not be located at the given address. A cheque book from which cheque leaves were issued to undertake all the debit transactions was issued by the Branch. The cheque book was got issued fraudulently by Mr. Satish Verma, Mr. Chandrabhan Singh and/or other unknown person(s). Available balance in the said account when the time fraud came to notice was Rs.13.60 crore instead of Rs.30 crore. Hence, the fraud loss amount was Rs 16.40 crore. Root Cause Failure of the Branch Head to carry out due diligence while sourcing the account. No independent validation was done by the Branch while obtaining the signatures of authorized signatories in their presence. The account was thus operated by third parties instead of the authorized Govt. officials, which resulted in perpetration of fraud.</p> <p>Action taken/ being initiated: Refund of Rs.98.90 lakhs has been made by one of the beneficiary bank that has been credited to the customer's account. Fraud loss amount of Rs.15.41 crore has been reinstated in the customer's account. FIR has been lodged reporting the matter. 100% provision has been made for the fraud loss amount.</p>

There were cash deposits of Rs.54.33 crore and cash withdrawals of Rs.1.23 crore. No supporting evidences/ documents were provided for these transactions. ii. As there were no supporting evidences, the amount of Rs.1.23 crore can be classified as fraudulent u/s 66 of IBC Discussion by Committee of Creditors (CoC) A CoC meeting was held on 21.10.2021 to discuss the transaction audit report and way forward along with other points. Key discussions are summarized below: The transaction auditor pointed out various observations related to trade receivables, trade payables, and fixed assets etc. to be classified under sec 66 of IBC. The borrower denied the findings of the report. They further denied dummy account transfers to the tune of Rs.1.10 crore. SVIPL asked the Resolution Professional (RP) to share the audit observations. Further, the auditor was advised to share their queries with the borrower and submit a revised report incorporating the borrower's responses. The matter was further discussed in CoC meeting held on 29.12.2021. Key discussions are summarized below: The Corporate Debtor has not yet handed over any accounting data, books of accounts or any records. A petition under Sec 19(2) of IBC was filed with NCLT, Chennai for "Non-Cooperation of the Corporate Debtor" The transaction auditor pointed out their various observations. The borrower stated that the observations were false and they did not agree with the same. RP advised that it has classified the said transactions as fraudulent u/s 66 of IBC and filed avoidance petition with NCLT, Chennai on 31.10.2021: An immovable property, situated in Kuzhithurai, were extended as security for availing loan from Cholamandalam Investments and Finance Company and were subsequently taken over by them, without NOC from lending banks. Post RFA classification, Axis Bank had sent an email on 08.01.2022 to all lenders informing of its RFA classification and for calling a lenders' meeting to discuss the matter. However, no response was received from the other lenders in spite of reminders, except SBI. Lenders meeting held on 24.02.2022 was attended by Axis Bank and SBI only, hence majority/consensus decision on the transaction audit could not be arrived at. Subsequently, Axis Bank had sent several emails to Yes Bank and other lenders (dated 10.03.2022, 05.04.2022, 26.04.2022, 29.04.2022 and 10.05.2022) for scheduling a meeting to decide further course of action. However, no further discussions between the lenders have taken place regarding the transaction audit findings. Status with other lenders: As per submissions in Central Fraud Registry (CFR), ICICI Bank has classified the borrower as Fraud and filed FMR on 16.06.2022. Modus operandi reported was as below: The borrower had shut down its operations and no stock was available at the premises of borrower. It appears that the borrower had falsified the inventory by including sold out vehicles in the stock report. However, the said fraud classification was not intimated to Axis Bank and not reported in CRILC till date. Apart from Axis Bank and ICICI Bank, no other lenders have classified the borrower as RFA/Fraud. Observations of Internal Investigation: i. An amount of Rs.6.22 crore, corresponding to indents from MSIL discounted by Axis Bank, is overdue. Sale proceeds from the said inventory were not routed through Axis Bank, which tantamount to diversion of funds. Conclusion: The borrower was classified as 'Fraud' by Axis Bank, based on following:</p> <ul style="list-style-type: none"> o Diversion of sale proceeds against inventory procured from Maruti Suzuki India Limited, which were funded by Axis Bank. <p>Action taken: Police complaint has been lodged in the matter at Inspector of Police, Vadasery Police Station, Tamil Nadu on 18.07.2022.</p>
181	Case of Misappropriation and criminal breach of trust by cash by the custodians of M/s. Secure Value India Ltd	49.30	<p>M/s. Secure Value India Ltd is an outsourced cash replenishment agency (CRA) working under Bank's Independent ATM Deployer (IAD), M/s Hitachi Payment Services Pvt. Ltd. In terms of extant Service Provider Agreement with the IAD, cash provided by the Bank for the purpose of Bank's ATM replenishment is stored overnight at the vault of the CRA, M/s. Secure Value India Ltd. The CRA, M/s. Secure Value India Ltd. was responsible for cash management and supervision for regions under Delhi, and Gurugram from their office located at Sahibabad. The CRA keeps cash under their safe custody at its vaults after receiving cash from various banks and supply cash according to needs at various bank branches and ATMs. During Internal Audit conducted by M/s. Secure Value India Ltd. at their Sahibabad vault, the audit team found shortage of cash amounting to for Rs.1032 lakhs, which included Rs.493 lakhs belonging to the Axis Bank. M/s. Secure Value India Ltd. had called for an explanation from the concerned vault custodians for the shortage of cash, but could not get satisfactory answer from them. The CRA, M/s. Secure Value India Ltd. has since filed an FIR with Police in the matter on 21.07.2022. and has mentioned name of their official, Mr. Nilkantha Misra (responsible for cash management) as the prime accused alongwith other unknown persons in the FIR. As per the preliminary findings by the CRA, fabrication of documents and forgery of signatures was carried out to modify the records in a preplanned manner. External intrusion in the vault has not been confirmed by the CRA so far. It is therefore suspected that the vault custodians of the CRA, M/s. Secure Value India Ltd. were primarily involved in the misappropriation of cash. CCTV footages of the subject incident could not be viewed as the same was not shared with the Bank by the CRA. Police investigations are underway and further update, if any, in the matter will be updated through FUA. Action taken/being initiated: The subject cash shortage for Rs.493 lakhs belonging to Axis Bank has since been recovered from the IAD, viz., Hitachi Payment Services Pvt. Ltd., as per agreement with them.</p>

183	Case of Cheating and Forgery by various customers in the name of 'Manipur Startup Scheme'	23.55	<p>During Banker's meeting convened by the Manipur State Planning Department (hereinafter referred to as "Govt. Department") to review the status of loan sanctioned by the banks under the State sponsored scheme, Manipur Start Up Scheme, it was advised to the Axis Bank to review the 23 sanctions given by the Bank and resubmit the same. The Govt. Department also informed the Bank that department had already released the subsidy amount of Rs. 235.47 lakhs to the Bank under the Manipur Start Up Scheme. The above subsidy amount was found received during November 2021 in current account in the name of M/s. Start Up Manipur being maintained with Kwakeithel Branch, Imphal. The name of the above account was resembling the scheme rolled out by the Manipur State Planning Department i.e. Manipur Start Up scheme. The current account was a sole proprietorship account with the business mentioned as 'Grocery Store'. The business trade license was obtained in the same name i.e., 'M/s. Start Up Manipur'. After the receipt of the amount in the said current account, a letter was received by the Kwakeithel Branch from the Govt. Department about re-examination of 23 sanction letters issued by the Branch under the Manipur Start Up Scheme. The sanction letters were on the letter head of the Bank; however, the person who had signed the letters could not be ascertained due to short signature. Moreover, no loan proposals were found to be sanctioned by the competent authority in the Bank under the said scheme. Subsequently the Government Department was informed by the Bank that Bank had not issued any such sanction letters as the underlying loan applications were not available with the Bank. The scrutiny of transactions in the current account of M/s. Start Up Manipur revealed that the aforementioned remittance of Rs.235.47 lakhs, no other credit in the account was seen since opening of account. The funds received were subsequently withdrawn in cash and transferred to 11 accounts within the Axis Bank and 5 accounts outside the Bank. All these 11 accounts with Axis Bank were KYC complied at the time of onboarding. However the transactions in the accounts were apparently not in sync with the respective profile of the customers. On checking, it was observed that, 8 beneficiary accounts, out of above 11 account holders, were mentioned in the list of 23 applicants who were sanctioned loan under the Manipur Start Up scheme. Transaction linkage between three staffs, relatives accounts and above 11 account were observed and were found to be suspicious in nature. The subsidy amount should have been received in the office account of Bank; however, it was received directly in the current account of M/s. Start up Manipur. During investigation it could not be ascertained that who had provided the bank account details of M/s. Start Up Manipur to the Govt.</p>

Bank's Staff Mr. Nitesh Kumar was the Relationship Manager for the accounts of Municipal Council, Bhiwani, hence, he was made one point contact for the activities / transactions related to accounts of the Municipal Council, Bhiwani. A notice was served to Bhiwani Loharu Road Branch by Economic Cell, Office of Superintendent of Police, Bhiwani, seeking certified copies of cheques honoured during the year 2019 from the account of Municipal Council Bhiwani maintained with the Branch. The notice was issued basis an FIR filed by the complainant, Mr. Sudarson Jindal, a former Municipal Councilor, at Bhiwani Police Station against four persons including Mr. Nitesh Kumar for misappropriation of Government funds belonging to Municipal Council, Bhiwani. On review of 1405 customer induced debit transactions in the 21 accounts from January 2018, it was observed that (i) Changes in the authorised signatories, and specimen signatures of the new authorised signatories of the account were not updated in Finacle system. (ii) In 57 cheques (aggregating to Rs.15.08 crore) the signatures of both the authorised signatories of the customer account were not matching with the specimen signatures of the authorized signatories as per the Bank's records. (iii) Signature mismatches on the cheques was also confirmed by forensic handwriting expert on reviewing the signatures of 15 high value cheques aggregating to Rs.7.29 crore. It was learnt that, beneficiary of one transaction of Rs.25 lakhs was Mrs. Bimla Aggarwal, who is mother of the Mr. Nitesh Kumar. The account of Mrs. Bimla Aggarwal was maintained with Equitas Small Finance Bank. On investigation, it was observed that the signatures of the authorized signatories on the cheque book requests and cheque book issuance register were not matching with the Bank's records and were apparently forged. Since, Mr. Nitesh Kumar was the one-point contact for the accounts of Municipal Council Bhiwani, the Branch staff used to approach him for confirmation of issuance of cheques / signatures of authorised signatories. It is suspected that officials of the Municipal Council Bhiwani in connivance with Mr. Nitesh Kumar were involved in the perpetration of the fraud. Presently, there is no claim from the Municipal Council Bhiwani for the 57 disputed cheques aggregating to Rs.15.08 crores. The incident has been classified as fraud on account of the following: (i) Misappropriation of customer funds by forging the signatures of authorized signatories on the cheques. (ii) Officials of the Municipal Council Bhiwani in connivance with Mr. Nitesh Kumar were involved in the perpetration of the fraud.</p> <p>Action taken / proposed: Police complaint has been filed in the matter. 100% provision has been made for the fraud loss amount.</p>
185	Case of Misappropriation and criminal breach of trust at Begowal branch by Nitesh and Ramandeep Singh	134.35	<ul style="list-style-type: none"> • An incident of shortage of cash of Rs.219.21 lakhs and theft of four packets of pledged gold ornaments, valuing Rs.37.12 lakhs, (as on date of sanction) was identified at the Bank's Begowal Branch. • Nitesh (Teller) and Ramandeep Singh (Branch Operations Head) were the joint custodians of cash and pledged gold ornaments at Begowal Branch. • As per the instructions of Circle Office, Ramandeep Singh was to be deputed to Bhulath Branch and Nitesh was to visit Ludhiana Circle Office for an ongoing inquiry regarding mis-selling of a Mutual Fund. Therefore, Ankit Thapar, Manager and Ankur Mahajan, Branch Head were to be designated as joint custodians. • While handing over the charge, Nitesh informed the Branch Head about the shortage of cash and stated that he will replenish the cash shortage by day end. The amount of shortage of cash was not disclosed by Nitesh to the Branch Head. • As the cash shortage was required to be made good by Nitesh, he left the Branch under the pretext of replenishing the cash at day end. The Branch Head deputed two officers to accompany Nitesh in his car however, midway Nitesh threatened these two officers and forced them to alight from the car. He then took off in his car and did not return to the Branch. • As Nitesh was absconding, on verification of the physical cash in the vault at day end, physical cash shortage aggregating to Rs. 219.21 lakhs was identified. • The gold loan packets which were in joint custody of Nitesh and Ramandeep Singh, were also verified, wherein it was found that four packets of gold ornaments pledged to the Bank against the gold loans disbursed to the borrowers were missing. <p>Preliminary Investigation findings</p> <ul style="list-style-type: none"> • As per instructions from the Circle Office, the existing joint custodians, at the Branch were informed to attend duties at other Offices on next

Two other officers, Ankit Thaper and Ankur Mahajan (Branch Head) were to be designated as joint custodians in their absence.</p> <ul style="list-style-type: none"> • Due to a technical issue in generating the cash denomination reports from the Bank's system, the designated custodians could not take charge as custodians at the end of the day. • On the next day, prior to handing over the keys to the newly designated custodians, Nitesh informed the Branch Head about the physical shortage of cash in the vault and stated that he will replenish the shortage of cash amount by day end but did not disclose the extent of the cash shortage. • The Branch Head further, did not inform this aspect to the Controllers immediately, in respect of which staff lapses have been identified. • At the end of the day, the Branch Head directed Nitesh to replenish the physical cash shortage. The actual physical cash shortage was not ascertained at this stage. Nitesh left the Branch premises for cash replenishment and the Branch Head advised two officers posted at the Branch to accompany Nitesh. • The two officers accompanied Nitesh in his car however, they were forced to alight from the car midway, stating that they were threatened with their life by Nitesh. Post this, the Branch Head reported the incident to the Cluster Head. • The Cluster Head immediately visited the Branch, and physical cash was verified. Post verification, a physical shortage of Rs.219.21 lakhs was detected vis-à-vis the cash balance as per the Bank's core banking system. • The gold ornament packets held at the Branch (in respect of goal loans) were also verified wherein it was identified that 4 packets of gold ornaments were missing. The packets contained gold ornaments valued at Rs.37.12 lakhs (approx.), as per the gold appraiser certificate obtained at the time of sanction of respective gold loans. • Further, it transpired that out of the four missing packets, two packets were related to loan accounts of Priya Verma, wife of Nitesh, and two were pertaining to other customers. • The Branch further received 43 complaints from various customers alleging unauthorized debits to their accounts and also alleged that cash handed over to Nitesh, Teller, was not deposited in their accounts. The amount involved in these complaints' aggregates to Rs.1039.35 lakhs, which is yet to be investigated and validated. <p>Action taken:</p> <ul style="list-style-type: none"> • Police complaint has been filed. Further, in FY 2017, 51%-54% of funds were rotated between related parties, Jayesh Distributors and Jayesh Lifescience India P Ltd. <p>Other major parties: Bank statement analysis further highlighted transaction with following major counterparties, which appear suspicious:</p> <ul style="list-style-type: none"> - Circular transaction with entities of the same group - During FY 2016, the borrower received Rs.1.34 crore from Indo German Drugs Private Limited. Further, during the same year, the borrower paid Rs.1.15 crore to Laxmi Arogyam Pvt Ltd. Similarly in FY 2017, the borrower received Rs.18.94 crore from Indo German Drugs Private Limited and paid Rs.11.89 crore to Laxmi Arogyam Pvt Ltd. Both these entities are related to each other through common directorship. - Receipts and payments with same parties - Borrower had made a total payments of Rs.47.41 crore to Om Agency in FY 2017 and FY 2018. Further, the borrower had received Rs.23.65 crore from Om Agency in FY 2019 and FY 2020. The key findings are given below:</p> <p>Calculation of Drawing Power:</p> <ul style="list-style-type: none"> - The following were noted from comparison of figures disclosed in stock statements submitted to the bank vis-à-vis audited financials: - It was noted that the borrower had claimed excess DP in FY 2021, which was inadequate to cover CC o/s of Rs.2.32 crore as at 31.03.2021. <p>Concentration in purchase and sale transactions</p> <ul style="list-style-type: none"> - Review of sales and purchase transactions during FY 2020, FY 2021 and FY 2022 highlighted high concentration with V S Enterprises, Adarsh Silk Mills and Krishna Arjun & Co. - Of the total debtors of Rs.6.37 crore as on 31.03.2022, 91% were from Adarsh Silk Mills, and Krishna Arjun & Co. All these debtors have been outstanding for more than 180 days with poor chances of recovery. - Of the total creditors of Rs.4.12 crore as on 31.03.2022, ~94% were from the following 3 entities – V S Enterprises, P J Exports and Tuni Textile Mills. - Inventory review identified the following: at, during FY 2022, - AVT bought 4,26,777.96 meters of garments at Rs.75.32/meter (average) during FY 2022. - Further, stock of 11,23,737.47 meters at Rs.43.84/meter was sold during FY 2022. Specifically, stock of 5,83,526.30 meters at an average of Rs.11.11/ per meter was sold during Q4. • Considering total quantity of stock sold during the period and beginning stock position for FY 2022, it can be concluded that the borrower had deliberately purchased the stock at higher rate and sold the same at a substantially low rate during Q4 FY 2022. • Public domain searches identified that the address of all three firms (Krishna Arjun, V S Enterprises and Adarsh Silk Mills) is common i.e. L1, 2nd Floor, Muni Surat Compound, Behind Holly Marry School, Rahanal, Bhiwandi, Thane. • On visiting the premises of these 3 entities, they were found to be situated in adjacent plots and negligible stock was lying. It was noted that the infrastructure of these entities were insufficient to carry out the volume of transaction reported in the books of AVT. • Based on the fact, it can be concluded that these firms were indulged mainly in circular trading. <p>Internal Investigation Remarks:</p>

Further, as per audited quarterly results for Q4 FY 2022 filed with BSE, inventory amount of Rs.24.90 crore was disclosed, whereas inventory of Rs.5.62 crore was disclosed in audited financials of FY 2022. ○ This creates suspicion that stocks were inflated in stock statement for February 2022 for availing excess working capital funds from banks. ○ It has been noted by the company's statutory auditors in annual report for FY 2022 that the company filed an FIR against its CFO, Mr. Bhavesh Patel, on 24.06.2022 alleging fraudulent activities during the period from July 2015 to September 2021. It was further mentioned that the fraud was conducted by intentionally misstating the values of inventory in the books of accounts and financial statements of the company, by way of purchase of raw material without actual delivery and selling of finished goods without sales bill. The quantum of fraud was approximately Rs.28 crore. ○ It has been opined by the forensic auditor that, pursuant to the company becoming aware of commencement of forensic audit by Axis Bank, which was after their filing of quarterly result with BSE, they decided to write-off fictitious inventory and covered up the same by implying fraud committed by the CFO. <p><u>Analysis of debtors:</u></p> <ul style="list-style-type: none"> ○ It was observed that debtors were reduced from Rs.31.93 crore as on 31.03.2020 to Rs.24.56 crore on 31.03.2021 and Rs.14.45 crore on 31.03.2022. ○ Further, debtors outstanding for more than 6 months have reduced from Rs.2.23 crore as on 31.03.2021 to Rs.1.94 crore on 31.03.2022. ○ The decrease in debtors may be due to either routing the transactions between the parties or reducing the debtors. The authenticity of the same cannot be traced.

			<ul style="list-style-type: none"> ○ Rs.1.26 crore were due with various debtors since 2015. No provision was made for doubtful debts in as per ABS for FY 2021. ○ As per stock audit report dated 27.01.2022, ~72% of the company's receivables were outstanding from related parties. <p>Analysis of Bank Borrowings:</p> <ul style="list-style-type: none"> ○ As per audited financials for FY 2021, long term borrowings of Rs.10.77 crore was reported. In the audited financials for FY 2022, long term borrowings of only Rs.0.06 crore was disclosed, whereas the balance portion was included under "other current liabilities". ○ As per the forensic auditor, the borrower had been reporting short term loans as long term, with wrongful intention to maintain a high current ratio to misguide lenders and investors. Subsequent to commencement of forensic audit, they have attempted to cleanse the books of accounts by correctly reporting its current liabilities. <p>Trade Payables (less than 6 months):</p> <ul style="list-style-type: none"> ○ Trade payables for goods reduced from Rs.21.71 crore in FY 2020 to Rs.15.72 crore in FY 2021 and then to Rs.8.56 crore in FY 2022. Reduction in trade payables, despite shortage of funds, gives rise to suspicion that the creditors were paid off either by siphoning of funds or booking fake entries via other bank accounts. ○ The details of the other bank accounts is not available. Hence, the authenticity of the transactions cannot be traced. <p>Stock audit report observations:</p> <ul style="list-style-type: none"> ○ Stock of base paper (key raw material) of Rs.14.21 crore was reported in stock statement for November 2021. However, during the physical verification by the stock auditor on 04.01.2022, stock of only Rs.9.44 crore was observed. A reduction of 30% in the stock of board paper was observed. ○ Valuation of stock as per stock statement of November 2021 was Rs.27.65 crore. Whereas, value of stock as per books of accounts as on 30.11.2021 was Rs.22.57 crore. This evidently shows that the stock statement submitted by borrower are fictitious to acquire more working capital for the lender. <p>Routing of Transactions through non-lending Banks:</p> <ul style="list-style-type: none"> • Though Axis Bank was the sole working capital lenders, the borrower maintained current accounts with other Banks i.e. Bank of Baroda, IndusInd Bank, Kotak Bank, ICICI Bank, HDFC Bank and Union Co-operative Bank.

It can be assumed that the dubious written-off stocks during FY 2022 pertained to purchase from related parties, unless substantiated by record. <p>Conclusion by Forensic Auditor</p> <ul style="list-style-type: none"> The borrower intentionally engaged in window dressing of financials and books of accounts to avail higher credit limits by defrauding the lenders. The borrower company and management seem to be engaged in financial maleficence / diversion of funds and fraudulent activities with mala-fide intention. <p>Action Taken / Proposed</p> <ul style="list-style-type: none"> Police complaint has been filed in the matter. 100% provisioning has been done as per guidelines. 			<p>veracity/genuineness of the transactions undertaken by the borrower could not be commented upon.</p> <ul style="list-style-type: none"> • Investigation remarks • It was noted that the borrower's hospital became operational towards second half of FY 2017 and the business picked up gradually. Further as mentioned in the NPA status note there was delay in receiving claims from insurance companies and increasing competition. This led to pile up of receivables. The receivables increased every year and were at its peak during Covid-19 induced pandemic. • Analysis of Stock Statements • Based on the stock statements (SS) and financials submitted to the bank, the below drawing power analysis was derived: • It was noted that as per the stock statements submitted to the bank, the inventory was reported after deducting unpaid stock i.e. creditors. However, in absence of books of account it was not possible to comment upon value of trade creditors outstanding towards stock. Further, the inventory values reported in the ABS is significantly lower than the SS submitted to the Bank. • Since the borrower did not provide any information pertaining to book debts that were outstanding for more than 90 days, the ageing of book debts could not be verified. Hence, total trade receivables as reported in ABS has been considered. • Conclusion by Forensic Auditor: • Considering the irregularities, discrepancies and observations in the business and banking operations of the borrower and on the basis of analysis of details made available and extracted through public domain, it may be concluded that the intentions and integrity of the borrower seems to be doubtful especially with reference to sale of mortgaged property without obtaining NOC from lender, increasing trade receivables and non-recovery from them. • Considering the above, the borrower company and management seem to be engaged in financial maleficence / diversion of funds and fraudulent activities with mala-fide intention • Issuance of Show Cause Notice to the Borrower • Supreme court vide its judgement dated 27.03.2023, directed that the 'principle of natural justice' must be read into the provisions of RBI Master Direction on Frauds. • In view of the said judgement, the Bank issued show-cause notice (SCN) to the borrower on 27.09.2023 and subsequent follow-up dated 12.10.2023, seeking explanations on the below: • Violation of the terms of conditional NOC by way of the following: •

			<ul style="list-style-type: none"> • Key findings of Forensic Audit report are as under: • Non-cooperation from the Borrower: • The borrower did not co-operate (was absconding) in the forensic audit exercise and did not provide access to the books of accounts/accounting systems along with supporting documents, which were required for completion of the forensic audit exercise, despite several reminders. • The review was conducted basis documents submitted by the Bank. • Unit Inspection: • Forensic Auditor conducted a visit to the combined warehouse and office premises of the borrower, situated at Door No. 74-6-11/5 B2, Netaji Road, Ayyappa Nagar, Krishna District or NTR District, Vijayawada-520007 in May 2023 and was accompanied by officials of Axis Bank. • A thorough physical inspection of the godowns was conducted, which revealed the absence of stock. No goods or inventories were found on the premises. • Analysis of stock and book debts statement and calculation of Drawing power (DP): • As per terms of sanction, DP was to be calculated with a margin of 25% on stock and receivables. Receivables up to 90 days were to be considered for the calculation of drawing power. • On review of the stock statement, it was noted that borrower provided list of continuing debtors during the particular three month period, but ageing of debtors was not provided. • Ageing of debtors was not available in the ABS provided by the borrower as well. The drawing power could not be verified in the absence of ageing data. • Bank statement analysis: • A comprehensive review of the account statements provided by Axis Bank has revealed that a considerable proportion of payments made by the borrower have been directed towards entities including companies, firms and sole proprietor businesses. • Based on the review of bank statements, it was observed that the majority of the debtor names in the stock statement were not available in the bank statement. • Despite repeated requests for documentation and information, the borrower has failed to provide the necessary data, which includes books of accounts that would have enabled to gain complete understanding of the nature and genuineness of these transactions. • Further, on review of CC account number 916030023698577, it was noted that the total payments from the account were Rs.165.87 crore and the receipts in the account was Rs.161.63 crore

			<p>from various parties. However, due to the non-availability of books of accounts and other supporting documents auditor was unable to comment on the nature and genuineness of the transactions.</p> <ul style="list-style-type: none"> • Routing of transactions through other Banks: • Comparison of cash paid against purchases as per ABS and cash debit transaction as per bank statement: • As per the table above it appears that entire purchases were not routed through Axis Bank. • Based on the review of the bank statement, it was noted that the borrower was maintaining current account with Indian Overseas Bank (IOB). Some of the transactions were being routed through IOB. • Conclusion by forensic auditor: • The borrower did not provide access to the books of accounts and critical data / records / information was also not shared despite multiple reminders. Satisfactory responses / clarifications were also not received. Thus, the borrower is construed as 'non-cooperative'. • It was noted on physical verification that there was no stock available in the borrower's office/ godown. Further, it was noted that no routing was done through Axis Bank's account from February 2023 onwards. • Owing to the non-cooperation from the borrower and non-availability of information and documents and limitations, it could not be conclusively established whether any transactions are fraudulent or not. • Key findings of internal investigation are as under: • Comparison of stock statement vis-à-vis audited financials: • On comparison of values disclosed in stock statements for the months of March 2017 to March 2022 with corresponding audited financials, the below was observed: • Overstatement of inventory were observed in stock statements for March 2017, March 2018 and March 2019. However, no explanations for the same was available. • As per the terms of sanction debtors less than 90 days were to be considered for DP calculation. Ageing wise break up /details of debtors were not available in the ABS. However, even if we consider the debtors mentioned in the ABS to be less than 90 days, still there was overstatement in debtors as on March 2017, March 2018 and March 2020. • The DP calculated as per ABS as on March 2017 and March 2018 were less than the outstanding in CC account. Thus, there were overdrawings in the account. • Unit Inspection:

Sr. No	Details of the fraud	Amount involved (In ₹ million)	Summary and Action taken by the Bank
			<ul style="list-style-type: none"> • As per the unit inspection conducted by the bank in January 2023, it was observed that only about 5% of total inventory was available. The proprietor was not contactable. • Routing of transactions • It was noted in March 2017 that the borrower was routing major chunk of sales from IOB and was advised to close the current account. • During the next 2 years, more than 90% of turnover was routed through Axis Bank. However, transaction routing reduced to 70% of turnover post FY 2019. • Takeover by ICICI Bank • As per the NPA status note, the borrower had approached ICICI Bank in July 2022 for takeover of limits from Axis Bank. As per details submitted by CBG, Centre Head, the following were noted: • The borrower deposited DDs drawn on ICICI Bank for payment of Rs.4 crore in CC account and Rs. 0.47 crore and Rs. 0.42 crore in ECLGS accounts in Axis Bank on 22.08.2022 and 05.09.2022, respectively. The said payments were purportedly towards taking over of Axis Bank's CC and ECLGS limits. However, Axis Bank was not intimated about the take-over either by ICICI Bank or the borrower. • The coverage team reached out to the borrower seeking explanation, whereupon the borrower agreed to refund takeover amount back to ICICI Bank. The borrower further requested for enhancement of existing CC limits in Axis Bank. • Based on the request of the borrower vide letter dated 30.11.2022, the Bank passed entries on 07.12.2022 for reversing the credits received (from ICICI Bank) in both the ECLGS accounts. The amount reversed was parked in the SLFIT account (Office account) for issuance of DD in favour of ICICI Bank. However, the amount received in CC account of the borrower could not be reversed as the unutilized limit in the account was insufficient. This had happened as further drawls were made by the borrower from the CC account subsequent to credit received from ICICI Bank. • The borrower vide letter dated 08.12.2022 informed Axis Bank that it would close the loan with ICICI Bank and provide closure letter and No Dues Certificate prior to the release of enhanced limit by Axis Bank, which was requested earlier. • Despite repeated follow-ups by the Bank, no credits were made in CC account to make adequate space for refunding ICICI Bank. • The customer had utilised the entire limits in the CC account by 17.01.2023. In view of the same, lien was marked on the SB account of the proprietor and the CC account of the borrower on 18.01.2023.

Hence, the funds parked in SL FIT account (Office account) on 07.12.2022, were appropriated back towards clearing of dues in ECLGS accounts on 01.02.2023. The excess funds were credited in CC account. • ICICI Bank, vide letters dated 14.03.2023 and 23.03.2023, requested Axis Bank to reverse the entire amount disbursed by them to the borrower as they had not received the property documents. • Axis Bank vide letter dated 24.03.2023 responded to ICICI Bank, stating that since no communication was received from ICICI Bank earlier regarding transfer of funds, ICICI Bank should contact the borrower for further course of action. • Issuance of Show Cause Notice to the Borrower • Supreme court vide its judgement dated 27.03.2023, directed that the 'principle of natural justice' must be read into the provisions of RBI Master Direction on Frauds. • In view of the said judgement, the Bank issued Show-Cause Notice (SCN) to the borrower on 29.08.2023 and subsequent follow-up reminders dated 13.09.2023 and 26.09.2023, seeking explanations on the below: • Forensic auditor conducted an inspection of the warehouse and office premises in May 2023 wherein no stock was found. Further, in January 2023 bank officials had conducted an inspection wherein only 5% of the total inventory was found. Details of disposed stock and location to be provided. • As per internal investigation, significant differences were observed on comparison of financial year end stock statements with the audited financials as on the corresponding March ending period i.e. FY 2017 to FY 2021. Overstatement of Trade receivables in stock statements was observed in FY 2017 of Rs.0.86 crore, stock was overstated by Rs.1.22 crore leading to overutilization of DP. • Inadequate routing of credits was observed in Axis Bank account for FY 2017, FY 2020, FY 2021 and FY 2022. The routing was just above 70% in comparison to the sales reported as per ABS. • However, the borrower was not present in the registered address and SCN / reminders have returned undelivered. <p>Modus Operandi</p> <ul style="list-style-type: none"> • Fabricated / Inflated Stock / Book Debt Statements <p>Root Cause</p> <ul style="list-style-type: none"> • Misrepresentation in stock statement for availing bank finance <p>Staff Accountability</p> <ul style="list-style-type: none"> • Staff accountability has been identified with respect to 3 employees for lapses in monitoring of the account.

218	Multiple Gold loan borrowers – Ajnala Branch	20.50	<p>Background of the case</p> <ul style="list-style-type: none"> Spurious gold ornaments were found to be pledged in 34 live gold loan accounts pertaining to 17 borrowers with aggregate outstanding of Rs.1.21 Crore at Ajnala Branch. Fraud Control Unit (FCU) conducted surprise purity re-verification of pledged gold for the disbursed gold loans as per pre-defined process and identified that spurious ornaments were pledged in 34 Gold Loan A/cs. Internal Investigations Key findings of internal investigation are given below: The aforementioned 34 Gold loans were sanctioned and disbursed to 17 borrowers during the period from January 2022 to April 2022. The loans were sourced by the Gold Loan Relationship Executive (RE) of M/s Quess Corp Ltd. and the Branch Relationship Officer (BRO) who connived with Gold Appraiser and some borrowers to perpetrate fraud. The borrowers were relatives / friends of Gold Loan RE or BRO or some ex -Agri REs. Loan documents were not found in 23 cases, whereas, in 11 cases, incomplete documents were found with forged signatures of the borrower. Borrowers informed that they had not visited the branch for availing gold loan and the ornaments pledged, did not belong to them. The disbursement proceeds were either transferred to the account of the Gold loan RE or transferred to SB accounts of the borrowers and then withdrawn in

The ECLGS limit has since been repaid in December 2022. • Resolution and Recovery Actions • The account was classified as NPA on 30.06.2023. • Symbolic possession of a collateral property was taken on 01.12.2023, under SARFAESI. The borrower filed petition before Kolkata HC, challenging the recovery action by the Bank. • Recovery of Rs.1.92 crore was made in December 2023. • RFA / Fraud Status • The borrower was classified as RFA on 11.07.2023, based on adverse observations in stock audit report dated 30.03.2023. • Axis Bank appointed S Poddar & Co to conduct forensic audit, wherein misrepresentation in stock statements submitted to the Bank and audited financials were identified. • Show-cause notice was issued to the borrower and Directors seeking explanations on the adverse findings of forensic audit. However, no satisfactory response was received from the borrower. • The borrower was classified as 'Fraud', based on adverse findings in forensic audit report. • Forensic Audit/Internal Investigations • Key findings of Forensic Audit report are as under: • Non-cooperation from the Borrower: • The borrower did not co-operate in the forensic audit exercise and did not provide access to the books of accounts/accounting systems along with supporting documents, which were required for completion of the forensic audit exercise, despite several reminders. • The review was conducted basis documents submitted by the Bank and data available on public domain • Analysis of financial statements: • As per stock audit report dated 26.03.2018, rent receivable of Rs.11.26 crore was shown as outstanding for more than 300 days from group company Bhanu Farms Limited (BFL) in February 2018. However, outstanding from BFL was Rs.5.78 crore as on 01.04.2017 and rent income recorded in FY 2018 was only Rs.0.20 crore. • As per stock audit report dated 11.06.2018, receivables outstanding from BFL as on February

			<p>2018 was Rs.11.04 crore. The receivable figure is inconsistent with findings of the previous stock audit</p> <ul style="list-style-type: none"> • It was also observed that, stocks sent to Bhanu Farms Limited for processing were lost by it resulting in loss of business of around one year for which processed stocks worth Rs. 7.15 crore was to be provided by BFL as part of settlement terms. • As per the stock audit report dated 30.04.2022, all the stocks were obsolete, old and expired as informed by the borrower. However, inventory reported in the audited balance sheet for FY 2022 was ~Rs.6.88 crore • As per the stock audit report dated 30.03.2023, products were not in eatable condition and can be considered obsolete. However, value of said stock was shown as Rs.5.50 crore in the books. • There were inconsistencies between inventory and receivables reported in the stock auditors reports and financial statements. • Analysis of stock and book debts statement and calculation of Drawing power (DP): • As per terms of sanction, DP was to be calculated with a margin of 25% on stock and receivables. Receivables up to 90 days were to be considered for the calculation of drawing power. • Overstatement of inventory & trade receivables in stock statements were noted. Trade payables have also not been considered in the stock statements for DP calculation. • As evident from the financial statement and the stock statement, the borrower has accounted trade receivables from sister concern Bhanu Farms Limited for calculations of DP in March 2018, which is a clear violation of the terms of sanction. • Based on the information available from the figures reported in the annual reports, it was observed that there was inadequate drawing power in all of the financial years <p>Bank statement analysis:</p> <ul style="list-style-type: none"> • On review of the bank statements of CC and ECLGS accounts it was noted that, the total credits and debits aggregated to Rs.14.56 crore and Rs.11.04 crore respectively. It was noted that amount paid to BFL was Rs.1.04 crore and received was Rs.7.25 crore. Other related parties, with whom transactions were carried out, were Daffodil Tie Up Private Limited, Archana Bangur, Hall and Anderson Limited, Keshav Bangur etc. • An amount of approximately Rs.0.81 crore was advanced to Mr. Keshav Bangur who is holding the position of Director in the company. However, it should be noted that no Interest against this advance has been booked and due to non-availability of data from the borrower, it could not be determined if the sum received contains an Interest element. • Accounts maintained with other banks/ non routing of transactions: • On review of financial statements and the stock audit report provided, it was observed that the borrower was maintaining current account at HDFC Bank, Park Street Branch, Kolkata. • Credit summation in Axis Bank current account was not proportionate with the quantum of revenue reported by the borrower. • This indicates accounts being maintained with other banks. However, no supporting evidence/ access to the books of accounts was provided to conclusively establish any potential diversion of funds. • Conclusion by forensic auditor: • The borrower did not provide access to the books of accounts and critical data / records / information was also not shared despite multiple reminders. Thus, the borrower is construed as ‘non-cooperative’. • The records of Stock Audits carried out and the inventory figures reported in the ABS show variances. • It should be noted that due to the nature of the financing agreement the borrower was provided a facility based on the charge created on the current assets of the company of which inventories and trade receivables form a major part. Inconsistencies noted in these accounts raise a significant question on the account and its operations. • Further, variances were observed in stock value as mentioned in stock statements and ABS as submitted by the borrower. It is evident that the borrower itself has submitted contradicting pieces of information to the bank. • Considering the above scenario and documents it can be concluded that the borrower carried out these activities with an intention to defraud the bank. <p>Findings of Internal Investigation:</p> <ul style="list-style-type: none"> • Issuance of Show Cause Notice to the borrower • Hon’ble Supreme Court vide its judgement dated 27.03.2023, directed that the ‘principle of natural justice’ must be read into the provisions of RBI Master Direction on Frauds. • In view of the said judgement, the Bank issued Show-Cause Notice (SCN) to the borrower on 30.12.2023 sharing our findings and forensic audit report and seeking explanations on the below:

			<ul style="list-style-type: none"> • The borrower was classified as 'Fraud', based on adverse observations in the internal investigation. Internal Investigations • Key findings of Internal Investigation are as under: • Commodity Finance facility limit of Rs.5 crore was sanctioned to the borrower, RAMPL in May 2023. • As per the sanction terms, funding was to be done against Warehouse Receipts (WR) / Stock Receipts (SR), issued by the Collateral Management Agencies (CMA) after certifying the quality and insurance of the stock, for which the funding request was to be received. • M/s Indian Commodities was appointed as Collateral Management Agency (CMA) in this case. M/s Indian Commodities is empaneled with the Bank. • The stock was to be stored in a private unlicensed Warehouse i.e., Sri Venkateshwara Warehouse located in Bellary, Karnataka, onboarded by the Bank through a sub-lease agreement executed between the CMA and the borrower. • On 01.07.2023, 3 SRs were received from M/s Indian Commodities for disbursement of loan against the stock. The commodity pledged by the borrower was paddy. • Accordingly, on receipt of the SRs and quality certificate duly certified for quality of the stock, issued by M/s Indian Commodities (CMA), the Bank disbursed a net amount of Rs.1.34 crore and Rs.1.08 crore aggregating to Rs.2.42 crore, after considering margin of 25%. • The third SR with the stock valuation of Rs.2.59 crore was rejected as it was found that the stock to be funded was not insured. • On 05.07.2023, Economic Offences Wing (E.O.W.), Mumbai sent a Notice to Debit Freeze Bank A/c No.921020017796907 (Current Account) of RAMPL in view of their on-going investigation against Parth Jadhav, the Director of RAMPL, Kashinath Jadhav (father of Parth Jadhav) and others in a case of cheating and criminal breach of trust to the tune of Rs.17 crores, filed by one Mr. Amir Ali. • On 20.07.2023, Bureau Veritas India Ltd. (BVIL), FCI appointed verification agency, conducted the monthly visit as per process to verify the stock stored in Sri Venkateshwara Warehouse located in Bellary, Karnataka. • The agency observed and highlighted serious irregularities like the Warehouse name was not mentioned anywhere at the location, Stock Register was not maintained, Pledge Board of the Bank was not found and above all the most critical observation was that the stock i.e., paddy bags were found to be non-stacked and were in uncountable position.

			<ul style="list-style-type: none"> • The BVIL Verifier also informed that part of the stock as per the SR was kept in other Warehouses, one of which was located at a distance of 1.5 kms from the location. These Warehouses were not on-boarded by the Bank and were not present in the Bank's system. It was also informed by them that the CMA supervisor was not having keys for the other 2 Warehouses. • On 25.07.2023, Mr. S. Prathap, the Sales Rural Executive, posted at Axis Bank, Siruguppa Branch visited the Warehouse location to cross validate the information received about the shortage of bags and found that the Warehouse No.1 was empty. The paddy bags were removed from the Warehouse without permission of the Bank. • He also pointed out that the capacity of the Warehouse was shorter than the quantity mentioned in the SR issued by the CMA. • As per the Commodity Finance Guidelines, a Private Unlicensed Warehouse is on-boarded by the CMA, who takes the control over the Warehouse by way of Lease / Sub-Lease Agreement, then appoint their Supervisor and put their own lock and key in place. • As per the process, on receipt of the FCI agency report and CMA's godown verification report, the godown creation process initiated by the Sales RM is pushed in the tray of CO-Underwriting Godown on-boarding team in eCBF system. • Once the godown is approved by the Underwriting team, CO, the CMA has to execute the agreement (between borrower and CMA) and update the agreement details along with the scan copy of the agreement in the eCBF system at CMA interface. • Once updated, the warehouse creation process moves to the tray of Operations Team for agreement verification and warehouse activation in eCBF. • Sri Venkateshwara Warehouse was on-boarded by the CMA - M/s Indian Commodities and the charge of the Warehouse was taken by way of a sub-lease agreement dated 30.06.2023 executed with the borrower, RAMPL. • After on-boarding of the Warehouse on 01.07.2023, they issued three SRs for disbursement, of which as mentioned above, one SR was rejected for want of stock insurance. • On 20.07.2023, the CMA was alerted about the partial stock being moved to other Warehouses as per the BVIL report. • The CMA M/s Indian Commodities informed that the locks used by them were broken and replaced by some other locks by unknown person. They informed that when their team visited the location to investigate, local villagers prohibited them entry to the Warehouse. It was found by them that the stock was moved from the Warehouse, and they were

			<p>suspecting Supervisor's (CMA staff) lapses / involvement in the incident. This indicated that the CMA had totally lost the control over the Warehouse.</p> <ul style="list-style-type: none"> • The underlying lease agreement, if at all, was executed by the borrower with the Warehouse Owner, was not verified by the CMA as later it was found that the ownership of the Warehouse was claimed by a third party who completely denied having leased the Warehouse to any party. • The Bank had on-boarded the Warehouse basis the sub-lease agreement provided by the CMA and the verification report of FCI. (The Warehouse ownership verification process adopted by the Bank has been strengthened by the Product team in November 2023.) • As the borrower was in police custody, clarification could not be obtained from him. • In view of the obvious lapses on the part of Collateral Manager (CM), the Bank informed the CMA to render a Fixed Deposit of INR 1 crore on which lien would be imposed. The CMA has deposited the same but tried to shift the onus of the due diligence failure on the Bank, to which appropriate response has been sent to them refuting all their claims. • The borrower (Parth Jadhav, Director of the RAMPL) was arrested by the police with respect to some other cheating matter and the commodity involved in both the cases is also different. Presently, the borrower is out of jail on conditional bail. • With reference to the instant matter, M/s Suvindh Commodities E-Com Pvt. Ltd. (Trade Name: Indian Commodities) filed a private complaint u/s 156(3) of CrPC with Hon'ble Judicial Magistrate First Class (JMFC), Siruguppa, directing the local police to register a criminal case against the RAMPL, its directors and staff members of M/s Indian Commodities, u/s 120(B), 408, 420, 465, 467, 468, 471 R/w 34, of IPC who are suspected of having connived with the borrower / prime accused. • Indian Commodities alleged in the police complaint that RAMPL conspired with other accused persons with an intention to defraud Axis Bank, create false documents that there were 34,100 bags of paddy in the warehouse, named, Venkateswara Warehouse at Tular Village, Siruguppa Taluk, Bellary District, Karnataka. • In view of the allegations made by the Indian Commodities, it is suspected that the borrowers have submitted false sub-lease agreement and in connivance with the local staff of Indian Commodities presented fake Stock Receipt. • Show Cause Notice (SCN) was issued to the borrowers, RAMPL and its 2 Directors, viz., Mr.

			<p>Parth Kashinath Jadhav and Ms. Madhuri Mohandas More on 24.02.2024 through the Legal Department. However, no reply has been received to the Notice.</p> <ul style="list-style-type: none"> • The exact extent of the borrower's involvement in this incident could be substantiated upon conclusion of the police investigation, however, their role as suspected perpetrator, could not be denied. • Also, the role of the supervisor and other field staff of the CMA is suspected, and the exact extent of their involvement can be substantiated after the conclusion of the police investigation, and they are considered as co-perpetrators. Conclusion: • The account to be classified as 'Fraud' perpetrated by the borrowers, viz. RAMPL and its Directors in connivance with the staff of Indian Commodities, based on the following: • It was found that the CMA concerned, M/s Indian Commodities (IC) has executed the sub-lease agreement with RAMPL without proper due diligence and verification of the Master Lease Agreement of the Warehouse. • The ownership of the godown is disputed thus, raising a doubt on the bona fides of the sub-lease agreement itself executed between M/s IC and the borrower. • The CM's staff at the location committed serious breaches and deliberately suppressed material information or facts, leading to the Indian Commodities filing a criminal case in this matter against RAMPL and its Directors as well as their own staff concerned. • Active involvement of the CM's field staff in removal of funded paddy bags (commodity pledged with the Bank) is not being ruled out. The CM has lodged a complaint with the local police station. • In view of the foregoing, it is suspected that the fraud has been committed on the Bank by the borrower in connivance with the staff of the CMA. Modus Operandi • Unauthorized release / removal of the commodity pledged with Bank from Private Unlicensed Warehouse due to the Collateral Management Agency having lost control over the Warehouse. <p>Root Cause</p> <ul style="list-style-type: none"> • Godown / Warehouse on-boarding process did not stipulate verification of ownership of the Warehouses and only the structure of the Warehouse is verified. However, additional checks have been introduced. <p>Staff Accountability</p> <ul style="list-style-type: none"> • Assessment of staff accountability in sanction, disbursement and monitoring process are in progress. • Action Taken / Proposed
